Time Steve Jobs The Genius Who Changed Our World:

Time Steve Jobs The Editors of TIME, 2011-11-15 The man who revolutionized personal technology is celebrated by the writers and editors of TIME magazine in a beautifully illustrated look back on his life and legacies From his unlikely beginnings as a college dropout to his triumphant years as the man behind one invention after another that transformed our lives this is the story of a tireless innovator and visionary thinker With new pieces by renowned TIME writers Lev Grossman Richard Corliss Harry McCracken and James Poniewozik Historicity in Organization Studies François-Xavier de Vaujany, Kätlin Pulk, Pierre Labardin, 2025-07-28 As soon as we go beyond the borders of our present and begin to explore remote pasts and futures management and organization scholars are exposed to two dangers The first is the exaggeration of continuities and anachronism about the past The second is the projection of present ordinariness into the future So how can we describe long term processes of entrepreneurship accounting marketing finance information systems or innovation This edited volume gathers a team of leading interdisciplinary scholars inspired by process philosophy phenomenologies and critical schools After presenting issues debates and perspectives likely to inspire and guide historical description several examples of historical work in entrepreneurship accounting and organization studies are used to show situations in which researchers have had to tackle this resonance between ontology and methodology in their historiography It will be of great interest to scholars and students of management and organization studies Divine Fury Darrin M. McMahon, 2013-10-22 Genius With hints of madness and mystery moral license and visionary force the word suggests an almost otherworldly power the power to create to divine the secrets of the universe even to destroy Yet the notion of genius has been diluted in recent times Today rock stars football coaches and entrepreneurs are labeled geniuses and the word is applied so widely that it has obscured the sense of special election and superhuman authority that long accompanied it As acclaimed historian Darrin M McMahon explains the concept of genius has roots in antiquity when men of prodigious insight were thought to possess or to be possessed by demons and gods Adapted in the centuries that followed and applied to a variety of religious figures including prophets apostles sorcerers and saints abiding notions of transcendent human power were invoked at the time of the Renaissance to explain the miraculous creativity of men like Leonardo and Michelangelo Yet it was only in the eighteenth century that the genius was truly born idolized as a new model of the highest human type Assuming prominence in figures as varied as Newton and Napoleon the modern genius emerged in tension with a growing belief in human equality Contesting the notion that all are created equal geniuses served to dramatize the exception of extraordinary individuals not governed by ordinary laws The phenomenon of genius drew scientific scrutiny and extensive public commentary into the 20th century but it also drew religious and political longings that could be abused In the genius cult of the Nazis and the outpouring of reverence for the redemptive figure of Einstein genius achieved both its apotheosis and its Armageddon The first comprehensive history of this elusive concept *Divine Fury* follows the fortunes of genius and geniuses through the ages down

to the present day showing how despite its many permutations and recent democratization genius remains a potent force in our lives reflecting modern needs hopes and fears

Blaze: Star-Crossed Brett Cooper, 2016-06-08 When aliens obsessed sixteen year old Blaise Davis is abducted by his birth family he learns that he is not a twin but a triplet that his adoption was not interstate but interstellar and that his birth father may or may not be the greatest villain in the universe After severely injuring his twin brother Wimpy in a fit of rage four years ago Blaise is the normal one nobody notices the one who can't stop the neighbor bully or get the girl But destiny awaits Blaise and Wimpy were born in a distant galaxy Their enigmatic birth father Goby has big plans When they are snatched from Earth and then lost in space Blaise's anger becomes a superpower and Blaise becomes BLAZE and must find out who he really is follow his heart and control his rage before Goby can control his mind and the fate of the universe

The Ancient Alien Theory: Part Seven C.R. Hale, 2018-07-20 The Ancient Alien Theory Part Seven and ancientalienpedia.com are both a written and online resource The written guide serves as an opportunity to log out shut down and unplug from the online world The online guide serves as a gateway to the Ancient Alien Theory with links to online sources books and authors Just as Bill Birnes created The UFO Magazine Encyclopedia to provide a comprehensive guide to UFOs and extraterrestrial contact AncientAlienPedia is providing a database to the Ancient Alien Theory This all inclusive guidebook saves readers countless of hours of searching for this information which is scattered across hundreds of websites and books The AncientAlienPedia will prove to be an essential reference for the highly controversial Ancient Alien Theory
