Journal ,2003 *Spiritual Growth* Al Danks, 2021-09-01 Spiritual growth is the change and growth of the spiritual nature of our being It involves spiritual transformation and growth to maturity and completion Spiritual maturity has two key characteristics discernment and self control Discernment is necessary for self control When we are spiritually mature we will no longer be infants tossed about by deception And he gave the apostles the prophets the evangelists the shepherds and teachers to equip the saints for the work of ministry for building up the body of Christ until we all attain to the unity of the faith and of the knowledge of the Son of God to mature manhood to the measure of the stature of the fullness of Christ so that we may no longer be children tossed to and fro by the waves and carried about by every wind of doctrine by human cunning by craftiness in deceitful schemes Ephesians 4 11 14 The mature person has their senses trained to discern both good and evil Solid food is for the spiritually mature the person who by constant use has trained their senses to discern good from evil Hebrews 5 14 So spiritual growth involves the transformation to a new way of discerning and the maturation of that new way A spiritually mature person has self control If anyone does not stumble in what he says he is a spiritually mature man able also to bridle his whole body James 3 2 So spiritual growth also involves the transformation to a new way to control ourselves and the maturation of that new way A spiritually mature person has all of the spiritual attributes necessary for life and godliness Spiritual growth involves the addition and maturation of those attributes To grow spiritually we must do two things We must sever our connection with the flow of corruption that sustains and strengthens our corrupt spiritual nature We must form a continuous eternal connection with the flow of incorruptibility that will form sustain and strengthen a new spiritual nature in us *Herald of Gospel Liberty* Elias Smith, 1903 **Christian Science Sentinel** ,1900 Introduction
