Urban Transformation Understanding City Form And Design:

Urban Transformation Peter Bosselmann, 2012-09-26 How do cities transform over time And why do some cities change for the better while others deteriorate In articulating new ways of viewing urban areas and how they develop over time Peter Bosselmann offers a stimulating guidebook for students and professionals engaged in urban design planning and architecture By looking through Bosselmann's eyes aided by his analysis of numerous color photos and illustrations readers will learn to see cities anew Bosselmann organizes the book around seven activities comparing observing transforming measuring defining modeling and interpreting He introduces readers to his way of seeing by comparing satellite produced maps of the world's twenty largest cities With Bosselmann's guidance we begin to understand the key elements of urban design Using Copenhagen Denmark as an example he teaches us to observe without prejudice or bias He demonstrates how cities transform by introducing the idea of urban morphology through an examination of more than a century of transformations in downtown Oakland California We learn how to measure quality of life parameters that are often considered immeasurable including vitality livability and belonging Utilizing the street grids of San Francisco as examples Bosselmann explains how to define urban spaces Modeling he reveals is not so much about creating models as it is about bringing others into public democratic discussions Finally we find out how to interpret essential aspects of life and place by evaluating aerial images of the San Francisco Bay Area taken in 1962 and those taken forty three years later Bosselmann has a unique understanding of cities and how they work His hope is that with the fresh vision he offers readers will be empowered to offer inventive new solutions to familiar urban problems

Designing Urban Transformation Aseem Inam, 2013-10-23 While designers possess the creative capabilities of shaping cities their often singular obsession with form and aesthetics actually reduces their effectiveness as they are at the mercy of more powerful generators of urban form In response to this paradox Designing Urban Transformation addresses the incredible potential of urban practice to radically change cities for the better The book focuses on a powerful question What can urbanism be by arguing that the most significant transformations occur by fundamentally rethinking concepts practices and outcomes Drawing inspiration from the philosophical movement known as Pragmatism the book proposes three conceptual shifts for transformative urban practice a beyond material objects city as flux b beyond intentions consequences of design and c beyond practice urbanism as creative political act Pragmatism encourages us to consider how we can make deeper and more systemic changes and how urbanism itself can be a design strategy for such transformations To illuminate how these conceptual shifts operate in vastly different contexts through analysis of transformative urban initiatives and projects in Belo Horizonte Boston Cairo Karachi Los Angeles New Delhi and Paris The book is a rare integration of theory and practice that proposes essential ways of rethinking city design and building processes while drawing critical lessons from actual examples of such processes

Interdisciplinary Unsettlings of Place and Space Sarah

Pinto,Shelley Hannigan,Bernadette Walker-Gibbs,Emma Charlton,2019-04-25 This book brings together researchers from different fields traditions and perspectives to examine the ways in which place and space might be unsettled Researchers from across the humanities and social sciences have been drawn to the study of place and space since the 1970s and the term unsettled has been an occasional but recurring presence in this body of scholarship Though it has been used to invoke a range of meanings from the dangerous to the liberating the term itself has rarely been at the centre of sustained examination This collection highlights the idea of the unsettled in the scholarly investigation of place and space The respective chapters offer a dialogue between a diverse and eclectic group of researchers crossing significant disciplinary and interdisciplinary boundaries in the process The purpose of the collection is to juxtapose a range of different approaches to and perspectives on the unsettling of place and space In doing so Interdisciplinary Unsettlings of Place and Space makes an important contribution and offers new insights into how scholarship and research into different fields and practices may help us re envision place and space

Transformation of Sydney's Industrial Historic Waterfront Ece Kaya,2019-09-26

This book examines the impacts of tourism led transformations on the industrial historical waterfront at Darling Harbour and The Rocks in Sydney Australia in the context of urban restructuring and deindustrialisation The book also offers an extended reflection on the paradoxes between tourism and heritage This discussion is not a new concept However this book critically explores the significance of the industrial heritage assets of these areas and the implications of the transformation procedures Although Darling Harbour and The Rocks have generally been considered success stories of transformation with mixed touristic recreational residential and commercial activities this book examines and evaluates how industrial history and heritage values have been affected It demonstrates that tourism leisure led developments create urban landscapes in which cultural identity and historical assets are sacrificed and or reinvented
