Current Projects in Historical Lexicography John Considine, 2010-04-16 Current Projects in Historical Lexicography brings together seven papers by present and recent editors of historical dictionaries and lexical databases. The collection is introduced with an overview of the history of historical lexicography from the ancient world to the present day with particular emphasis on the major nineteenth century dictionaries of German, French, English, Dutch, Swedish and Danish and on their successors. In the first paper, Javier Mart n Arista describes the present state of and the prospects for the Nerthus lexical database of Old English. The next two introduce specialized dictionaries of the language of medieval and early modern texts. Fernando Tejedo Herrero's comprehensive dictionary of the language of the great thirteenth century lawcode Siete Partidas and Juhani Norri's Dictionary of Medical Vocabulary in English 1375-1530. Marijke Mooijaart's paper discusses the online integration of the four historical dictionaries which cover Dutch from the earliest times to the twentieth century. The next two papers, Stefan Dollinger on the Dictionary of Canadianisms on Historical Principles and the Bank of Canadian English and Maggie Scott on the Concise Scots Dictionary, describe projects to revise twentieth century historical dictionaries as the language varieties which they register evolve. Finally, Jeremy Bergerson's paper presents a project for an etymologically rich historical dictionary of Afrikaans. An appendix to the volume comprises two previously unpublished short documents by Katherine Barber and John Considine which bear on the history of the Dictionary of Canadianisms revision project. The contributions to this volume offer a rare set of insights into ongoing lexicographical work addressing both methodological issues such as inclusion criteria and the balance between diachronic and synchronic coverage and practical issues such as publication media and funding.

Woordeloos tot Verhaal Hans Ester, C. N. Van der Merwe, Etty Mulder, 2012-10-01 Woordeloos tot verhaal is in menig opzicht een baanbrekend werk. Het brengt 24 onderzoekers uit verschillende disciplines bij elkaar om vanuit een scala van perspectieven helderheid te verschaffen over het trauma als centraal gegeven in de menselijke samenleving. Nieuw is tevens de samenwerking tussen Afrikaanstalige en Nederlandstalige auteurs. Zij hebben elkaar gevonden vanuit een gemeenschappelijke belangstelling en werden gestimuleerd door de verwantschap tussen hun talen.
