Gold, Oil and Avocados Andy Robinson, 2021-08-17 The past decade has seen major political upheaval in Latin America from Brazil to Chile to Venezuela to Bolivia but to understand what happened ask first where your quinoa and lithium batteries came from The 21st century began optimistically in Latin America Left leaning leaders armed with programs to reduce poverty and reclaim national wealth were seeing results but as the aughts gave way to the teens they began to fall like dominos Where did the dreams of this pink tide go Look no further than the original culprits of Latin American disenfranchisement resource rich land and unscrupulous extraction Recounting the story commodity by commodity Andy Robinson reveals what oxen have to do with the rise of Jair Bolsonaro how quinoa explains the mob that descended on Evo Morales and why oil is the culprit behind the protracted coup in Venezuela In addition to the usual suspects like gold and bananas which underscored the original plunder

of the Americas Robinson also shows how a new generation of valuable resources like coltan for smartphones lithium for electric cars and niobium for SpaceX rockets have become important players in the fate of Latin America And as the energy transition sets mineral prices soaring Latin America remains at the mercy of the rollercoaster of commodity prices In Gold Oil and Avocados Robinson takes readers from the salt plains of Chile to the depths of the Amazonian jungle to stitch together the story of Latin America s last decade showing how the imperial plunder of the past carries on today under a new name

John Morrissey, 2017-06-15 Nowhere has the U S military established more bases lost more troops or spent more money in the last thirty years than in the Middle East and Central Asia These regions fall under the purview of United States Central Command CENTCOM not coincidentally they include the most energy rich places on earth From its inception CENTCOM was tasked with the military and economic security of this key strategic area the safeguarding of commercial opportunities therein and ultimately the policing of a pivotal yet precarious space in the broader global economy CENTCOM calls this mission its Long War This book tells the story of that long war a war underpinned by a range of entangled geopolitical and geoeconomic visions and involving the use of the most devastating Western interventionary violence of our time Starting with a historical perspective John Morrissey explores CENTCOM s Cold War origins and evolution before addressing key elements of the command s grand strategy including its interventionary rationales and use of the law in war Engaging a wide range of scholarship on neoliberalism imperialism geopolitics and Orientalism the book then looks in depth at the military interventions CENTCOM has spearheaded and critically assesses their consequences in terms of human geography Recent books on CENTCOM have focused on command structures intelligence issues and interpersonal rivalries In contrast The

Long War asks critical questions about CENTCOM's leading role in shaping and enacting U.S. foreign policy over the last thirty years. The book positions CENTCOM pivotally in the story of U.S. global ambition over this period by documenting its efforts to oversee a global security strategy defined in military economic terms and enabled via specific legal territorial tactics. This is an important new study on the blurring of war and economic aims on a global scale. **Time for Peace** Luc

Reychler, 2015-10-01 For building sustainable peace and security the time is always now. Violence in our world extends beyond armed conflicts; it exists in our social and economic structures, not to mention in our destruction of the environment. How can we build more sustainable development and peace? In this innovative, ambitious book, Dr. Luc Reychler argues that we must drastically change our temperament or the way we deal with time. He surveys the vast temporal landscape and considers its many dimensions, such as how time relates to emotions, religion, and conflict, and how our time horizons affect the natural world. Using examples such as Hurricane Katrina and regime change in Libya, Reychler shows how time is misused in conflicts, be it the failure to anticipate a disaster or the manipulation of time to create a false sense of urgency. Ultimately, he proposes a more adaptive attitude to time so that we can be proactive rather than reactive in our efforts at sustainable development and conflict resolution. **Development and Social Change** Philip McMichael, Heloise

Weber, 2020-12-15 Development and Social Change: A Global Perspective describes the dramatic acceleration of the global and political economy in four parts: colonialism, the development era, the current era of globalization, and global counter-movements for equity and sustainability. **Left Behind in the Race to the Top** Julie A. Gorlewski, Brad J.

Porfilio, 2013-08-01 Public education is suffering attacks that are well-funded and extraordinarily complex and multifaceted. These conditions make it difficult for educators and citizens to gather the information they need to mount meaningful resistance, especially since mainstream media tends to be uncritically supportive of neoliberal reforms. The Orwellian language of reforms is adopted and promoted through news outlets, politicians, and film; thus, arguments against these reforms must bubble up through social media and alternative outlets. By providing a coherent, comprehensive description of contemporary neoliberal initiatives and analyzing their effects on students, teachers, administrators, and teacher education, this book will allow educators, parents, students, and citizens to strengthen their resolve to save public education and potentially work to preserve the promise of democracy. This book examines and uncovers the effects of standardization and privatization on public education. Contributors consider the how of standardized curriculum and assessment coupled with philanthropic and corporate pressure have influenced the experiences of students, parents, and teachers. Divided in sections entitled Testing, Testing, Privatization, and Militarization, Redefining Schools, Alienation, Displacing Students and Teachers, and Resistance, Opting Out, and Hope for Change, this text offers a combination of information and inspiration for teachers, teacher educators, policymakers, parents, and anyone interested in understanding the current state of public education. *The*
