Rodney K. B. Parker,2021-08-26 This volume aims to contextualize the development and reception of Husserl s transcendental phenomenological idealism by placing him in dialogue with his most important interlocutors his mentors peers and students Husserl s turn to idealism and the ensuing reaction to Ideas I resulted in a schism between the early members of the phenomenological movement The division between the realist and the transcendental phenomenologists is often portrayed as a sharp one with the realists naively and dogmatically rejecting all of Husserl s written work after the *Logical Investigations* However this understanding of the trajectory of the phenomenological movement ignores the extensive and intricate contours of the idealism realism debate In addition to helping us better interpret Husserl s attempts to defend his idealism reconsidering the idealism realism debate elucidates the relationship and differences between Husserl s phenomenology and the broader landscape of early 20th century German philosophy particularly the Munich

phenomenologists and the Neo Kantians The contributions to this volume reconsider many of the early interpretations and critiques of Husserl inviting readers to assess the merits of the arguments put forward by his critics while also shedding new light on their so called misunderstandings of his idealism This text should be of interest to researchers working in the history of phenomenology and Husserlian studies **The Musical World** ,1853 **Negotiating Malay Identities in Singapore**
Rizwana Abdul Azeez,2016-03-01 Singapore Malays subscribe to mostly traditional rather than modern interpretations of Islam Singapore state officials however wish to curb the challenges such interpretations bring to the country s political social educational and economic domains Thus these officials launched a programme to socially engineer modern Muslim identities amongst Singapore Malays in 2003 which is ongoing Negotiating Muslim Identities documents a variety of ethnographic encounters that point to the power struggles surrounding two basic and very different ways of living While the Singapore state has gained some successes for its project it has also faced significant and multiple setbacks Amongst them state officials have had to contend with traditional Islamic authority that Malay elders carry and who cannot be ignored because these elders are time entrenched authority figures in their community One of the book s significant contributions is that it documents how Singapore an avowedly secular state has now turned to Islam as a tool for governance Just as significant are the insights the study provides on another aspect of Singapore state governance one usually described as authoritarian The book demonstrates that even authoritarian states can face serious obstacles in the face of religion s influence over its followers The academic literature on Singapore Malays is sparse this work not only fills gaps in the existing academic literature but provides new and original research data Its data rich ethnographic and anthropological approach show the complexities of Malay and Muslim social contexts and complements other works that examine Southeast Asian states management of Islam which has attracted much scholarship given the global interest in Islam based politics and social organisation *Music Trade Review* ,1879
