## **Unlawful Combatants A Genealogy Of The Irregular Fighter:**

**Unlawful Combatants** Sibylle Scheipers, 2015-01-22 *Unlawful Combatants* brings the study of irregular warfare back into the centre of war studies. The experience of recent and current wars in Afghanistan, Iraq, Libya and Syria showed that the status and the treatment of irregular fighters is one of the most central and intricate practical problems of contemporary warfare. Yet the current literature in strategic studies and international relations more broadly does not problematize the dichotomy between the regular and the irregular. Rather it tends to take it for granted and even reproduces it by depicting irregular warfare as a deviation from the norm of conventional inter state warfare. In this context irregular warfare is often referred to as the new wars and is associated with the erosion of statehood and sovereignty more generally. This obscures the fact that irregulars such as rebels, guerrillas, insurgents and terrorist groups have a far more ambiguous relationship to the state than the dichotomy between the state and non state actors implies. They often originate from states, are supported by states and/or aspire to statehood themselves. The ambiguous relationship between irregular fighters and the state is the focus of the book. It explores how the category of the irregular fighter evolved as the conceptual opposite of the regular armed forces and how this emergence was tied to the evolution of the nation state and its conscripted mass armies at the end of the eighteenth century. It traces the development of the dichotomy of the irregular and the regular which found its foremost expression in the modern law of armed conflict into the twenty first century and provides a critique of the concept of the unlawful combatant as it emerged in the framework of the war on terror. This book is a project of Changing Character of War programme at the University of Oxford.

**Unlawful Combatants** Sibylle Scheipers, 2015 The book investigates the emergence and the development of irregular fighters such as guerrillas, rebels, insurgents and terrorists throughout the history of modern war. It presents a historically based critique of the twenty first century notion of the irregular fighter as an unlawful combatant.

**Unlawful Combatants** Sibylle Scheipers, 2015 The book investigates the emergence and the development of irregular fighters such as guerrillas, rebels, insurgents and terrorists throughout the history of modern war. It presents a historically based critique of the twenty first century notion of the irregular fighter as an unlawful combatant.

Experiences of War in Europe and the Americas, 1792-1815 Mark Lawrence, 2021-07-20 This work seeks to offer a new way of viewing the French Wars of 1792-1815. Most studies of this period offer international political and military analyses using the French Revolution and Napoleon as the prime mover. But this book focuses on military and civilian responses to French Revolutionary and Napoleonic wars throughout the rest of Europe and the Americas. It shows how the unprecedented mobilization of this era forged a generation of soldiers and civilians sharing a common experience of suffering, bequeathing the West with a new veteran sensibility. Using a range of sources, especially memoirs, this book reveals the adventure and suffering confronting ordinary soldiers campaigning in Europe and the Americas and the burdens imposed on civilians enduring rising and falling empires across the West. It also reveals how the wars liberated slaves, serfs and common people.

through revolutions and insurgencies      *Foreign Fighters and Multinational Armies* Steven O'Connor, Guillaume Piketty, 2022-05-11 This book showcases new historical research on foreign soldiers including an overview of the early modern period and numerous case studies which cover the last 175 years and stretch over 5 continents The last two decades have seen the term foreign fighter enter our everyday vocabulary The insurgencies in Afghanistan and Iraq the Syrian Civil War and the rise and fall of the Islamic State group have sparked public interest in the phenomenon of people choosing to leave their own country and fight in a foreign conflict Foreign fighters their origins motives activities and potential danger to their home countries have become subjects of debate attracting contributions from politicians military personnel the media political scientists legal scholars but to a much lesser extent from historians The ten essays in this volume showcase new historical research on foreign military labour The aim of the volume is to better understand the experiences and challenges faced by both the foreigners and the host country particularly its armed forces and to highlight the significance of these trends to the contemporary debate on foreign fighters The chapters in this book were originally published as a special issue of the journal *European Review of History*      Preparing for War Boyd van Dijk, 2022 This engrossing documentary gives us an in depth look at the culture and values of America in the years immediately preceding our entry into World War II      A History of Military Morals Brian Smith, 2022-04-25 The history of noncombatant immunity is well established What is less understood is how militaries have rationalized violating this immunity This book traces the development of how militaries have rationalized the killing of the innocent from the thirteenth century onward In the process this historiography shows how we have arrived at the ascendant convention that assumes militaries should not intentionally kill the innocent Furthermore it shows how moral arguments about the permissibility of killing the innocent are largely adaptations to material changes in how wars are fought whether through technological innovations or changes in institutional structures      **Charles E. Callwell and the British Way in Warfare** Daniel Whittingham, 2020-01-16 Presents the first full length study of one of Britain's most important military thinkers Major General Sir Charles E Callwell      **Concepts and Contexts of Vattel's Political and Legal Thought** Peter Schröder, 2021-06-24 Swiss born Emer de Vattel 1714 1767 was one of the last eminent thinkers of natural law He shaped the later part of early modern natural jurisprudence At the time the subject had become a fashionable academic sub discipline in both jurisprudence and philosophy Vattel's considerable impact on statesmen political thinkers diplomats and lawyers during his lifetime and after rested primarily on the fact that his *The Law of Nations* 1758 transformed natural law into the basis of a more comprehensive and practicable theory of interstate relations His ideas served to promote reform programmes whose comprehensive natures spanned the domains of economic reform constitutionalism and international diplomacy and foreign trade policy Vattel's conception centred round the principle that defined all sovereign states as nations composed of societies of free men and profoundly influenced legal and political debates in the eighteenth and nineteenth centuries      *Western Europe's Small Wars and Counterinsurgencies Since*

