Homeownership in Hong Kong Chung-kin Tsang, 2021-05-24 This book studies the cultural framework of the

connections between homeownership and social stability in Hong Kong In the post war period homeownership became the most preferable housing choice in developed societies such as Australia Britain Japan Spain and the United States In the financialization era its proliferation aggregated enormous wealth and debt in the housing and mortgage markets affecting social stability by creating inequality and housing unaffordability Hong Kong is the most extreme example of this among developed societies in recent years the city has made international headlines both for its housing problem and its social instability By studying the history of homeownership in Hong Kong over a period of four decades Chung kin Tsang proposes that homeownership is inseparable from the social imagination of the future conceptualizing this framework as hope mechanism This perspective helps trace the connections between House Buying as a hope mechanism one which is central to subject formation life goals and temporal mapping for socially shared life planning and social stability Given its unique approach specifically its use of hope as an analytical category this book will prove to be a useful resource for scholars in economic culture and financialization and Asian Studies especially those working on the cultural sociopolitical and economic history of Hong Kong

Demystifying Doha Ashraf M. Salama, Florian Wiedmann, 2016-05-23 Over the past decade or so the wealth produced by Qatar's oil and gas exports has generated a construction development boom in its capital city of Doha and the surrounding vicinity Since the late 1990s the number of inhabitants has grown from less than 400 000 to more than 1 7 million today In many respects Doha is portrayed as an important emerging global capital in the Gulf region which has been positioning and re-inventing itself on the map of international architecture and urbanism with a global image of building clusters of glass office towers as well as cultural and educational facilities While focusing on the architectural and planning aspects of Doha's intensive urbanization this first comprehensive examination of the city sets this within the socio-political and economic context of the wider Arabian Peninsula Demystifying Doha On Architecture and Urbanism in an Emerging City features a comprehensive discussion on contemporary architecture and urbanism of Doha as an emerging regional metropolis It provides a critical analysis of the evolution of architecture and urbanism as products of the contemporary global condition Issues that pertain to emerging service hubs decentralised urban governance integrated urban development strategies image making practices urban identity the dialectic relations between the city and its society and sustainable urbanism are all examined to elucidate the urban evolution and the contemporary condition of Doha Demystifying Doha On Architecture and Urbanism in an Emerging City concludes by suggesting a framework for future studies of the city as well as for investigating the future of similar cities setting out an agenda for sustainable urban growth while invigorating the multiple roles urban planners and architects can play in shaping this future

The Report: Colombia 2014 Oxford Business Group, 2013-08-25 Indeed the sound performance of the construction sector strong investment in public works restored consumer confidence and a recovery in the hydrocarbons industry enabled Colombia's economy to regain dynamism and end 2013 with growth of 4.7% Attracting a record 16.36bn in foreign direct investment in 2013 an 8.2% rise on the previous year

the Andean economy assured its spot among the region's top investment targets. As in previous years, hydrocarbons attracted the lion's share of FDI to the country, accounting for 81.6% of the total. While GDP grew by just 2.9% in the first quarter of 2014, the central bank forecasts growth of 4.3% for the year. With the possibility of a peace deal with the Revolutionary Armed Forces of Colombia (FARC), the next few years could see economic performance enhanced by improved agricultural and energy outputs as well as increased FDI inflows.

The Essential Guide to the Dubai Real Estate Market

Michael Waters, 2023-03-21. This is the first book to fully present, analyse, and interpret the Dubai real estate market. Dubai is fast becoming one of the world's most attractive places to invest in real estate, and this book examines the market from three interlinked sectors that drive its performance: occupiers, investors, and developers. It examines the market's historical growth and lays the foundations to examine future trends. The book provides a synopsis of Dubai's market practices, economic trends, and social change that impacts the value of real estate. Chapters also debate issues such as property investment, house price performance, local valuation practices, spatial planning, the economics of the city market, practices and regulation, property-led economic growth, and future trends such as sustainability and digitalization. This book offers a comprehensive, in-depth, and up-to-date account of the Dubai property market and presents a full assessment of the investment potential of Dubai real estate. It is a must-read for students, academics, and real estate professionals interested in this fascinating real estate market that has implications for both Dubai and wider GCC markets, as well as the international investment market, and senior professionals who come to work in the region.

