Qualitative Dissertation Methodology Nathan Durdella, 2017-12-29 Designing and writing a qualitative dissertation methodology chapter can be

done Qualitative Dissertation Methodology A Guide for Research Design and Methods functions as a dissertation advisor to help students construct and write a qualitative methodological framework for their research Drawing from the challenges author Nathan Durdella has experienced while supervising students the book breaks down producing the dissertation chapter into smaller pieces and goes through each portion of the methodology process step by step With a warm and supportive tone he walks students through the process from the very start from choosing chairs and developing qualitative support networks to outlining the qualitative chapter and delving into the writing By the end of the book students will have completed the most challenging chapter of a qualitative dissertation and laid a strong foundation for the rest of their dissertation work

Detox Your Writing Pat Thomson, Barbara Kamler, 2016-02-26 There are a number of books which aim to help doctoral researchers write the PhD This book offers something different the scholarly detox This is not a faddish alternative it s not extreme It s a moderate approach intended to gently interrupt old ways of doing things and establish new habits and orientations to writing the PhD The book addresses the problems that most doctoral researchers experience at some time during their candidature being unclear about their contribution feeling lost in the literature feeling like an imposter not knowing how to write with authority wanting to edit rather than revise Each chapter addresses a problem suggests an alternative framing and then offers strategies designed to address the real issue Detox Your Writing is intended to be a companionable work book something doctoral researchers can use throughout their doctorate to ask questions about taken for granted ways of writing and reading and to develop new and effective approaches The authors distinctive approach to doctoral writing mobilises the rich traditions of linguistic scholarship as well as the literatures on scholarly identity formation Building on years of expertise they place their emphasis both on tools and techniques as well as the discursive practices of becoming a scholar The authors provide a wide repertoire of strategies that doctoral researchers can select from rather than a linear lock step progression through a set of exercises The book is a toolkit but a far from prescriptive one It shows that there are many routes to developing a personal academic voice and identity and a well crafted text With points for reflection alongside examples from a broad range of disciplines the book offers thinking tools writing tools linguistic tools and reading tools which are relevant to all stages of doctoral research This practical text can be used in all university doctoral training and composition and writing courses However it is not a dry how to do it manual that ignores debates or focuses solely on the mechanical at the expense of the lived experience of doctoral research It provides a practical theorised real world guide to postgraduate writing

Developing Generic Support for Doctoral Students Susan Carter, Deborah Laurs, 2014-03-26 This multidisciplinary multi voiced book looks at the practice and pedagogy of generic across campus support for doctoral students With a global imperative for increased doctoral completions universities around the world are providing more generic support This book represents collegial cross fertilisation focussed on generic pedagogy provided by contributors who are practitioners working and researching at the pan disciplinary level which complements supervision In

the UK funding for two weeks annual training in transferable skills for each doctoral scholarship recipient has caused an explosion of such teaching which is now flourishing elsewhere too for example endorsed by the Carnegie Initiative on the Doctorate in the USA and developed extensively in Australia Generic doctoral support is expanding yet is a relatively new kind of teaching practised extensively only in the last decade and with its own ethical practical and pedagogical complexities These raise a number of questions How is generic support funded and situated within institutions Should some sessions be compulsory for doctoral students Where do the boundaries lie between what can be taught generically or left to supervisors as discipline specific To what extent is generic work pastoral What are its main benefits Its challenges Its objectives Over the last two decades supervision has been investigated and theorised as a teaching practice a discussion this book extends to generic doctoral support This edited book has contributions from a wide range of authors and includes short inset narratives from academic authorities accumulatively enabling discussion of practice and the establishment of a benchmark for this growing topic

graduate education students must develop academic skills that transcend content knowledge such as receiving and responding to critical feedback and learning how to collaborate master academic writing and be mindful of ethical research practices Much is still unknown about how to teach dispositions such as how to design a curriculum to best cultivate habits of mind and this book attempts to address this gap while providing practical methods and strategies that can help higher education practitioners to cultivate and assess the scholarly dispositions of their students effectively The Handbook of Research on Developing Students Scholarly Dispositions in Higher Education provides insight on dispositions that students must learn in higher education and how higher education faculty can help students to develop these dispositions as well as evidence based methods that help develop scholarly dispositions for undergraduate and graduate education This book provides a plethora of information on scholarly dispositions and related elements including teaching time management collaboration and research ethics It is an ideal reference source for teachers academicians administrators researchers and students aspiring to become researchers and scholars themselves **Making the Grade** Kevin A. Morrison, 2021-07-01

From a cultural history of the essay to incisive contemporary rethinking of its usefulness in the classroom from guides on how to write a seminar paper to guides on how to assess them Making the Grade offers desperately needed clarity on a complex genre The contributions in this book should be standard for every first semester graduate student and every first semester professor who wants to prepare undergraduates for graduate level writing or who wants to prepare graduate students for professional publication **Bibliographic Research in Composition Studies** Vicki Byard, 2009-10-02

Bibliographic Research in Composition Studies is a student friendly guide to how knowledge is constructed and disseminated in composition studies as well as a thorough handbook on how to conduct bibliographic research in the discipline Student readers are taught Stephen North's taxonomy of scholarship empirical research and practice so that they can better contextualize the sources they read and they learn the unique ways that some genres of publication function in composition studies The book also leads students through the entire process of completing a bibliographic assignment [Linked Courses for General Education and Integrative Learning](#) Margot Soven, Dolores Lehr, Siskanna Naynaha, Wendy Olson, 2023-07-03

Research indicates that of the pedagogies recognized as high impact learning communities one approach to which the linked course is the subject of this book lead to an increased level of student engagement in the freshman year that persists through the senior year and improve retention This book focuses on the learning community model that is the most flexible to implement in terms of scheduling teacher collaboration and design the linked course The faculty may teach independently or together coordinating syllabi and assignments so that the classes complement each other and often these courses are linked around a particular interdisciplinary theme Creating a cohort that works together for two paired courses motivates students while the course structure promotes integrative learning as students make connections between disciplines This volume covers both linked courses in which faculty may work to coordinate syllabi and assignments but teach most of their courses

separately as well as well as paired courses in which two or more courses are team taught in an integrated program in which faculty participate as learners as well as teachers Part One Linked Course Pedagogies includes several case studies of specific linked courses including a study skills course paired with a worldview course a community college course that challenges students compartmentalized thinking and a paired course whose outcomes can be directly compared to parallel stand alone courses Part Two Linked Course Programs includes a description of several institutional programs representing a variety of linked course program models Each chapter includes information about program implementation staffing logistics and concerns curriculum development pedagogical strategies and faculty development Part Three Assessing Linked Courses highlights the role of assessment in supporting maintaining and improving linked course programs by sharing assessment models and describing how faculty and administrators have used particular assessment practices in order to improve their linked course programs

ESP in European Higher Education Inmaculada Fortanet-gomez, Christine Räisänen, 2008 The Bologna Reform has been implemented in a large part of the European Union and it is time to take a short pause to reflect over some of the lessons learned up to now The aim of this book is to share experiences and reflections on English for Specific Purposes pedagogy in Western European higher education Taking as a starting point the development of the EU policies during the past couple of decades and their national implementations the chapters in this book provide various perspectives both theoretical and practical on the ways in which the reform has been implemented and its effects on the teaching of ESP Experiences of developing programmes and courses incorporating Content and Language Integrated Learning and Autonomous and Lifelong Learning are described as well as Problem Based Learning and Process Genre Pedagogies The book also includes chapters on the crucial but often neglected issue of teacher support in meeting the challenges of teaching content through the medium of English