*Napoleon* Mark Lawrence, 2024-12-25 This book focuses on the wars that are normally relegated to the periphery of geopolitics at the heart of Europe's new military history The military history of the past two centuries of European history has tended to be viewed in the shadow of total war The impact and aftermath of the French upheaval of 1792 1815 the mid-century struggles for national unification the World Wars of 1914 18 and 1939 45 and the prospect of mutually assured destruction in the Cold War were all framed as a totalization of warfare and as a tragic pretext for projects of human rights collective security and political integration But this emphasis on large wars overlooks the impact of the wars waged by minor powers as well as the small wars and counterinsurgencies waged by great powers overseas The suppression of southern European revolutions in the 1820s Belgian independence Cuban struggles against Spanish rule and the wars of new imperialism ranging from Aceh to Annual all shaped the strategic and domestic environment in which the Great War happened and they reverberated on the post 1918 growth of totalitarianism Equally the post 1945 wars of decolonization militarized the culture and politics in the democratic and authoritarian states of the old continent in ways which belied the macro political identities of the Cold War

**Law, Language, and Warfare** , 2025-01-20 This volume presents a novel insight into the complex intersections between the law of armed conflict and the language of armed conflict The work demonstrates the strengths and fissures in the law showing how the choice to employ certain terms can have lasting ramifications for those most vulnerable to the impacts of warfare civilians women children and the displaced

**The Law of Armed Conflict and the Use of Force** Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law

*Gender, Conflict and International Humanitarian Law* Orly Maya Stern, 2018-07-27 This book conducts a gendered critique of the principle of distinction in international humanitarian law IHL with a focus on recent conflicts in Africa The principle of distinction is core to IHL and regulates who can and cannot be targeted in armed conflict It states that civilians may not be targeted in attack while combatants and those civilians directly participating in hostilities can be The law defines what it means to be a combatant and a civilian and sets out what behaviour constitutes direct participation Close examination of the origins of the principle reveals that IHL was based on a gendered view of conflict which envisages men as fighters and women as victims of war Problematically this view often does not accord with the reality in new wars today in which women are playing increasingly active roles often forming the backbone of fighting groups and performing functions on which armed groups are highly reliant Using women's participation in new wars in Africa as a study this volume critically examines the principle through a gendered lens questioning the extent to which the principle serves to protect women in modern conflicts and how it fails them By doing so it questions whether the principle of distinction is suitable to effectively regulate the conduct of hostilities in new wars This book will be of much interest to students of international law gender studies African politics war and conflict studies and

international relations      **Through Times of Trouble** Anna Matveeva, 2017-12-20 This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia. As such, it provides a unique insight into their thinking and motivations, which need to be understood if the conflict is to be resolved. Those making and remaking the conflict are placed in the centre of the story, which uses the words of the combatants themselves. It shows how volunteer fighters, driven by a wide and diffuse set of motivations, emerged from Ukraine. Russia and different parts of the world stood at the rebellion's heart. The book focuses on the participants' own voices and personalities, drawing extensively on first-hand research and interviews. Rather than rendering Ukraine a chess piece on the geopolitical board, the rebellion shows that ordinary people, rather than elites, can act as a decisive force. Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high. It stands as an important text on the study of modern insurgencies, revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors. This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle. The insurgency has produced a conflict sub-culture rich with symbolism, narrative, and communications made possible by the digital age and a social media-savvy population. These beliefs and ideas have had the power to pull people from different parts of the world. This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas. It analyses the logic of armed struggle and the tactics deployed by warring parties. It also sheds light on the developments in Moscow, discusses the phenomenon of the Russian Spring movement, and concludes with the prospects for a peaceful solution.

*Victims* Svenja Goltermann, 2024-02 Victimhood has become a shorthand for any injustice suffered. Adopting a history of knowledge approach, *Victims* takes a fresh look at this phenomenon of classifying people as victims. It goes beyond existing narratives to provide a new and comprehensive explanation of the complex genealogy of modern concepts of victimhood.

