Game AI Pro 360: Guide to Movement and Pathfinding Steve Rabin, 2019-09-10 Steve Rabin's *Game AI Pro 360: Guide to Movement and Pathfinding* gathers all the cutting edge information from his previous three *Game AI Pro* volumes into a convenient single source anthology covering movement and pathfinding in game AI. This volume is complete with articles by leading game AI programmers that explore better ways to smooth paths, avoid obstacles, and navigate 3D space with cutting edge techniques. **Key Features:** Provides real life case studies of game AI in published commercial games. Material by top developers and researchers in Game AI. Downloadable demos and/or source code available online. **The Video Games Guide** Matt Fox, 2013-01-17 *The Video Games Guide* is the world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design from the very earliest 1962's *Spacewar!* through the present day releases on the PlayStation 3, Xbox 360, Wii, and PC. Each game entry includes the year of release, the hardware it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross referencing with other titles, information on each game's sequels, and of course the author's views and insights into the game. In addition to the main entries and reviews, a full color gallery provides a visual timeline of gaming through the decades, and several appendices help to place nearly 3,000 games in context. Appendices include a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms. *Media Rich Instruction* Rosemary Papa, 2014-06-27 E-learning has brought an enormous change to instruction in terms of both rules and tools. Among the topics included: Building successful learning experiences online, Language and literacy, reading and writing, Mathematics teaching and learning with and through education technology, Learning science through experiment and practice, Social studies teaching for learner engagement, The arts and Technology, Connecting school to community.
