Toward A New Federal Law On Arbitration:

Toward a New Federal Law on Arbitration Thomas E. Carbonneau, 2014-09-22 Enacted as a special interest bill in 1925 the Federal Arbitration Act FAA positioned arbitration well among specialized merchant communities Its principles relating to the legitimacy of arbitration contracts and the limited judicial supervision of arbitral awards laid the foundation for a more detailed and effective legal regulation of arbitration Despite the advanced character of its original content the FAA was never significantly updated by the U S Congress and the standing statutory provisions did not take into account the widening scope of arbitral jurisdiction and its revolutionary impact upon adjudicatory due process Thus the task of adjusting the statute to new realities became the responsibility of the U S Supreme Court exercising its duty over a half century and more than fifty cases with the ultimate goal to fulfill the expectations of U S citizenship and protect U S interests in global commerce Toward a New Federal Law on Arbitration endeavors to repair the long standing problem of updating the official text of the Federal Arbitration Act FAA In this book Thomas E Carbonneau proposes to transform the FAA into a genuine national law of arbitration based exclusively on the federal rules applicable to arbitration He argues for necessary change in the federal law of arbitration that will not only benefit commercial interests and the U S economy but also provide protection for smaller individual interests such as consumers and employees This book joins the U S Supreme Court in proclaiming that judicial litigation is flawed In the process this book describes the current federal law on arbitration provides and explains the provisions of the proposed law while setting the stage for future adjudicatory practice *Towards a New Arbitration Act for Alberta* University of Alberta. Institute of Law Research and Reform, 1987 [Practitioner's Handbook on International Arbitration and Mediation - Third Edition](#) Richard Chernick, Daniel M. Kolkey, Barbara Reeves Neal, 2012-04-01 The Practitioner's Handbook on International Arbitration and Mediation 3rd Edition is a unique work with each chapter written by a well known practitioner and expert in the field It covers each step of the international arbitration and mediation process and offers separate chapters that summarize the laws of leading arbitral venues This Handbook is intended to make the reader into a better practitioner or arbitrator mediator Moreover each chapter has been written to provide practical advice and guidance Unlike many works with multiple authors this work is not simply a collection of essays on a general subject This book is a unified work with cross references among the chapters and a consistent format throughout The Practitioner's Handbook is divided into three parts Part One describes in detail each step of the international arbitration process and offers tips Part Two deals with each step and facet of an international mediation Each of these chapters is filled with Practitioners Expert Commentary Part Three summarizes the laws of leading arbitral jurisdictions like Hong Kong England Switzerland and France These chapters give you detailed guidance on the laws governing international arbitration in that particular jurisdiction As a result the chapters in Part Three are a bit more technical as the authors realized that the reader would need citations to and commentary on the local arbitration statutes and rules The CD ROM that accompanies this Work contains
