Unspeakable Acts Why Men Sexually Abuse Children:

Unspeakable Acts Doug W. Pryor, 1996-07-01 A holistic sociological approach that explores why offenders sexually abuse children The sexual abuse of children is one of the most morally unsettling and emotionally inflammatory issues in American society today It has been estimated that roughly one out of every four girls and one in ten boys experience some form of unwanted sexual attention either inside or outside the family before they reach adulthood How should society deal with the sexual victimization of children Should known offenders be released back into our communities If so where and with what rights should they be allowed to live In *Unspeakable Acts* Douglas W Pryor argues that much of this debate designed to deal with abusers after they have offended ignores the important issue of why men cross these forbidden sexual boundaries to molest children in the first place and how the behavior can possibly be prevented before it starts Incorporating in depth interviews with more than thirty convicted child molesters Pryor explores how men become involved with breaking sexual boundaries with children He looks at how their lives prior to offending contributed to and led up to what they did the ways that initial interest in sex with children began the tactics offenders employed to molest their victims over time how they felt about and reacted to their behavior between offending episodes and how they were ultimately able to stop The author expands our understanding of this often reviled little understood group leaving us with the uneasy conclusion that the moral wall separating us from what is defined as extreme sick behavior is not as opaque as we would like to believe

Monsters Pamela D. Schultz, 2005-01-17 In the wake of recent violence our nation has experienced and the paranoia that has

ensued we've directed our attention to potential terrorists in our midst. Yet our children face more risk from people they know than from terrorists they have never met. An estimated one in five girls and one in ten boys in the United States experience some form of sexual abuse by age eighteen. What could possibly motivate a person to molest a child? Not Monsters documents the stories of nine convicted child molesters through one-on-one interviews, listening to what offenders have to say about their crimes and exploring the roots of these behaviors from a social constructionist perspective. Their words paint a compelling and frightening portrait of how sexual abuse works in Western culture to perpetuate a political and social system of dominance and control.

21st Century Criminology: A Reference Handbook J. Mitchell Miller, 2009-08-06

21st Century Criminology: A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a first look reference source for most criminological inquiries. Both connected to the sociological origins of criminology (i.e., theory and research methods) and the justice systems' response to crime and related social problems, as well as coverage of major crime types, this two-volume set offers a comprehensive overview of the current state of criminology. From student term papers and masters theses to researchers commencing literature reviews, 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology.

Global Perspectives on Prostitution and Sex Trafficking Rochelle L. Dalla, Lynda M. Baker, John Defrain, Celia Williamson, 2011-04-08

This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven geo-cultural areas of the world. The 18 chapters in this volume (Volume I) are devoted to examination of the commercial sex industry (CSI) in countries within Africa, Asia, Middle East, and Oceania, while the 16 chapters that comprise Volume II focus exclusively on Europe, Latin America, and North America. Volume II also includes a global section which includes chapters that are globally relevant rather than those devoted to a particular country or geographic location. The content of each volume, as well as each chapter, reflects great diversity in focus, writing style, and personal position regarding the commercial sex industry. Diversity extends to the contributors, who are comprised of international scholars, service providers, and policy advocates representing a variety of fields and disciplines with distinct and varied frames of reference and theoretical underpinnings with regard to the commercial sex industry. In addition to addressing aspects of the CSI across the globe as impacted by geography and culture, authors have also provided a spectrum of implications of their work, ranging from continued scholarship and research to legislative maneuvers and policy change to suggestions for collaboration across NGOs, fieldworkers, clinicians, and service providers. Together, the 34 expertly crafted chapters provide a wealth of knowledge from which to more deeply appreciate and contemplate the global commercial sex industry. By uniting contributors from around the world, this book aims to build a relatively common knowledge base on global prostitution and sex trafficking.

Sex and Harm in the Age of

Consent Joseph J. Fischel, 2016-05-15 Sex and Harm in the Age of Consent cautions against the adoption of consent as our primary determinant of sexual freedom For Joseph J Fischel consent is not necessarily always ethically sound It is he argues a moralized fiction and it churns out figures for its normativity the predatory sex offender and the innocent child Examining the representation of consent in U S law and media culture Fischel contends that the figures of the sex offender and the child are consent s alibi its negative space enabling fictions that allow consent to do the work cut out for it under late modern sexual politics Engaging legal queer feminist and political theory case law and statutory law and media representations Fischel proposes that we change our adjudicative terms from innocence consent and predation to vulnerability sexual autonomy and peremption which he defines as the uncontrolled disqualification of possibility Such a shift in theory law and life would be less damaging for young people more responsive to sexual violence and better for sex *Sex, Youth, and Sex Education*