Zhanqi Village Over Fifty Years

Xiaodan Dong, 2024-10-17. Using materials from archives, literature, and field research, this book chronicles the history of the evolution of Zhanqi Village in Sichuan Province over the 55 years from 1965 to 2020. It depicts the interplay between macro-policy adjustments of the nation and the internal dynamics of the village over the half-century. As China's policymakers increasingly focus on domestic inequality and the wealth disparity between rural and urban areas since entering the 21st century, this study offers valuable insights into the economic history and policy experiences for scholars in agrarian and rural development issues.

The Illusion of Economic Stability

Eli Ginzberg, 2017-07-12. In one of the foremost critiques of the widespread view that in market-based economics the fluctuations of the marketplace are essentially self-regulating, Eli Ginzberg argues the reverse.

He asserts that government regulation or intervention to provide stability in the capitalist marketplace is a necessity In this classic statement of macroeconomic theory Ginzberg argues that self directed stable economies devoid of an appreciation of social and psychological factors are essentially illusory The ability of strong blocs corporate labor and agricultural to control the market in the hope of bettering their economic position places great difficulties in the path of securing a stable economy For Ginzberg economic fluctuations in the decade preceding the Great Depression can largely be explained by the interaction of technological psychological and monetary factors Without these factors being subjected to some sort of control economic stability must remain an illusion The current period of a significant fall off in earnings profits and full employment also followed a decade of unparalleled monetary growth The concerns Ginzberg raised are relevant once again It may turn out that the neoliberalism of the present has something to say in response to the free market free society premises currently in vogue In a brilliant introductory essay Nobel Laureate Robert M Solow offers an impressive report card on The Illusion of Economic Stability The prose is tighter and more aphoristic than late Ginzberg and the tone is more detached even sardonic He concludes by admitting that a volatile stock market is one more reason why automatic economic stability seems as illusory today as it did when the book first appeared [The Life and Death of the Shopping City](#) Alistair Kefford,2022-04-07 How have British cities changed in the years since the Second World War And what drove this transformation This innovative new history traces the development of the post war British city from the 1940s era of reconstruction through the rise and fall of modernist urban renewal up to the present day crisis of high street retailing and central area economies Alistair Kefford shows how planners property developers councils and retailers worked together to create the modern shopping city remaking the physical fabric economy and experience of cities around this retail driven developmental model This book also offers a wider social history of mass affluence showing how cities were transformed to meet the perceived demands of a society of shoppers and why this effort was felt to be so urgent in an era of urban deindustrialisation By bringing the story of the shopping city right up to its present day crisis and collapse Kefford makes clear how the historical trajectories traced in this book continue powerfully to shape urban Britain today **Cities around the World** Jing Luo,2019-07-10 This two volume set offers a comprehensive overview of major challenges faced by cities worldwide in the 21st century and how cities in different geographic economic and political conditions are finding solutions to them This two volume encyclopedia examines ten critical issues that face cities across the globe today environmental and societal struggles that affect the daily lives of city dwellers Readers will gain a better understanding of our global neighbors and will be able to use this book in order to compare and contrast different approaches to critical issues in our world Volume One examines employment and jobs energy and sustainability green spaces housing and infrastructure and migration and demographic changes Volume Two discusses pollution schools traffic and transportation violence corruption and organized crime and waste management Each issue begins with an introduction providing an overview of the issue from a global perspective Following the introduction are

ten alphabetically arranged world city profiles of cities that are struggling with the issue and cities that have found innovative solutions to deal with the crisis The profiles explain how the problem came to be consequences inhabitants face such as compromised health limited access to education and high taxes with low wages and failed and successful initiatives taken by city management
