Consuming History Jerome de Groot,2016-02-08

Studies in the Victorian and

Neo-Victorian Novel Adrian Radu,2024-02-29 Readers of the nineteenth century novel expected literature to be a form journalism and fictional history They wanted to read about easily identifiable situations with a chronological straightforward and easily discernible development of plot familiar backgrounds and credible characters About a hundred years later the Victorian novel became the great tradition omnipresent and reliable However today the age and the context are different and novels need more substance including such themes as memory race and empire sex and science spectrality and the heritage industry or key issues like gender sexuality and postmodernism All these elements are considered Neo Victorian which in spite of their novelty do point to a certain Victorian anchor This volume contains ten studies the substance of which is the analysis of novels that according to their date of publication are products of the Victorian and Neo Victorian periods as defined above The authors investigate and discuss Victorian roots and characteristics preserved or recycled Victorian themes Neo Victorian characters and motifs or any other characteristics that may label them as Victorian or Neo Victorian products

Alternatives within the Mainstream II Dimple Godiwala,2008-12-18 Alternatives Within the Mainstream II follows

from the first volume's dedication to a critical appreciation of and a tracing of trajectories of the theatres of our Others on the British stage. The first volume, *Alternatives Within the Mainstream: British Black and Asian Theatres*, traced a history of Black and Asian British plays, playwrights, theatre companies and theatre voices. The two volumes celebrate the plurality on the post-war British stage in terms of class, gender, race and sexualities. *Alternatives Within the Mainstream II: Queer Theatres in Post-war Britain* is an introduction to queer sexualities and their presence on the post-war British stage. From an introduction which addresses the possibilities of an undoing of repressiveness in desiring another, this volume charts a history of queer on the British stage from a climate of sexual repressiveness and criminalisation to a period of legal acceptance of homosexual desire. It covers gay, lesbian, trans and queer British theatres, the influence of American queer theatre, AIDS consciousness, black queer theatre and television drama. *Alternatives Within the Mainstream II: Queer Theatres in Post-war Britain* is aimed as an introductory text which introduces the several plays, playwrights, theatre companies and queer theorists to students and scholars of contemporary queer British theatres. This book is dedicated to Anthony Blair and the Labour government for bringing in the Civil Partnerships Act.
