Talking to Strangers Danielle Allen, 2009-08-01 Don t talk to strangers is the advice long given to children by parents of all classes and races Today it has blossomed into a fundamental precept of civic education reflecting interracial distrust personal and political alienation and a profound suspicion of others In this powerful and eloquent essay Danielle Allen a 2002 MacArthur Fellow takes this maxim back to Little Rock rooting out the seeds of distrust to replace them with a citizenship of political friendship Returning to the landmark Brown v Board of Education decision of 1954 and to the famous photograph of Elizabeth Eckford one of the Little Rock Nine being cursed by fellow citizen Hazel Bryan Allen argues that we have yet to complete the transition to political friendship that this moment offered By combining brief readings of philosophers and political theorists with personal reflections on race politics in Chicago Allen proposes strikingly practical techniques of citizenship These tools of political friendship Allen contends can help us become more trustworthy to others and overcome the fossilized distrust among us Sacrifice is the key concept that bridges citizenship and trust according to Allen She uncovers the ordinary daily sacrifices citizens make to keep democracy working and offers methods for recognizing and reciprocating those sacrifices Trenchant incisive and ultimately hopeful Talking to Strangers is nothing less than a manifesto for a revitalized democratic citizenry

Performing Atheist Selves in Digital Publics Evelina Lundmark, 2023-02-24 This book considers how the non religious self is performed publicly online and how digital culture and technology shapes this process Building on a YouTube case study with women vloggers it presents unique empirical data on non organized atheism in the United States Lundmark suggests that the atheist self as performed online exists in tension

between a perception of atheism as sinful and amoral in relation to hegemonical Christianity in the U S and the hyperrational male centered discourse that has characterized the atheist movement She argues that women atheist vloggers co effect third spaces of emotive resonance that enable a precarious counterpublicness of performing atheist visibility The volume offers a valuable contribution to the discussion of how the public the private and areas in between are understood within digital religion and opens up new space for engaging with the increased visibility of atheist identity in a mediatized society
