Unwanted Beauty Brett Ashley Kaplan, 2007 Controversial questions about beauty in artistic depictions of the Holocaust
Beauty, Violence, Representation Lisa A. Dickson, Maryna Romanets, 2014-05-09 This volume explores the relationship among beauty violence and representation in a broad range of artistic and cultural texts including literature visual art theatre film and music Charting diversifying interests in the subject of violence and beauty dealing with the multiple inflections of these questions and representing a spectrum of voices the volume takes its place in a growing body of recent critical work that takes violence and representation as its object This collection offers a unique opportunity however to address a significant gap in the critical field for it seeks to interrogate specifically the nexus or interface between beauty and violence While other texts on violence make use of regimes of representation as their subject matter and consider the effects of aestheticization beauty as a critical category is conspicuously absent Furthermore the book aims to rehabilitate beauty implicitly conceptualized as politically or ethically regressive by postmodern anti aesthetics cultural positions and further facilitate its come back into critical discourse

The Representation of Genocide in Graphic Novels Laurike in 't Veld, 2018-12-19 This book mobilises the concept of kitsch to investigate the tensions around the representation of genocide in international graphic novels that focus on the Holocaust and the genocides in Armenia Rwanda and Bosnia In response to the predominantly negative readings of kitsch as meaningless or inappropriate this book offers a fresh approach that considers how some of the kitsch strategies employed in these works facilitate an affective interaction with the genocide narrative These productive strategies include the use of the visual metaphors of the animal and the doll figure and the explicit and excessive depictions of mass violence The book also analyses where kitsch still produces problems as it critically examines depictions of perpetrators and the visual and verbal representations of sexual violence Furthermore it explores how graphic novels employ anti kitsch strategies to avoid the dangers of excess in dealing with genocide The Representation of Genocide in Graphic Novels will appeal to those working in comics graphic novel studies

Representing Genocide Rebecca Jinks, 2016-06-02

This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West. Rebecca Jinks focuses in particular on the canonical 20th century cases of genocide: Armenia, Cambodia, Bosnia, and Rwanda. Using literature, film, photography, and memorialisation, she demonstrates that we can only understand the Holocaust's status as a benchmark for other genocides if we look at the deeper structural resonances which subtly shape many representations of genocide. *Representing Genocide* pursues five thematic areas in turn: how genocides are recognised as such by western publics; the representation of the origins and perpetrators of genocide; how western witnesses represent genocide; representations of the aftermath of genocide; and western responses to genocide. Throughout, the book distinguishes between mainstream and other more nuanced and engaged representations of genocide. It shows how these mainstream representations, the majority, largely replicate the representational framework of the Holocaust, including the way in which mainstream Holocaust representations resist recognising the rationality, instrumentality, and normality of genocide, preferring instead to present it as an aberrant, exceptional event in human society. By contrast, the more engaged representations, often but not always originating from those who experienced genocide, tend to revolve around precisely genocide's ordinariness and the structures and situations common to human society which contribute to and become involved in the violence.

Discourses That Matter Maria José Canelo, 2013-10-03

How can English and American Studies be instrumental to conceptualizing the deep instability we are presently facing? How can they address the coordinates of this instability, such as war, terrorism, the current economic and financial crisis, and the consequent myriad forms of deprivation and fear? How can they tackle the strategies of dehumanization, invisibility, and the naturalization of inequality and injustice entailed in contemporary discourses? This anthology grew out of an awareness of the need to debate the role of English and American Studies both in the present context and in relation to the so-called demise of the Humanities. Drawing on Judith Butler's rethinking of materiality as the effect of power in her study *Bodies That Matter* (1993), we locate this collection of essays at the crossroads of discourse and power, while we expect the work collected here to highlight the ability of discourses to materialize in or as truth and as such to support or decry particular constituencies. Discourses therefore matter to us as products and vehicles of power relations that can be subject to the analytical and interpretative tools of English and American Studies. Our idea was to challenge especially young scholars to position their research concerning the ability of their fields to be discourses that matter in the case in point to be critical practices that make an active intervention in current debates. By focusing on matters such as language as witness to the world, representations of gender, race, and ethnicity, performative discourses, exceptionalism, and power, and interculturality, these essays pursue the chance to deepen, enlarge, and question both literary and cultural phenomena, their established critical readings, and the strategies deployed in representations. Finally, English and American Studies in the present collection demonstrate their affiliation to the Humanities.

