Time In The Shadows Confinement In Counterinsurgencies:

Time in the Shadows Laleh Khalili, 2012-11-21 Detention and confinement of both combatants and large groups of civilians have become fixtures of asymmetric wars over the course of the last century Counterinsurgency theoreticians and practitioners explain this dizzying rise of detention camps internment centers and enclavisation by arguing that such actions protect populations In this book Laleh Khalili counters these arguments telling the story of how this proliferation of concentration camps strategic hamlets security walls and offshore prisons has come to be Time in the Shadows investigates the two major liberal counterinsurgencies of our day Israeli occupation of Palestine and the U S War on Terror In rich detail the book investigates Abu Ghraib Guantamo Bay CIA black sites the Khiam Prison and Gaza among others and links them to a history of colonial counterinsurgencies from the Boer War and the U S Indian wars to Vietnam the British small wars in Malaya Kenya Aden and Cyprus and the French pacification of Indochina and Algeria Khalili deftly demonstrates that whatever the form of incarceration visible or invisible offshore or inland containing combatants or civilians liberal states have consistently acted illiberally in their counterinsurgency confinements As our tactics of war have shifted beyond slaughter to elaborate systems of detention liberal states have warmed to the pursuit of asymmetric wars Ultimately Khalili confirms that as tactics of counterinsurgency have been rendered more humane they have also increasingly encouraged policymakers to willingly choose to wage wars

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies

Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

The End of Empires and a World

Remade Martin Thomas, 2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international

politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal empire and the acceleration of global integration market reorganization cultural exchange and migration The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade Thomas offers a masterful analysis of the greatest process of state making and empire unmaking in modern history

Fabricating Homeland Security Rhys Machold,2024-09-24 Homeland security is rarely just a matter of the homeland it involves the circulation and multiplication of policing practices across borders Though the term homeland security is closely associated with the United States Israel is credited with first developing this all encompassing approach to domestic surveillance and territorial control Today it is a central node in the sprawling global homeland security industry worth hundreds of billions of dollars And in the wake of the 2008 Mumbai terrorist attacks India emerged as a major growth market Known as India s 9 11 or simply 26 11 the attacks sparked significant public pressure to adopt modern homeland security approaches Since 2008 India has become not only the single largest buyer of Israeli conventional weapons but also a range of other surveillance technology police training and security expertise Pairing insights from science and technology studies with those from decolonial and postcolonial theory Fabricating Homeland Security traces 26 11 s political and policy fallout concentrating on the efforts of Israel s homeland security industry to advise and equip Indian city and state governments Through a focus on the often unseen and overlooked political struggles at work in the making of homeland security Rhys Machold details how homeland security is a universalizing project which seeks to remake the world in its image and tells the story of how claims to global authority are fabricated and put to work

Gendering Counterinsurgency Synne L. Dyvik,2016-12-08 This book analyses the various ways counterinsurgency in Afghanistan is gendered The book examines the US led war in Afghanistan from 2001 onwards including the invasion the population centric counterinsurgency operations and the efforts to train a new Afghan military charged with securing the country when the US and NATO withdrew their combat forces in 2014 Through an analysis of key counterinsurgency texts

and military memoirs the book explores how gender and counterinsurgency are co constitutive in numerous ways It discusses the multiple military masculinities that counterinsurgency relies on the discourse of cultural sensitivity and the deployment of Female Engagement Teams FETs Gendering Counterinsurgency demonstrates how population centric counterinsurgency doctrine and practice can be captured within a gendered dynamic of killing and caring reliant on physical violence albeit mediated through armed social work This simultaneously contradictory and complementary dynamic cannot be understood without recognising how the legitimation and the practice of this war relied on multiple gendered embodied performances of masculinities and femininities Developing the concept of embodied performativity this book shows how the clues to understanding counterinsurgency as well as gendering war more broadly are found in war s everyday gendered manifestations This book will be of much interest to students of counterinsurgency warfare gender politics governmentality biopolitics critical war studies and critical security studies in general

[The Kurdish Women's Freedom Movement](#) Isabel Käser,2021-08-26 Amidst ongoing wars and insecurities female fighters politicians and activists of the Kurdish Freedom Movement are building a new political system that centres gender equality Since the Rojava Revolution the international focus has been especially on female fighters a gaze that has often been essentialising and objectifying brushing over a much more complex history of violence and resistance Going beyond Orientalist tropes of the female freedom fighter and the movement s own narrative of the free woman Isabel Käser looks at personal trajectories and everyday processes of becoming a militant in this movement Based on in depth ethnographic research in Turkey and Iraqi Kurdistan with women politicians martyr mothers and female fighters she looks at how norms around gender and sexuality have been rewritten and how new meanings and practices have been assigned to women in the quest for Kurdish self determination Her book complicates prevailing notions of gender and war and creates a more nuanced understanding of the everyday embodied epistemologies of violence conflict and resistance

Police, Provocation, Politics Deniz Yonucu,2022-03-15 In *Police Provocation Politics* Deniz Yonucu presents a counterintuitive analysis of contemporary policing practices focusing particular attention on the incitement of counterviolence perpetual conflict and ethnosectarian discord by the state security apparatus Situating Turkish policing within a global context and combining archival work and oral history narratives with ethnographic research Yonucu demonstrates how counterinsurgency strategies from the Cold War and decolonial eras continue to inform contemporary urban policing in Istanbul Shedding light on counterinsurgency s affect and emotion generating divisive techniques and urban dimensions Yonucu shows how counterinsurgent policing strategies work to intervene in the organization of political dissent in a way that both counters existing alignments among dissident populations and prevents emergent ones Yonucu suggests that in the places where racialized and dissident populations live provocations of counterviolence and conflict by state security agents as well as their containment of both cannot be considered disruptions of social order Instead they can only be conceptualized as forms of governance and policing designed to manage actual or potential rebellious populations

Beyond These Walls Tony Platt, 2019-01-08 You should definitely read this book What really struck me in reading *Beyond These Walls* was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis *Beyond These Walls* is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States *Beyond These Walls* traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally *Beyond These Walls* demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder

Extravagant Camp Chris A. Eng, 2025-02-04 Illuminates an Asian American genealogy of queer camp performances that irreverently restages key scenes of historical violence the camps

Incarcerating the Crisis Jordan T. Camp, 2016-04-18 The United States currently has the largest prison population on the planet Over the last four decades structural unemployment concentrated urban poverty and mass homelessness have also become permanent features of the political economy These developments are without historical precedent but not without historical explanation In this searing critique Jordan T Camp traces the rise of the neoliberal carceral state through a series of turning points in U S history including the Watts insurrection in 1965 the Detroit rebellion in 1967 the Attica uprising in 1971 the Los Angeles revolt in 1992 and events in post Katrina New Orleans in 2005 *Incarcerating the Crisis* argues that these dramatic events coincided with the emergence of neoliberal capitalism and the state s attempts to crush radical social movements Through an examination of the poetic visions of social movements including those by James Baldwin Marvin Gaye June Jordan Jos Ram rez and Sunni Patterson it also suggests that alternative outcomes have been and continue to be possible
