Abstract

Despite the crucial role of vocabulary in foreign language acquisition, little is known about its influence on speaking and writing development from self-regulated learning concept. Thus, by employing a path analysis, this study examines the influence of vocabulary acquisition through self-regulated learning on beginner ($N = 215$) and intermediate ($N = 195$) students' speaking and writing development at Walailak University, Thailand. The findings suggest significant paths from vocabulary acquisition to students' speaking and writing development, but noting the influence of proficiency level. These findings contribute to the development of research in vocabulary acquisition and self-regulated learning with regards to speaking and writing development.

1. Introduction

Vocabulary acquisition is undeniably vital for the development of learner's ability in performing the four language skills, encompassing reading, listening, writing, and speaking (Milton, 2013) and the contribution of vocabulary knowledge to learner's language proficiency has been found significant (Karakoç & Köse, 2017). However, the result of a review of current studies on vocabulary acquisition only shows marginal vocabulary growth across vocabulary teaching and learning in various EFL situations, implying the existence of inefficient vocabulary learning (Chanturia & Webb, 2016). Thus, the present study intends to offer some insights by exploring vocabulary acquisition through self-regulated learning and the effects on learner's improvement in speaking and writing skills. The vocabulary acquisition in this study involves explicit instruction in vocabulary learning that has been found effective in

Writing And Vocabulary In Foreign Language Acquisition:

Writing and Vocabulary in Foreign Language Acquisition Dorte Albrechtsen, Kirsten Haastrup, Birgit Henriksen, 2004 This volume features eight articles on writing and vocabulary acquisition two crucial areas of study in foreign language learning and teaching Five contributions have come from notable research environments in Canada Ireland New Zealand Poland and Wales The first section is devoted to studies of writing in a second or a foreign language L2 The second section deals with vocabulary acquisition illustrating the wide scope of the issues open to investigation Vocabulary and Writing in a First and Second Language D. Albrechtsen, K. Haastrup, B. Henriksen, 2008-01-17 Listening to the voices of learners as they write an essay or try to cope with unfamiliar words in a text is a luxury often reserved for researchers This book observes individuals performing similar tasks in their first and their foreign language and invites readers with an interest in foreign language acquisition to follow the same learners in their efforts to cope in both languages **Lexical Errors and Accuracy in Foreign Language Writing** María del Pilar Agustín Llach, 2011-07-18 Lexical errors are a determinant in gaining insight into vocabulary acquisition vocabulary use and writing quality assessment Lexical errors are very frequent in the written production of young EFL learners but they decrease as learners gain proficiency Misspellings are the most common category but formal errors give way to semantic based lexical errors as proficiency increases likewise the direct influence of the L1 also reduces in favour of more elaborated transfer mechanisms and L2 influence The different categories of lexical errors indicate the stage of learning This book uses a study of young EFL learners to suggest that lexical accuracy is a crucial component of writing assessment and that lexical errors are useful in predicting writing quality

Writing to Learn Academic Words Breno B. Silva, 2022-08-22 This book highlights the importance of English academic vocabulary for success at university and explores written tasks as effective pedagogical tools to promote the acquisition of academic words The book reviews germane and recent SLA psycholinguistic corpus linguistics and L2 writing research to underscore the challenges associated with the learning of academic words Then it reports on three empirical studies conducted in the Polish context The first study develops a reliable tool to assess the knowledge of academic vocabulary of undergraduate learners The second and third studies investigate the learning of academic words after the writing of sentences and argumentative essays and discuss the role of cognition as a mediator of such learning The book also provides an accessible introduction to linear mixed effect models a powerful reliable and flexible statistical technique that has been gaining popularity among SLA and psycholinguistics researchers The Big Book of Tasks for English Language Development, Grades K-8 Nancy Akhavan, 2024-03-11 Ready to go English Language Development tasks that focus on students doing the doing of talking reading listening and responding In recent years the percentage of English Language Learners ELLs has increased in almost every state so most teachers are faced with the challenge of teaching literacy to students acquiring English alongside English speaking students However in many integrated learning situations English

Language Development ELD instruction is strikingly different than the teaching we provide students whose first language is English. The Big Book of Tasks for English Language Development helps teachers meet that challenge head on. Bestselling author and esteemed education consultant Nancy Akhavan shows that teaching multilingual learners requires changing our instruction to focus on practices that have high impact for students as they acquire language. Yet it's not about doing more; it's about doing smarter. It's about having high expectations for all students and providing scaffolds to support students at all levels of English language proficiency as they learn and grow more confident. All the ready-to-go activities in the book center on active tasks where students do the thinking, talking, reading, and writing with appropriate support. Activate the domains of language: listening, speaking, reading, and writing, and recognize that these do not develop at the same rate. Honor the continuum of language development and build on what students can do. Provide teaching tools such as learning targets, suggestions for when to use a task, basic instructions, and teacher talk for launching a task, and Watch Fors and Work Arounds. Focus on the linguistic assets multilingual learners bring to the classroom and provide opportunities to help them collaborate with peers. With Akhavan's signature straight-forward, teacher-friendly style, this book offers an uplifting reminder that with the right teaching strategies, educators can support multilingual learners to achieve their full potential and thrive in their learning journeys.

