Tourism Consumption And Representation Narratives Of Place And Self:

Tourism, Consumption and Representation Kevin Meethan, Alison Anderson, Steven Miles, 2006 This book addresses the practices of consumption in tourism a major theme in the sociology of tourism To date most tourism analysis has tended to concentrate on the production of tourist space and assume that tourism consumption simply mirrors the intentions of the producers By focussing on a number of relevant sub themes such as age gender religion and sexual orientation the chapters within this book critically examine such assumptions in terms of the interplay between the production and consumption of tourist spaces and how patterns of tourism consumption are negotiated on an individual level

Narratives of Travel and Tourism Tijana Rakic, 2016-04-22 Travel and tourism stories have been told and recorded within every culture in every period of oral and written history and across the breadth of the fact fiction continuum Taking two broad themes as its starting point travellers and their narratives and place narratives in travel and tourism the book has a deliberately wide scope with different chapters addressing the subject through various relevant lenses and in relation to a number of different contexts The narratives discussed include both historical and contemporary as well as real life and fictional narratives contained within travel writing travel and tourism stories and different types of media In relation to the principal themes of the book some chapters also explore the importance of collecting memorabilia and image making in the recording remembering writing telling or disseminating of stories about travel and tourism experiences and some examine the ways in which travel and tourism narratives may construct and reinforce personal collective and place identities The whole book is marked by an over arching concern for narrative interpretation as a means of understanding and providing a new perspective on travel and tourism

Slum Tourism Fabian Frenzel, Ko Koens, Malte Steinbrink, 2012-06-14 Slum tourism is a globalizing trend and a controversial form of tourism Impoverished urban areas have always enticed the popular imagination considered to be places of otherness moral decay deviant liberty or authenticity Slumming has a long tradition in the Global North for example in Victorian London when the upper classes toured the East End What is new however is its development dynamics and its rapidly spreading popularity across the globe Township tourism and favela tourism have currently reached mass tourism characteristics in South Africa and in Rio de Janeiro Brazil In other countries of the Global South slum tourism now also occurs and providers see huge growth potential While the morally controversial practice of slum tourism has raised much attention and opinionated debates in the media for several years academic research has only recently started addressing it as a global phenomenon This edition provides the first systematic overview of the field and the diverse issues connected to slum tourism This multidisciplinary collection is unique both in its conceptual and empirical breadth Its chapters indicate that global slumming is not merely a controversial and challenging topic in itself but also offers an apt lens through which to discuss core concepts in critical tourism studies in a global perspective in particular poverty power and ethics Building on research by prolific researchers from ten different countries the book provides a comprehensive and

unique insight in the current empirical practical and theoretical knowledge on the subject It takes a thorough and critical review of issues associated with slum tourism asking why slums are visited whether they should be visited how they are represented who is benefiting from it and in what way It offers new insights to tourism s role in poverty alleviation and urban regeneration power relations in contact zones and tourism s cultural and political implications Drawing on research from four continents and seven different countries and from multidisciplinary perspectives this ground breaking volume will be valuable reading for students researchers and academics interested in this contemporary form of tourism **Travel,**

Tourism, and Identity Gabriel R. Ricci,2017-09-29 Travel Tourism and Identity addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume s contributors demonstrate how one s identity cultural assumptions and worldview can be brought into question In some cases the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveller s or tourist s experience otherwise the traveller or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the Culture Civilization series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada s Spice Island identity and the effects of globalization and migrations on personal identity **Marketing Rural Tourism** Gunjan Saxena,2016-11-25 Gunjan Saxena seeks to

encourage a fuller understanding of rural tourism marketing by uncovering the lived experiences and enterprise of different actor groups as they respond to the impact of tourism on their communities and cultural identities In so doing the author makes a key contribution to the wider marketing discourse that circulates around place marketing and rural destinations
