Eminent Jews David Denby, 2025-04-08 Leonard Bernstein Mel Brooks Betty Friedan and Norman Mailer Brilliant brash yet soulful they were 100 percent Jewish and 100 percent American They upended the restrained culture of their forebears and changed American life They worked in different fields and apart from clinking glasses at parties now and then they hardly knew one another But they shared a historical moment and a common temperament For all four their Jewish heritage was electrified by American liberty The results were explosive As prosperity for Jews increased and anti-Semitism began to fade after World War II these four creative giants stormed through the latter half of the twentieth century altering the way people around the world listened to music defined what was vulgar comprehended the relations of men and women and understood the American soul They were not saints they were turbulent and self-dissatisfied intellectuals who fearlessly wielded their own newly won freedom to charge up American culture Celebratory yet candid at times fiercely critical David Denby presents these four figures as egotistical and generous larger than life all of them yet vulnerable even heartbreaking in their ambition ferocity and pride

A Troublesome Inheritance Nicholas Wade, 2015-04-28 Drawing on startling new evidence from the mapping of the genome an explosive new account of the genetic basis of race and its role in the human story Fewer ideas have been more toxic or harmful than the idea of the biological reality of race and with it the idea that humans of different races are biologically different from one another For this understandable reason the idea has been banished from polite academic conversation Arguing that race is more than just a social construct can get a scholar run out of town or at least off campus on a rail Human evolution the consensus view insists ended in prehistory Inconveniently as Nicholas Wade argues in A Troublesome Inheritance the consensus view cannot be right And in fact we know that populations have changed in the past few thousand years to be lactose tolerant for example and to survive at high altitudes Race is not a bright line distinction by definition it means that the more human populations are kept apart the more they evolve their own distinct traits under the selective pressure known as Darwinian evolution For many thousands of years most human populations stayed where they were and grew distinct not just in outward appearance but in deeper senses as well Wade the longtime journalist covering genetic advances for The New York Times draws widely on the work of scientists who have made crucial breakthroughs in establishing the reality of recent human evolution The most provocative claims in this book involve the genetic basis of human social habits What we might call middle class social traits thrift docility nonviolence have been slowly but surely inculcated genetically within agrarian societies Wade argues These values obviously had a strong cultural component but Wade points to evidence that agrarian societies evolved away from hunter gatherer societies in some crucial respects Also controversial are his findings regarding the genetic basis of traits we associate with intelligence such as literacy and numeracy in certain ethnic populations including the Chinese and

Ashkenazi Jews Wade believes deeply in the fundamental equality of all human peoples He also believes that science is best served by pursuing the truth without fear and if his mission to arrive at a coherent summa of what the new genetic science does and does not tell us about race and human history leads straight into a minefield then so be it This will not be the last word on the subject but it will begin a powerful and overdue conversation *Deadly Documents* Mark Ward,2016-12-05

Scholars teachers and practitioners of organizational professional and technical communication and rhetoric are target audiences for a new book that reaches across those disciplines to explore the dynamics of the Holocaust More than a history the book uses the extreme case of the Final Solution to illumine the communicative constitution of organizations and to break new ground on destructive organizational communication and ethics *Deadly Documents* Technical Communication

Organizational Discourse and the Holocaust Lessons from the Rhetorical Work of Everyday Texts starts with a microcosmic look at a single Nazi bureau Through close rhetorical visual and discursive analyses of organizational and technical documents produced by the SS Security Police Technical Matters Group the bureau that managed the Nazi mobile gas van program author Mark Ward shows how everyday texts functioned as boundary objects on which competing organizational interests could project their own interpretations and temporarily negotiate consensus for their parts in the Final Solution The initial chapters of *Deadly Documents* provide a historical ethnography of the SS technical bureau by closely describing the institutional and organizational cultures in which it operated and relating organizational stories told in postwar testimony by the desk murderers themselves Then through examination of the primary material of their documents Ward demonstrates how this Social Darwinist world of competing Nazi bureaucrats deployed rhetorical and linguistic resources to construct a social reality that normalized genocide Ward goes beyond the usual Weberian bureaucratic paradigm and applies to the problem of the Holocaust both the interpretive view that sees organizations as socially constructed through communication and the postmodern view that denies the notion of a preexisting social object called an organization and instead situates it within larger discourses The concluding chapters trace how contemporary scholars of professional communication have wrestled with the Nazi case and developed a consensus explanation that the desk murderers were amoral technocrats Though the explanation is dismissed by most historians it nevertheless offers Ward argues a comforting distance between us and them Yet as Ward writes First we will learn more about the dynamic role of everyday texts in organizational processes Second as we see these processes perhaps inherent to all organized communities including our own at work even in the extreme case of the SS Technical Matters Group the comforting distance that we now maintain between them and us is necessarily diminished And third our newfound discomfort may open productive spaces to revisit conventional wisdoms about the ethics of technical and organizational communication Jubuntu Larissa Denk,2023-02-13