by exploring the numerous possibilities offered by their discourses their ability to foster critical thought allowing us to think for and outside ourselves their capacity to test argue and question and their profound imaginative potential Memory and Complicity Debarati Sanyal, 2015-03-02 A sophisticated nuanced and beautifully written account of the intersecting legacies of genocide and colonialism in postwar France Michael Rothberg author of *Multidirectional Memory* Remembering the Holocaust in the Age of Decolonization Since World War II French and Francophone literature and film have repeatedly sought not to singularize the Holocaust as the paradigm of historical trauma but rather to connect its memory with other memories of violence namely that of colonialism These works produced what Debarati Sanyal calls a memory in complicity attuned to the gray zones that implicate different regimes of violence across history as well as those of different subject positions such as victim perpetrator witness and reader spectator Examining a range of works from Albert Camus Primo Levi Alain Resnais and Jean Paul Sartre to Jonathan Littell Assia Djebar Giorgio Agamben and Boualem Sansal *Memory and Complicity* develops an inquiry into the political force and ethical dangers of such implications contrasting them with contemporary models for thinking about trauma and violence and offering an extended meditation on the role of aesthetic form especially allegory within acts of transhistorical remembrance What are the political benefits and ethical risks of invoking the memory of one history in order to address another What is the role of complicity in making these connections How does complicity rather than affect based discourses of trauma shame and melancholy open a critical engagement with the violence of history What is it about literature and film that have made them such powerful vehicles for this kind of connective memory work As it offers new readings of some of the most celebrated and controversial novelists filmmakers and playwrights from the French speaking world *Memory and Complicity* addresses these questions in order to reframe the way we think about historical memory and its political uses today **Rewriting Franco's Spain** Samuel

O'Donoghue, 2017-10-18 *Rewriting Franco's Spain* Marcel Proust and the Dissident Novelists of Memory proposes a new reading of some of the most culturally significant and closely studied works of Spanish memory fiction from the past seventy years It examines the influence of French writer Marcel Proust on fiction concerning the Spanish Civil War and Franco's dictatorship by Carmen Laforet Juan Goytisolo Juan Benet Carmen Mart n Gait e Jorge Sempr n and Javier Mar as It explores the ways in which la recherche du temps perdu has been instrumental in these authors works galvanizing their creative impetus shaping their imaginative act and guiding their adversarial stance toward Franco's regime This book illustrates how these writers use Proustian themes and techniques and thereby enhances our understanding of the function of memory and fictional creation in some of the most important milestones in contemporary Spanish literature *Rewriting Franco's Spain* argues that an appreciation of Proust's pervasive influence on Spanish memory writing obliges us to reconsider the notion that Franco's regime maintained a rigid stranglehold on imported culture Capturing the richness of Spanish novelists contact with literature produced outside of Spain it challenges the prevailing scholarly tendency to focus on the novelists immediate

sociopolitical concerns There is more to these texts than a simple testimony of the brutality and hardship of the civil war and life under Franco By illuminating the subversive nature of Spanish novelists use of a Proust inspired practice of self writing Rewriting Franco s Spain seeks to readjust some of the ways we view the role of novelists living during the regime and in its wake It advocates a conception of novelists as dissidents teasing out the seditious undercurrent of their cultivation of self writing and examining how they disputed the regime s ideas about what culture should look like The preconception that the development of Spanish literature under Franco was stunted because Spaniards were prevented from reading works considered an affront to National Catholic sensibilities is cast aside as is the notion that Spain was isolated from narrative developments elsewhere Rewriting Franco s Spain ultimately reveals the centrality of Proust s monumental novel in the evolution of contemporary Spanish literature

