Adrift reveals a generation facing a difficult transition to adulthood. Recent graduates report trouble finding decent jobs and developing stable romantic relationships as well as assuming civic and financial responsibility yet at the same time they remain surprisingly hopeful and upbeat about their prospects. Analyzing these findings in light of students' performance on standardized tests of general collegiate skills, selectivity of institutions attended, and choice of major, Arum and Roksa not only map out the current state of a generation too often adrift but enable us to examine the relationship between college experiences and tentative transitions to adulthood. Sure to be widely discussed, *Aspiring Adults Adrift* will compel us once again to re-examine the aims, approaches, and achievements of higher education.
