Tough Plants for California Gardens Felder Rushing,2006-02-01

In my many years in the horticulture industry especially in the teaching end I ve found that the vast majority of gardeners believe that the real challenge in gardening is to produce a beautiful garden with minimal care However the true gardener

likes to push and is willing to make the needed adjustments work sacrifice whatever to grow some prized possession And what on earth is wrong with that If a gardener is so inclined he or she is welcome to brag about having a perfect lawn or growing the first *Isoplexis canariensis* in the neighborhood Yet only a very tiny percentage of people want the challenge of growing really unsuitable plants which involves not just extra time on the gardener s part but also includes heavy resource use Besides some plants are too specialized for the average gardener Everyone is welcome to dig bag chill spit and turn summersaults to get a temperamental posy to do just right But telling others to do this is less than good advice There is plenty of fun in gardening to keep everyone busy we don t need work to make gardening fun In this book Felder presents us with the what does best plants the plants that fill our gardens with the least care needed and that in turn allow us more quality time in our garden oases For those who want a landscape of entirely low maintenance this is certainly the listing of the lowest Tough as in the title of this book is Felder s word for hardy Tough is also the word for Felder s no nonsense style that cuts through the let us say manure of the plant selection process Adapted from introduction **Florida Fruit and Produce News** ,1928 **American Gardening** ,1901 **Plants & Gardens** ,1983 Seaside Plants of the World Edwin Arnold Menninger,1964 **Fairchild Tropical Garden Bulletin** Fairchild Tropical Garden,1966