This study investigates the nexus between giving belonging and Jewishness in South Africa Charitable interactions are as much manifestations of inequalities as an expression of the giving individual s desire to alleviate them Structuring aspects like class race economics

and post apartheid politics are at the basis of this study At the same time though it is individual agency reproducing inequalities and making sense of the ambiguity of the charitable interaction In the context of the Jewish community in South Africa this analysis shows how the community s organisations practices and concepts are connected to charitable giving The author carved out three dimensions which are entangled reinforced or at times contradict each other Belonging diaspora and charitable giving Along with shared values and practices it relates to volunteering or charitable giving connects one individual to a group while possibly excluding another from it Expressing belonging to the Jewish collective as a diaspora community relates individuals or collectives to the triadic relationship between local diaspora group host society and homeland and other local communities of the same diaspora

Antonello, Paul Gifford, 2015-10-01 From his groundbreaking *Violence and the Sacred* and *Things Hidden since the Foundation of the World* René Girard's mimetic theory is presented as elucidating the origins of culture. He posits that archaic religion or the sacred particularly in its dynamics of sacrifice and ritual is a neglected and major key to unlocking the enigma of how we became human. French philosopher of science Michel Serres states that Girard's theory provides a Darwinian theory of culture because it proposes a dynamic that shows an evolution and gives a universal explanation. This major claim has however remained underscrutinized by scholars working on Girard's theory and it is mostly overlooked within the natural and social sciences. Joining disciplinary worlds, this book aims to explore this ambitious claim invoking viewpoints as diverse as evolutionary culture theory, cultural anthropology, archaeology, cognitive psychology, ethology, and philosophy. The contributors provide major evidence in favor of Girard's hypothesis. Equally, Girard's theory is presented as having the potential to become for the human and social sciences something akin to the integrating framework that present-day biological science owes to Darwin, something compatible with it and complementary to it in accounting for the still remarkably little understood phenomenon of human emergence.

Das jüdische Eherecht Walter Homolka, 2009 Das jüdische Eherecht ist eines der religiösen Rechtsfelder, die Rabbiner in ihrer Praxis am meisten beschreiben. Im Staat Israel ist das jüdische Familienrecht bis heute für die Regelung von Eheschließung und Scheidung zwischen Juden relevant. Das Buch führt in das jüdische Recht insgesamt und in seine Entwicklung in den verschiedenen Strömungen des Judentums ein. Es folgt ein Überblick über Brautwerbung, Verlobung, Details der Eheschließung wie Zeugenregeln und Festsetzung des Trautermens sowie Eheverbote. Dabei werden die Themen jüdischer Status, Mischehe und Eintritt zum Judentum ebenso behandelt wie die Entwicklung von der Polygamie zur Monogamie und die Leviratsehe. Welche besonderen Regeln gelten für Angehörige der Priesterkaste? Was beinhaltet der Ehevertrag, die Ketubba? Warum wird bei der Trauung ein Glas zerbrochen, was hat es mit dem Ehering auf sich und mit den Segenssprüchen während der Eheschließung? Welche ehelichen Pflichten bestehen nach erfolgter Eheschließung und können gleichgeschlechtliche Paare heiraten? Auch die Auflösung der Ehe durch Scheidung wird eingehend behandelt. Abfassung und Wortlaut des Scheidebriefes sowie die rechtlichen Folgen einer Scheidung werden erläutert. Das Buch richtet sich insbesondere an Rabbiner in der Gemeindepraxis, an Experten des kanonischen und kirchlichen Rechts und an Juristen, die sich mit vergleichendem Familienrecht beschäftigen. Auch Theologen und Judaisten lesen das Buch mit Gewinn.
