Writing Journal A Year In The Life Of A Self Published Author:

Writing Journal Scott Haworth, 2014-05-12 One year ago I had six novels self published that were starting to get good reviews from the people who read them After a decade of working hard to make a career out of writing I finally felt like I was on the cusp of success I decided to start a journal to chronicle my journey Whether you are an author who is thinking about self publishing or you are simply curious about how the process works this journal will give you insight on what it is like to try to break out in one of the hardest professions known to man Everyone has heard about the success stories of a handful of self published authors but they are the exception to the rule Even if you work hard have talent and take advantage of every marketing and promotional opportunity that is available the chances of making it big are astronomically low Read my story and experience the highs the lows the more lows and the holy crap I didn't think it could get any lower of self publishing The journal highlights my efforts to write and self publish four novels in less than a year It also delves into the strategies I implemented to convince lovely folks like yourself to actually pay me money to read them Finally I also talk about how I got started as a writer and how the publishing industry has dramatically changed since then

Boyd, 2010-01-01 Before the Civil War American writers such as Catharine Maria Sedgwick and Harriet Beecher Stowe had established authorship as a respectable profession for women But though they had written some of the most popular and influential novels of the century they accepted the taboo against female writers regarding themselves as educators and businesswomen During and after the Civil War some women writers began to challenge this view seeing themselves as artists writing for themselves and for posterity Writing for Immortality studies the lives and works of four prominent members of the first generation of American women who strived for recognition as serious literary artists Louisa May Alcott Elizabeth Stuart Phelps Elizabeth Stoddard and Constance Fenimore Woolson Combining

literary criticism and cultural history Anne E Boyd examines how these authors negotiated the masculine connotation of artist imagining a space for themselves in the literary pantheon Redrawing the boundaries between male and female literary spheres and between American and British literary traditions Boyd shows how these writers rejected the didacticism of the previous generation of women writers and instead drew their inspiration from the most prominent literary writers of their day Emerson James Barrett Browning and Eliot Placing the works and experiences of Alcott Phelps Stoddard and Woolson within contemporary discussions about genius and the American artist Boyd reaches a sobering conclusion Although these women were encouraged by the democratic ideals implicit in such concepts they were equally discouraged by lingering prejudices about their applicability to women [CUT UP!
