Addiction Press was set up with the express purpose of communicating current ideas and evidence in this expanding field not only to researchers and practising health professionals but also to policy makers, students and interested non-specialists. These publications are designed to address the significant challenges that addiction presents to modern society. The drugs field has undergone a phase of rapid change in recent years and all the non-medical treatment interventions for those with alcohol problems and dependence can be equally helpful for drug users. This has opened the way for unification of alcohol and drug treatment services at a clinical level with potential for more efficient service provision and for effective interventions which can be readily adopted in a wide range of settings. Modern drug and alcohol services and all professionals working with substance users will benefit from the initiatives and procedures discussed in this book.

Handbook of Homework Assignments in Psychotherapy Nikolaos Kazantzis, Luciano L'Abate, 2006-12-11

The aim of this *Handbook of Homework Assignments in Psychotherapy* Research Practice and Prevention is to provide comprehensive resource on the role of homework assignments in psychotherapy and prevention. However, the process of generalizing in-session therapeutic work through between-session activity has a long history in psychotherapy. This *Handbook* is designed to elucidate and extend that history by presenting theoretical and clinically focused descriptions of the role of homework assignments in a range of psychotherapies, clinical populations and presenting problems. Designed for both the beginning and the experienced psychotherapy practitioner, this *Handbook* assumes a basic knowledge of psychopathology and practice of psychotherapy and prevention. The *Handbook* aims to contribute to the professional resources for all psychotherapy practitioners and researchers in private and public practice, graduate students in clinical and counseling psychology, couples and family therapists as well as residents in psychiatry. This book does not aim to review the theories of psychotherapy in detail, specific treatments of psychopathology, clinical assessment or basic psychotherapy and prevention processes that are currently available in numerous psychotherapy textbooks. This *Handbook* is a clinical resource designed to provide a focused coverage of how to integrate homework assignments into psychotherapy practice and in the prevention of mental illness.

Exhibit I-1. Stephens and colleagues (2002) describe the MTP rationale, design, and participant characteristics. Findings from MTP are presented in supplemental reading B of section VII.
