New Books on Women and Feminism , 2007 *Gendered Bodies* Judith Lorber, Lisa Jean Moore, 2007 For centuries the biological sciences have dissected measured and probed the human body as a product of nature But from a feminist perspective the human body is a social production Human bodies are shaped and controlled by the norms and expectations of gendered social orders intersected by racial class religious and age norms and expectations The result is a gendered body

produced for a gendered social world In this concise text with readings designed for undergraduate students Lorber and Moore present feminist contributions to social and cultural studies of the human body showing the construction of gendered bodies in different contexts The authors argue that the ideology of the perfect body is a powerful means of social control for girls and boys as well as women and men The authors show how children s bodies are gendered through games and sports and shaped and modified throughout adulthood to meet social expectations Each chapter includes a list of key concepts three readings recommended books and articles and Internet sources For the instructor the book includes class exercises and a list of films with somatic themes *Westerly*, 2005 **Feminist Periodicals**, 2005 *Book Review Index*, 2006 Every 3rd issue is a quarterly cumulation **Joyce in the Belly of the Big Truck; Workbook** Joyce A. future Small Press Record of Books in Print Len Fulton, 1994 Human Behavior in the Social Environment José B. Ashford, Craig W. LeCroy, Kathy L.