Handbook of Second and Foreign Language Writing Rosa M. Manchón, Paul Kei Matsuda, 2016-09-12

The Handbook of Second and Foreign Language Writing is an authoritative reference compendium of the theory and research on second and foreign language writing that can be of value to researchers, professionals, and graduate students. It is intended both as a retrospective critical reflection that can situate research on L2 writing in its historical context and provide a state-of-the-art view of past achievements and as a prospective critical analysis of what lies ahead in terms of theory, research, and applications. Accordingly, the Handbook aims to provide:

- i foundational information on the emergence and subsequent evolution of the field
- ii state-of-the-art surveys of available theoretical and research, basic and applied insights
- iii overviews of research methods in L2 writing research
- iv critical reflections on future developments and
- v explorations of existing and emerging disciplinary interfaces with other fields of inquiry.

The Diagnosis of Writing in a Second or Foreign Language Ari Huhta, Claudia Harsch, Dmitri Leontjev, Lea Nieminen, 2023-07-07

The Diagnosis of Writing in a Second or Foreign Language is a comprehensive survey of diagnostic assessment of second foreign language (SFL) writing. In this innovative book, a compelling case is made for SFL writing as an individual, contextual, and multidimensional ability. Combining several theoretically informed approaches upon which to base diagnosis, using the diagnostic cycle as the overarching framework, the book starts with the planning phase, covers design, development, and delivery of diagnostic assessment, ending with feedback and feed-forward aspects to feed diagnostic information into the teaching and learning process. It covers means to diagnose both the writing processes and products, including the design and development of diagnostic tasks and rating scales, as well as automated approaches to assessment. Also included is a range of existing

instruments and approaches to diagnosing SFL writing Addressing large scale as well as classroom contexts this volume is useful for researchers teachers and educational policy makers in language learning *Working Collaboratively in Second/Foreign Language Learning* María del Pilar García Mayo, 2021-01-18 Since the introduction of communicative language teaching collaborative learning has played an important role in the second language L2 classroom Drawing from sociocultural theory which states that human cognitive development is a socially situated activity mediated by language studies in L2 pedagogy advocate the use of tasks that require learners to work together Collaborative dialogue encourages language learning and research shows that the solutions reached by students in this process are more often correct with a lasting influence on their language comprehension This volume includes ten chapters that illustrate the benefits of collaborative dialogue in second foreign language classrooms The volume considers key issues dealing with collaborative tasks and implications for language teaching **Language Unleashed: Mastering the Art of Foreign Language**

Autonomy and Foreign Language Learning in a Virtual Learning Environment Miranda Hamilton, 2013-04-11 Digitalised learning with its promise of autonomy enhanced learner choice independence and freedom is an intuitive and appealing construct but closer examination reveals it to be a rather simplistic proposition raising the following questions What do we mean by autonomy What are we implying about the role of the teacher the classroom and interaction between learners What do we understand about the impact of technology on the ecology of the learning environment This book describes the use of a Virtual Learning Environment VLE by a group of advanced English language learners in Mexico comparing what students thought and what they did in response to the technology The theoretical aim of the book is to work towards the construction of a theory of the development of autonomy and virtual learning in an EFL context Enhanced understanding about the relationship between autonomy and technology has the potential to inform academics software designers materials writers teacher educators and teachers and to help learners in their quest to acquire a foreign language Usage-Based Approaches to Language Acquisition and Language Teaching Jacqueline Evers-Vermeul, Elena Tribushinina, 2017-03-06 Although usage based approaches have been successfully applied to the study of both first and second language acquisition to monolingual and bilingual development and to naturalistic and instructed settings it is not common to consider these different kinds of acquisition in tandem The present volume takes an integrative approach and shows that usage based theories provide a much needed unified framework for the study of first second and foreign language acquisition in monolingual and bilingual contexts The contributions target the acquisition of a wide range of linguistic phenomena and critically assess the applicability and explanatory power of the usage based paradigm The book also systematically examines a range of cognitive and linguistic factors involved in the process of language development and relates relevant findings to language teaching Finally this volume contributes to the assessment and refinement of empirical methods currently employed in usage based acquisition research This book is of interest to scholars of language acquisition language pedagogy developmental psychology as well as Cognitive Linguistics and Construction Grammar
