Towards A New Executive Order In Europe West European Politics:

Towards A New Executive Order In Europe? Deirdre Curtin, Morten Egeberg, 2013-09-13 The executive branch of government in Europe is being gradually transformed in several significant respects First executive power has been continuously strengthened at the EU level in the form of the European Commission EU level agencies and diplomatic and military staff in the Union Council secretariat Second EU executive bodies relate directly to regulatory authorities at the national level in charge of applying and partly preparing EU laws and programmes partly circumventing ministerial departments Thus parts of national administrations become parts of an integrated and multi level Union administration as well as parts of national executives Such a system with multiple political masters raises delicate questions about political steering and accountability This book focuses on this fascinating development both from a political science and a legal perspective encompassing the consolidation of the supranational executive as well as its relationships with its partners at the national level This book was published as a special issue of West European Politics **Towards a New Executive Order in Europe?**, 2008 **The Oxford Handbook of Political Executives** Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research **The EU Timescape** Klaus Goetz, Jan-Hinrik Meyer-Sahling, 2013-09-13 The manner in which time is institutionalized is critical to how a political system works Terms time budgets and time horizons of collective and individual political actors rights over timing sequencing and speed in decision making and the temporal properties of policy matter to the distribution of power efficiency and effectiveness of policy making and democratic legitimacy This book makes a case for the systematic study of political time in the European Union EU both as an independent and a dependent variable and highlights the analytical value added of a time centred analysis The book discusses previous scholarship on the institutionalization of political time and its consequences along the dimensions of polity politics and policy reviews dominant perspectives on political time which centre on power system performance and legitimacy and presents case studies that illustrate the importance of time in the governance of the EU This book was originally published as a special issue of Journal of European Public Policy **Political Accountability and European Integration** L. F. M. Verhey, Philipp Kiiver, Sandor Loeffen, 2009 This volume addresses the future of political control and accountability in a European and comparative perspective It is based on the contributions to an international conference hosted by the Montesquieu Institute Center of European Parliamentary History and Constitutional Development at Maastricht in March 2008 The conference concluded a larger research project that was devoted to identifying features of

domestic constitutional law that could help develop a system of effective accountability for the European Union

Towards a Segmented European Political Order Jozef Bátora, John Erik Fossum, 2019-11-08 This book makes a distinctive contribution to the crucial debate on the European Union EU's present and future development It systematically examines how the range of crises and challenges over the last decade have transformed the EU and relates those findings to the discussion of an increasingly differentiated EU It argues that the post crises EU shows clear signs of becoming a segmented political order with in built biases and constraints The book spells out the key features of such an order in ideational and structural terms and shows how it more concretely manifests itself in the EU's institutional and constitutional make up and in how member states constrain and condition EU action Different states impose different types of constraints as is underlined through paying explicit attention to the Visegrád countries This book will be of key interest to scholars and students of EU politics studies European integration and politics East European politics and foreign policy

Towards a New Executive Order in Europe? Deirdre Curtin, 2008 *Theorizing Internal Security Cooperation in the European Union* Raphael Bossong, Mark Rhinard, 2016 The book provides an essential primer and reference book which examines the different theories deployed to understand and explain European Union cooperation on internal security matters

Agency Governance in the EU Berthold Rittberger, Arndt Wonka, 2013-09-13 The rapid proliferation of EU agencies represents one of the most significant changes to the EU's organisational set up in past decades At the same time this development has significantly affected regulatory policy making in the EU This volume assembles the most renowned scholars in the field to address the key themes and challenges that agency governance in the EU poses to effective and legitimate policy making The first theme addresses the causes and dynamics of the creation and design of regulatory bodies in EU governance focusing not only on EU agencies but also on alternatives to the agency format such as regulatory networks Second once agencies are established the book goes on to explore the consequences and trajectories of agency governance How effective and autonomous are EU agencies How does EU agency governance transform existing patterns of executive governance in the EU Third the book addresses the design of EU agencies as independent non majoritarian institutions poses pressing questions with a view to their legitimacy and accountability The volume appeals to scholars and practitioners interested in the development and transformation of executive governance in the EU This book was published as a special issue of the Journal of European Public Policy