The Aesthetics of Antifascist Film Jennifer Lynde Barker, 2013 Through a series of detailed film case histories ranging from The Great Dictator to Hiroshima mon amour to The Lives of Others The Aesthetics of Antifascist Film Radical Projection explores the genesis and recurrence of antifascist aesthetics as it manifests in the WWII Cold War and Post Wall historical periods Emerging during a critical moment in film history 1930s 1940s Hollywood cinematic antifascism was representative of the international nature of antifascist alliances with the amalgam of film styles generated in migr Hollywood during the WWII period reflecting a dialogue between an urgent political commitment to antifascism and an equally intense commitment to aesthetic complexity Opposed to a fascist aesthetics based on homogeneity purity and spectacle these antifascist films project a radical beauty of distortion heterogeneity fragmentation and loss By juxtaposing documentation and the modernist techniques of surrealism and expressionism the filmmakers were able to manifest a non totalizing work of art that still had political impact Drawing on insights from film and cultural studies aesthetic and ethical philosophy and socio political theory this book argues that the artistic struggles with political commitment and modernist strategies of representation during the 1930s and 40s resulted in a distinctive radical aesthetic form that represents an alternate strand of post modernism

Poetry as Testimony Antony Rowland, 2014-03-26 This book analyzes Holocaust poetry war poetry working class poetry and 9/11 poetry as forms of testimony Rowland argues that testamentary poetry requires a different approach to traditional ways of dealing with poems due to the pressure of the metatext the original traumatic events the poems demands for the hyper attentiveness of the reader and a paradox of identification that often draws the reader towards identifying with the poet's experience but then reminds them of its sublimity He engages with the work of a diverse range of twentieth century authors and across the literature of several countries even uncovering new archival material The study ends with an analysis of the poetry of 9/11 engaging with the idea that it typifies a new era of testimony where global secondary witnesses react to a proliferation of media images This book ranges across the literature of several countries cultures and historical events in order to stress the large variety of contexts in which poetry has functioned productively as a form of testimony and to note the importance of the availability of translations to the formation of literary canons **Warped Mourning** Alexander Etkind, 2023-05-25 A superb study of Russian cultural memory makes all too clear ghosts of the unburied dead affect literature art public life and mental health too The Economist After Stalin's death in 1953 the Soviet Union dismantled the enormous system of terror and torture that he had created But there has never been any Russian ban on former party functionaries nor any external authority to dispense justice Memorials to the Soviet victims are inadequate and their families have received no significant compensation This book's premise is that late Soviet and post Soviet culture haunted by its past has produced a unique set of memorial practices More than twenty years after the collapse of the Soviet Union Russia remains the land of the unburied the events of the mid twentieth century are still very much alive and still contentious Alexander Etkind shows how post Soviet Russia has turned the painful process of mastering the past into an important part of its political present Every page contains fresh striking insights not only in the intrinsic value of art itself but more significantly in the process of mourning This brilliant book will be indispensable for scholars of mourning theories Choice There is undoubtedly much that is new and exciting in this study of the impact of state violence on the form and content of art and scholarship in post Stalin Russia Russian Review A fascinating and haunting study of how successive Kremlin leaders and the intelligentsia have explained the Gulag and Stalin's crimes Strategic Europe **Roth and Celebrity** Aimee L.

Pickford,2013 Holocaust artworks intuitively must fulfill at least two criteria artistic lest they be merely historical documents and historical lest they distort the Holocaust or become merely artworks The Sense of Semblance locates this problematic within philosophical aesthetics as a version of the conflict between aesthetic autonomy and heteronomy and argues that Adorno s dialectic of aesthetic semblance describes the normative demand that artworks maintain a dynamic tension between the two The Sense of Semblance aims to move beyond familiar debates surrounding postmodernism by demonstrating the usefulness of contemporary theories of meaning and understanding including those from the analytic tradition Pickford shows how the causal theory of names the philosophy of tacit knowledge the analytic philosophy of quotation Sartre s theory of the imaginary the epistemology of testimony and Walter Benjamin s dialectical image can help explicate how individual artworks fulfill artistic and historical desiderata In close readings of Celan s poetry Holocaust memorials in Berlin the quotational artist Heimrad Backer Claude Lanzmann s film Shoah and Art Spiegelman s graphic novel Maus Pickford offers interpretations that in their precision specificity and clarity inaugurate a dialogue between contemporary analytic philosophy and contemporary art The Sense of Semblance is the first book to incorporate contemporary analytic philosophy in interpretations of art and architecture literature and film about the Holocaust
