As cloud technology continues to advance and be utilized, many service providers have begun to employ multiple networks or cloud federations; however, as the popularity of these federations increases, so does potential utilization challenges. *Developing Interoperable and Federated Cloud Architecture* provides valuable insight into current and emergent research occurring within the field of cloud infrastructures. Featuring barriers, recent developments and practical applications on the interoperability issues of federated cloud architectures, this book is a focused reference for administrators, developers and cloud users interested in energy awareness, scheduling and federation policies and usage.

Euro-Par' 99 Parallel Processing Patrick Amestoy, Philippe Berger, Michel Dayde, Iain Duff, Valerie Frayssé, Luc Giraud, Daniel Ruiz, 2003-05-21. Euro Par is an international conference dedicated to the promotion and advancement of all aspects of parallel computing. The major themes can be divided into the broad categories of hardware, software, algorithms and applications for parallel computing. The objective of Euro Par is to provide a forum within which to promote the development of parallel computing both as an industrial technique and an academic discipline, extending the frontier of both the state of the art and the state of the practice. This is particularly important at a time when parallel computing is undergoing strong and sustained development and experiencing real industrial take-up.
