Unruly Places:

Unruly Places Alastair Bonnett, 2014-07-08 This guide to weird ruined and wonderful spots across the globe explores disappearing islands forbidden deserts and much more a terrific book Los Angeles Times At a time when Google Maps Street View can take you on a virtual tour of Yosemite's remotest trails it's hard to imagine there's any uncharted ground left on the planet But in *Unruly Places* Alastair Bonnett rekindles our geographical imaginations with excursions into some of the world's most peculiar places such as moving villages secret cities no man's lands and floating islands Bonnett investigates Sandy Island a place that appeared on maps until just two years ago despite the fact that it never existed Sealand an abandoned gun platform off the English coast that a British citizen claimed as his own sovereign nation issuing passports and crowning his wife as a princess Baarle a patchwork of Dutch and Flemish enclaves where walking from the grocery store's produce section to the meat counter can involve crossing national borders and many other curious locales In this delightfully quirky guide down the road much less traveled Bonnett reveals that the most extraordinary places on earth might be hidden in plain sight Ron Charles Washington Post

Unruly Cities? Chris Brook, Gerry Mooney, Steve Pile, 2006-02 The text argues that cities are open to many forms of order and disorder both from within the city and outside They represent cities potentials as well as their problems It challenges the assumption that cities are threatened by disorder from below and that they might be ruled by order imposed from above

An Unruly World? Andrew Herod, Geroid O Tuathail, Susan M. Roberts, 2002-09-11 An *Unruly World* explores the diverse conundrums thrown up by seemingly unruly globalization Examining how fast transnational capitalism is re making the rules of the game in a wide variety of different places domains and sectors the authors focus on a wide range of issues from analysis of soft capitalism and the post Cold War organizational drives of international trade unions to the clamour of states to reinvent welfare policy and the efforts of citizen groups to challenge trade and financial regimes An *Unruly World* argues that we are not living in a world bereft of rules and rulers the rules governing the global economy today are more strictly enforced by international organizations and rhetoric than ever before

Unruly People Robert J. Antony, 2016-08-01 *The Playful University* Rikke Toft Nørgård, Nicola Whitton, 2024-12-12 This book provides philosophical political and practical insights that open ways for the university in going beyond its tightly controlled state and into more playful and imaginative futures In the context of a marketised and regulated environment that stifles creativity and curiosity in higher education this collection provides an antidote that lies in the potential of play It identifies tactics and tools for playful practices to conjure real utopias and pathways for the present and possible futures Pulling together global perspectives from a wide array of different disciplines including higher education sociology philosophy media studies design literature play studies game studies and political science it concludes with a collaborative chapter that offers philosophically and theoretically grounded principles for the playful university The book shows that it is possible to reimagine a higher education in which students and staff approach their studies with a sense of purpose care and

openness to explore imagine and build a better future Looking beyond pedagogy to imagination and wonder as important perspectives within the university this is an essential read for those interested in play and subversion in higher education

Education for Employability (Volume 2) Joy Higgs, Will Letts, Geoffrey Crisp, 2019-08-12 We often look back at changing trends in higher education and call them bandwagons temporary fads that everyone rushes to be part of and jump on While much of the hype and jargon of The Employability Agenda may fade from the tip of our tongues or perhaps be subsumed into the norm in the mid future there are two fundamental changes that will not the digital revolution embedded in changing work and economic practices and the re globalisation of the world that this and other politico economic changes have brought about These will continue to be part of how we live and work so tertiary education will need to take its part in supporting employ ability far beyond either the timing or scope of preparation for initial employment Employability is important to local national and international labour market contexts parameters and policies As well as impacting workforces employability is an essential characteristic of workers It is very important that employability is understood and enacted as personal employability not just employment of individuals We have found that employability is defined as much if not more by mindset rather than skillset Part of this mindset involves recognising the unknowns of future work and an even bigger part is recognising our responsibilities as workers and educators lies in shaping our own employability and that of the novice learners and workers in our spaces of influence and communities of practice In Education for Employability Volume 2 Learning for Future Possibilities we continue on from the big agenda discussions of Education for Employability Volume 1 The Employability Agenda to explore education for employability in a variety of spaces in the context of higher education as an entrance into the workforce in joining communities of practice and in the lifelong pursuit of employability preparing people for a portfolio of careers rather than a job for life These two books show how educational leaders educators industry partners and thought leaders are imagining and addressing the challenges posed by the current and future changes facing our work practices and workplaces

Ritual Practice in Modern Japan Satsuki Kawano,2005-03-31 National surveys indicate that most Japanese while professing no religious commitment frequently perform rituals They regularly tend their family home altars look after family graves participate in neighborhood festivals and visit Shinto shrines and Buddhist temples Are these rituals mere formalities Based on fourteen months of fieldwork in Kamakura city near Tokyo Satsuki Kawano examines the power of ritual and its relevance for modern urbanites She reveals the indebtedness of ritual to forms that create an elevated context and infuse the mundane with a sense of moral order By employing acts and environments common to everyday life Kawano argues ritual evokes morally positive values such as purity gratitude respect and indebtedness Rather than objectify morality in a sacred text or religious doctrine ritual embodies and emplaces a sense of what it means to be a good person and creates moments of personal significance and engagement In Kamakura belief is therefore a consequence and not a prerequisite of ritual engagement Ritual Practice in Modern Japan effectively challenges the widespread assumption that ritual in non Western societies has little moral significance and that with modernization traditional practices inevitably disappear This is a book that will interest scholars and students of cultural anthropology ritual studies and Japanese studies

Potential History Ariella Aïsha Azoulay,2019-11-19 A passionately urgent call for all of us to unlearn

imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella A sha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium s brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In Potential History Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics

Desire Lines Noëleen Murray, Nick Shepherd, Martin Hall, 2007-08-07 Ground breaking multi disciplinary new study of heritage practice in South Africa from native practitioners and scholars following the implementation of the National Heritage Resources Act *Gaining Freedoms* Berna Turam, 2015-04-08 Gaining Freedoms reveals a new locus for global political change everyday urban contestation Cities are often assumed hotbeds of socio economic division but this assessment overlooks the importance of urban space and the everyday activities of urban life for empowerment emancipation and democratization Through proximity neighborhoods streets and squares can create unconventional power contestations over lifestyle and consumption And through struggle negotiation and cooperation competing claims across groups can become platforms to defend freedom and rights from government encroachments Drawing on more than seven years of fieldwork in three contested urban sites a downtown neighborhood and a university campus in Istanbul and a Turkish neighborhood in Berlin Berna Turam shows how democratic contestation echoes through urban space Countering common assumptions that Turkey is strongly polarized between Islamists and secularists she illustrates how contested urban space encourages creative politics the kind of politics that advance rights expression and representation shared between pious and secular groups Exceptional moments of protest like the recent Gezi protests which bookend this study offer clear external signs of upheaval and disruption but it is the everyday contestation and interaction that forge alliances and inspire change Ultimately Turam argues that the process of democratization is not the reduction of conflict but rather the capacity to form new alliances out of conflict
