A critical engagement with theological education in Africa Johannes J. Knoetze, Alfred R. Brunsdon, 2022-02-07 The higher education landscape has arguably become one of the most arduous to traverse More so in the African context where a host of variables continuously challenge educators to reflect critically on their philosophies and practices as they engage an ever changing audience In this book a critical engagement with theological education in Africa is offered As the book originates from South Africa it is presented as a South African perspective although contributors are situated accross the African continent and abroad The common denominator is that all contributors are in some way or another invested in theological education in Africa The main contribution of this collaborative work is to be sought in the insights it offers on four main areas of theological education A historical and current orientation on theological education in Africa some paradigm shifts in theological education in Africa ministerial formation needs versus theological education challenges and a critical reflection on elective models and methods The book presents the original and innovative research of scholars for fellow scholars involved in theological higher education as it is grounded in the respective fields of interest of each contributor It contributes to a better understanding of the complex African theological higher education landscape that is also mindful of post COVID 19 realities Methodologically the work draws on a combination of methods including literature studies empirical work and in some cases sectional offerings from doctoral studies as indicated in the various chapters *Biblical Studies on the Internet* Roland H. Worth, 2002-01-01 With this handbook of currently available internet resources for use online or to be downloaded to one s personal computer the users can locate the exact spot on the internet to find the materials they want And they will save countless hours of frustration and work Over 3 300 websites provide information on a range of topics English language Bible translations that can be used online or downloaded sites to listen to hymns on the Internet Bible translations into 57 non English languages non English commentaries dictionaries and other resource materials Hebrew Greek and other ancient language texts and resource materials numerous commentaries on any one single biblical book or on the entire scriptural canon supplemental materials dealing with everything from devotional studies to issues of fundamental biblical interpretation and pseudo authoritative writings related to the two testaments Multiple sites are given for each resource cited whenever possible Religion, Globalization, and Culture Peter Beyer, Lori G. Beaman, 2007-10-30 This volume brings together over 25 articles by many of the most important authors who have worked on issues directly related to the theme of religion and globalization An additional emphasis on culture flags the inclusion of the relation of religion to its wider social context and also permits questioning the boundaries of religion so as to avoid a strong bias in favour of the analysis of institutionalized religion The key emphasis of the book however is the focus specifically on religion a topic that is still largely ignored in the burgeoning literature on globalization The articles are divided into five subthemes theoretical issues historical approaches to religion and globalization forms and boundaries of religion key issues such as ecology and

gender and regional perspectives Contributors Afe Adogame Elisabeth Arweck Lori Beaman Peter Beyer John Boli Gary Bouma Dave Brewington George Van Campbell Jos Casanova Paul Freston Nobutaka Inoue Laurel Kearns Otto Maduro Vasilios Makrides Meredith McGuire Vincenzo Pace Rubina Ramji James T Richardson Ole Riis Roland Robertson Marie Andre Roy Shandip Saha John H Simpson James V Spickard William Stahl George Thomas Bryan Turner Margit Warburg and Michael Wilkinson