**France, Britain and the United States in the Twentieth Century: Volume 2, 1940-1961** Andrew J. Williams, 2019-12-31 In his account of the relationship between France, the UK, and the US, Andrew Williams successfully intertwines diplomatic history with international thought. We are presented with a historical stage that includes both the doers and the thinkers of the age, and as a result, this is a must-read for both diplomatic historians and historians of international thought. The second in a multivolume study, this volume takes the story beyond the fall of France into the war years, the period of post-war reconstruction, and the Cold War. As with the first volume, Williams is an excellent guide, stepping over the ruins of past worlds and introducing us to an epoch with more than its fair share of both visionaries and villains. Yet in this second volume, the stakes are higher as the United States comes to terms with its role as the paramount world power. Britain faces a world that challenges its imperial order, and France is picking up the pieces from

its defeat Lucian Ashworth Memorial University Canada Following on from his outstanding first volume reviewing the complex interwar relationships between France Britain and the United States Williams second volume is an indispensable and lucid overview of the vitally important era of post war reconstruction From national post war developments to institutional structures and superpower shifts Williams examines clearly and engagingly the final passing of pre modern power structures and the emergence of a new Europe Amelia Hadfield University of Surrey UK divAt a time of intense debates about Europe the Anglosphere and empires old and new Andrew Williams s book is a timely demonstration that the weight of emotion in the shaping of foreign policy and its makers should not be forgotten Unearthing some of the forces profondes in diplomacy and reflecting on feelings of humiliation and liberation in national constructs Andrew Williams discusses the cultural conceptions and misconceptions that French American and British diplomats had of each other thereby revisiting the reasons why the special relationship was largely a myth but one which had tangible consequences on French and British policies in their retreat from empire By connecting the personal and the national the structural and accidental Williams offers essential insights into the major conflicts of the period and their impact on diplomatic cultures across the Atlantic M lanie Torrent Universit Picardie Jules Verne Amiens France The second volume of this study of France s unique contribution to the international relations of the last century covers the period from the Fall of France in 1940 to Charles de Gaulle s triumphant return to power in the late 1950s France had gone from being a victorious member of the coalition with Britain and the United States that won the First World War to a defeated nation in a few short weeks France then experienced the humiliation of collaboration with and occupation by the enemy followed by resistance and liberation and a slow return to global influence over the next twenty years This volume examines how these processes played out by concentrating on France s relations with Britain and the United States most importantly over questions of post war order the integration of Europe and the withdrawal from Empire Britain and International Law in West Africa Inge Van Hulle,2020-10-22 Africa often remains neglected in studies that discuss the historical relationship between international law and imperialism during the nineteenth century When it does feature focus tends to be on the Scramble for Africa and the treaties concluded between European powers and African polities in which sovereignty and territory were ceded Drawing on a wide range of archival material Inge Van Hulle brings a fresh new perspective to this traditional narrative She reviews the use and creation of legal instruments that expanded or delineated the boundaries between British jurisdiction and African communities in West Africa and uncovers the practicality and flexibility with which international legal discourse was employed in imperial contexts This legal experimentation went beyond treaties of cession and also encompassed commercial treaties the abolition of the slave trade extraterritoriality and the use of force The book argues that by the 1880s the legal techniques that were fashioned in the language of international law in West Africa had largely developed their own substantive characteristics Legal ordering was not done in reference to adjudication before Western courts or the writings of

Western lawyers but in reference to what was deemed politically expedient and practically feasible by imperial agents for the preservation of social peace commercial interaction and humanitarian agendas      *International Humanitarian Law* Emily Crawford, Alison Pert, 2020-03-12 The law that regulates armed conflicts is one of the oldest branches of international law and yet continues to be one of the most dynamic areas of law today This book provides an accessible scholarly and up to date examination of international humanitarian law offering a comprehensive and logical discussion and analysis of the law The book contains detailed examples extracts from relevant cases useful discussion questions and a recommended reading list for every chapter Emerging trends in theory and practice of international humanitarian law are also explored allowing for readers to build on their knowledge and grapple with some of the biggest challenges facing the law of armed conflict in the twenty first century This second edition offers new sections on issues like detention in non international armed conflict characterisation of non international armed conflicts expanded chapters on occupation and the protection of civilians means and methods of warfare and implementation enforcement and accountability      **Heroism and the Changing Character of War** S. Scheipers, 2014-04-01 Post heroism is often perceived as one of the main aspects of change in the character of war a phenomenon prevalent in western societies According to this view demographic and cultural changes in the west have severely decreased the tolerance for casualties in war This edited volume provides a critical examination of this idea

### **Unlawful Combatants A Genealogy Of The Irregular Fighter Introduction**

In today's digital age, the availability of Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Unlawful Combatants A Genealogy Of The Irregular Fighter versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Unlawful Combatants A Genealogy Of The Irregular Fighter

books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Unlawful Combatants A Genealogy Of The Irregular Fighter books and manuals for download and embark on your journey of knowledge?

### **FAQs About Unlawful Combatants A Genealogy Of The Irregular Fighter Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Unlawful Combatants A Genealogy Of The Irregular Fighter is one of the best book in our library for free trial. We provide copy of Unlawful Combatants A Genealogy Of The Irregular Fighter in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Unlawful Combatants A Genealogy Of The Irregular Fighter. Where to download Unlawful Combatants A

Genealogy Of The Irregular Fighter online for free? Are you looking for Unlawful Combatants A Genealogy Of The Irregular Fighter PDF? This is definitely going to save you time and cash in something you should think about.
