Aquaculture Desk Reference R. Creswell,2012-12-06 As the aquaculture industry has expanded throughout the world it has embraced the experiences of many fields of study to meet increasing technological challenges The complexities of modern hatchery methodology more intensive growout systems and the application of diverse biological and physical sciences to aquatic animal husbandry have reached beyond the ability of most aquaculturists to enjoy an in depth knowledge of all phases of the aquaculture process More importantly in order for the culturist to have at hand the information necessary to make basic decisions it requires an extensive library of textbooks and scientific literature The Aquaculture Desk Reference serves as a concise compilation of tables graphs conversions formulas and design specifications useful to the aquaculture industry It also provides examples in a straightforward manner of how information in tabulation can be used to derive values for specific system design and process strategies Tables and graphs in this volume also provide background documentation and authority for further reference The Aquaculture Desk Reference is a convenient source book that will alleviate the need for an extensive personal library to access basic information useful for practicing aquaculturists Many thanks to Mrs Ruth Aldrich for her assistance in the preparation of this book My family friends and associates also deserve my special appreciation for their encouragement and support
