Zusammenhang Zwischen Korruptionskontrolle Governance Subsaharischen:

Der Zusammenhang zwischen Korruptionskontrolle und "Good Governance" der subsaharischen Region Kristof Benninger, 2015-05-18 Studienarbeit aus dem Jahr 2015 im Fachbereich Politik Region Afrika Note 1,3 FernUniversität Hagen Institut für Politikwissenschaft Veranstaltung Regieren jenseits etablierter Demokratien Sprache Deutsch Abstract Das Erkenntnisinteresse dieser Arbeit liegt darin, ob ein niedriger Korruptionsgrad mit der Erfüllung von bestimmten Good Governance Kriterien erklärt werden kann. Daher lautet die zentrale Fragestellung: Welcher Zusammenhang besteht zwischen Korruptionskontrolle und Good Governance? Die zu verifizierende Vermutung lautet: dass eine effektive Korruptionskontrolle mit entsprechend hohen Good Governance Leistungen korreliert und eine weniger wirkungsvolle Korruptionskontrolle eben mit schwächeren Good Governance Leistungen. In Subsahara Afrika müsste der Befund für meine Fragestellung also eindeutig sein. Botswana, die Kapverden, die Seychellen, Mauritius und mit Abstrichen Namibia, Ruanda, Lesotho und Ghana müssten neben dem geringeren Korruptionsgrad auch eine entsprechend höhere Leistung bei den Good Governance Kriterien aufweisen, während die restlichen subsaharischen Staaten ein entsprechend niedrigeres Niveau vorweisen müssten. Ist also Good Governance das Gegenkonzept zur Korruption? Für die Überprüfung dieses Zusammenhangs scheint Subsahara Afrika ein geeignetes Beispiel zu sein, nicht zuletzt auch deswegen, weil alle Länder der Region Entwicklungsländer sind und hier die entwicklungspolitische Diskussion und Praxis die Etablierung von Good Governance Strukturen und Institutionen postulieren.

Good Governance in Sub-Saharan Africa Ms. Monique Newiak, 2022-03-18 Governance and corruption issues have taken the center stage in international discussions especially after the adoption by the IMF in 2018 of a new framework for engagement on governance and corruption. Sound institutions that guarantee integrity in the management of public affairs are critical on the path toward higher and more inclusive growth. Corruption undermines the quality of institutions, weakens the effectiveness of government programs and compromises social trust in government policies. Indeed, countries around the world that improved their governance systems are reaping a governance dividend and governance enhancing reformist countries in sub-Saharan Africa include Botswana, Rwanda and Seychelles. In addition, Liberia, Sierra Leone and Angola demonstrate that important reforms are possible including in fragile environments. The importance of good governance has acquired even more importance as countries try to introduce policies to fight the ongoing COVID-19 pandemic. Special attention to governance in an emergency context including situations associated with conflict, other health crises and natural disasters is therefore essential. Innovation and new technologies are critical instruments that policymakers can use in their efforts to improve governance and transparency.

Corruption, Good Governance, and the African State Ganahl, Joseph Patrick, 2014-02-18 African states are often called corrupt, indicating that the political system in Africa differs from the one prevalent in economically advanced democracies. This, however, does not give us any insight into what makes corruption the dominant norm of African statehood. Thus, we must turn to the overly neglected theoretical work on the

political economy of Africa in order to determine how the poverty of governance in Africa is firmly anchored both in Africa's domestic socioeconomic reality as well as in the region's role in the international economic order. Instead of focusing on increased monitoring, enforcement, and formal democratic procedures, this book combines economic analysis with political theory in order to arrive at a better understanding of the political economic roots of corruption in Sub-Saharan Africa.

Corruption, Democracy, and Good Governance in Africa Kwame Frimpong, Gloria Jacques, 1999
