Write Better Speak Better:

Write Better, Speak Better Joseph Madappally, 2004-06 This is a compilation of common errors in English among Indian users and as mentioned above is a selection and adaptation of the column which the author had serialised in Career Deepika. The entries are done according to alphabetical order with the main word of common error given in bold. The entries highlight the right sentence and the corresponding wrong use. Brief grammatical explanations are also given alongside to educate the reader on why one is right and the other is wrong. Sometimes more examples are provided. Grammatical classes are marked out in groups for instance prepositions articles adverbs and so on. Since the arrangement is alphabetical the book would be more useful as a ready reckoner than a book for reading from end to end. Explanations are kept to the minimum and so need not tire the reader who just would like to know what is right and what is wrong. Therefore the book can be considered an useful addition to any learner's ready reference.

Perspectives on the Educational Experiences of African/Caribbean Boys Nisheet Gosai, 2011-09-22 This study critically explores contemporary African Caribbean boys' 15-16 years old educational experiences in the UK. It focuses on their lives from both within and outside the school. Various research methods are employed in order to gain a comprehensive picture that includes the accounts of African Caribbean boys, parents, teachers and youth workers. The study explores both the boys' positive and negative experiences of school life. At one level the boys' narratives suggest a nothing but the same old story of racial exclusion and subordination within urban secondary schools. At another level we hear of the importance of education in their lives. Of particular significance is the

evidence of how black supplementary schools and youth organisations are providing an educational space that positively supports them in their transition into adulthood The study makes recommendations for educationalists and policy makers based on the findings This includes the need to understand the boys experiences of racial exclusion and the complexities around the intersection of race gender and class for a younger generation at the start of the twenty first century In comparing mainstream and supplementary educational spaces the boys identify the need to build an inclusive mainstream curriculum that represents the historical past and cultural present of their lives Importantly the study vividly highlights contrasting teacher pupil interactions between these two educational spaces suggesting what the former can learn from the latter
