Unser Heldenkaiser Wilhelm Oncken:

Unser Heldenkaiser Wilhelm Oncken, 1898 This work is a biography of Wilhelm I King of Prussia and Emperor of Germany from 1861 to 1888

A Duel of Giants David Wetzel, 2003 Combining impeccable scholarship and literary elegance David Wetzel depicts the drama of machinations and passions that exploded in a war that forever changed the face of European history

Monarchy, Myth, and Material Culture in Germany 1750-1950 Eva Giloi, 2011-07-21 A fascinating study of how ordinary German subjects collected and consumed royal relics and memorabilia

Brahms Patriotic and Political David Brodbeck, 2025-06-10 Offers a historical context in which to understand how Brahms's three most intensely political and nationalistic works interact with questions of German patriotism liberalism and nationalism Johannes Brahms rarely composed music that engaged the national political issues of the day Three of his works though do precisely this the *Fünf Lieder für Männerchor* the *Triumphlied* for eight part chorus and orchestra and the *Fest und Gedenksprüche* for eight part chorus a cappella In *Brahms Patriotic and Political* David Brodbeck challenges notions that Brahms's political music evinces embarrassing anticipations of later Prussian militarism and German chauvinism Instead he provides a thick historical context in which to read these works and offers a more nuanced understanding of the intersections of Brahms's music and questions of German patriotism liberalism and nationalism than has been customary in the field of historical musicology In particular Brodbeck relates the *Männerchor Lieder* to the debate over how and in what form a German nation state might be achieved he relates the *Triumphlied* to the euphoria but also the solemnity that attended the foundation of the German Reich and he relates the *Fest und Gedenksprüche* to the necessary work of instilling in the diverse German people a genuine sense of national belonging At the same time he traces Brahms's changing attitude toward Otto von Bismarck the Blacksmith of the Reich whom he originally loathed but in time came to venerate *Brahms Patriotic and Political* will appeal to readers with interests in both nineteenth century German music and Central European history

The People's Wars Mark Hewitson, 2017 The second of three volumes from Mark Hewitson which explore the experiences of conflict in modern Germany and the resounding impact of these across Europe and the world *The People's War* takes a new look at the wars of unification and charts the rise of nationalism and the breakdown of the existing state system in the 1850s and 1860s

Bismarck, the Hohenzollern Candidacy, and the Origins of the Franco-German War of 1870 Lawrence D. Steefel, 2018-12-01 It is known that the plan to elect a Prussian prince to the Spanish throne was the proximate and Bismarck's Ems telegram an immediate cause of the war of 1870 But much has remained obscure about the roles of the principal figures Lawrence Steefel fills in the lacunae with secret German documents available only after World War II including the correspondence between Bismarck and Marshal Prim of Spain It becomes clear that Bismarck did not initiate the Hohenzollern candidacy and that one of his most important reasons for adopting it was his fear of an anti Prussian coalition of Catholic powers

Wilhelm II John C. G. Röhl, 2004-08-19 Kaiser Wilhelm II 1859 1941 ruled Imperial Germany from his

accession in 1888 to his enforced abdication in 1918 at the end of the First World War This book based on a wealth of previously unpublished archival material provides the most detailed account ever written of the first half of his reign Following on from John Ruhl's definitive and highly acclaimed *Young Wilhelm The Kaiser's Early Life 1859-1888* 1998 the volume demonstrates the monarch's dynastic arrogance and the wounding abuse he showered on his own people as step by step he built up his personal power His thirst for glory his overweening nationalism and militarism and his passion for the navy provided the impetus for a breathtaking long term goal the transformation of the German Reich into the foremost power in the world Urgent warnings from all sides both against the revival of a semi absolute Personal Monarchy on the threshold to the twentieth century and against the challenge his goal of world power implied for the existing World Powers Great Britain France and Russia were brushed aside by the impetuous young ruler with his faithful military retinue and blindly devoted court favourites Soon the predicted consequences constitutional crisis at home and diplomatic isolation abroad began to make their alarming appearance

Wilhelm I as German Emperor Frederik Frank Sterkenburgh, 2025-01-17

This book offers the first ever scholarly study of Wilhelm I as Germany's first Kaiser For decades Wilhelm has been dismissed by historians as a political nullity and an unwilling imperial figurehead who was perpetually overruled by chancellor Otto von Bismarck As a result scholars concluded that the imperial role did not reach maturity until the accession of Wilhelm II This book challenges this assumption by analysing how Wilhelm used self staging to effectuate his role as German emperor and set the precedent for his successors Friedrich III and Wilhelm II It explores how he oversaw and intervened in the political and military decision making processes his use of politics of history his understanding and practicing of the imperial role towards other German states and dynasties his self presentation in the new German capital and how his public persona was distorted in German cultural memory after his death in 1888 The book draws on a wealth of previously unexplored sources including material from Wilhelm's personal archive the archives of the Hohenzollern monarchy the Prussian state and local archives It offers a much needed reassessment of Wilhelm I and makes an important contribution to debates on the role of the Kaiser in German politics the political system and culture of the early German nation state and how the Hohenzollern monarchy adapted to the demands of generating popular support for its new German imperial role

Violence and Legitimacy Volker Sellin, 2017-12-18 Benjamin Constant distinguished two kinds of government unlawful government based on violence and legitimate government based on the general will In Europe monarchy was for over a thousand years considered the natural form of legitimate government The sources of its legitimacy were the dynastic principle religion and the ability to protect against foreign aggression At the end of the eighteenth century the revolutions in America and France called into question the traditional legitimacy of monarchy but Volker Sellin shows that in response to this challenge monarchy opened up new sources of legitimacy by concluding alliances with constitutionalism nationalism and social reform In some cases the age of revolution brought on a new type of leader basing his claim to power on charisma

The Life of

His Majesty William the Second, German Emperor William Jacks,1904 The Open Shelf ,1911 *Citizens Into Dishonored Felons* Timon de Groot,2023-04-14 Over the course of its history the German Empire increasingly withheld basic rights such as joining the army holding public office and even voting as a form of legal punishment Dishonored offenders were often stigmatized in both formal and informal ways as their convictions shaped how they were treated in prisons their position in the labour market and their access to rehabilitative resources With a focus on Imperial Germany s criminal policies and their afterlives in the Weimar era *Citizens into Dishonored Felons* demonstrates how criminal punishment was never solely a disciplinary measure but that it reflected a national moral compass that authorities used to dictate the rights to citizenship honour and trust *The Franco-Prussian War* Michael Howard,2013-05-13 In 1870 Bismarck ordered the Prussian Army to invade France inciting one of the most dramatic conflicts in European history It transformed not only the states system of the Continent but the whole climate of European moral and political thought The overwhelming triumph of German military might evoking general admiration and imitation introduced an era of power politics which was to reach its disastrous climax in 1914 First published in 1961 and now with a new introduction The Franco Prussian War is acknowledged as the definitive history of one of the most dramatic and decisive conflicts in the history of Europe *The Origins of the War of 1870* Robert Howard Lord,1924 **The Franco-Prussian War** , Annual List of New and Important Books Added to the Public Library of the City of Boston ,1898 *Über das lateinische element in der englischen Sprache ...* Richard Zwick,1898
Wilhelm I. Kaiserfrage und Kölner Dom Karl Hampe,2025-07-05 Unveränderter Nachdruck der Originalausgabe von 1936 Der Verlag Antigonos spezialisiert sich auf die Herausgabe von Nachdrucken historischer Bücher Wir achten darauf dass diese Werke der Öffentlichkeit in einem guten Zustand zugänglich gemacht werden um ihr kulturelles Erbe zu bewahren
