From the above, it is clear that the proposed method is a simple and effective way to solve the problem of the non-linear regression model.

Though an all-encompassing, or omniscient, narrator is not employed, the omniscient narrator is used in the novel to allow the reader to see the events from a distance, as if they were watching a play. The narrator is not a character in the novel, and is not a participant in the events. The narrator is a neutral, objective observer of the events, and is not a participant in the events. The narrator is a neutral, objective observer of the events, and is not a participant in the events.
