

THUNDER CAKE

By Patricia Polacco

Grandma looked at the horizon, drew a deep breath and said, "This is Thunder Cake baking weather, all right. Looks like a storm coming to me."

"Child, you come out from under that bed. It's only thunder you're hearing," my grandma said.

The air was hot, heavy, and damp. A loud clap of thunder shook the house, rattled the windows, and made me grab her close.

"Steady, child," she cooed. "Unless you let go of me, we won't be able to make a Thunder Cake today!" "Thunder Cake?" I stammered as I hugged her even closer.

"Don't pay attention to that old thunder, except to see how close the storm is getting. When you see the lightning, start counting... real slow. When you heard the thunder, stop counting. That number is how many miles away the storm is. Understand?" she asked. "We need to know how far away the storm is, so we have time to make the cake and get it into the oven before the storm comes, or it won't be real Thunder Cake."

Her eyes surveyed the black clouds a way off in the distance. Then she strode into the kitchen. Her worm hands pulled a thick book from the shelf above the woodstove.

"Let's find that recipe, child," she crowed as she lovingly fingered the grease-stained pages to a creased spot.

"Here it is ... Thunder Cake!" She carefully penned the ingredients on a piece of notepaper. "Now let's gather all the things we'll need!" she exclaimed as she scurried toward the back door.

We were by the barn door when a huge bolt of lightning flashed. I started counting, like Grandma told me to, "1-2-3-4-5-6-7-8-9-10."

Then the thunder ROARED! "Ten miles... it's ten miles away," Grandma said as she looked at the sky. "About an hour away, I'd say. You'll have to hurry, child. Gather them eggs careful-like," she said.

Thunder Cake Story Text:

Thunder Cake Patricia Polacco, 1997-08-25 A loud clap of thunder booms and rattles the windows of Grandma's old farmhouse This is Thunder Cake baking weather calls Grandma as she and her granddaughter hurry to gather the ingredients around the farm A real Thunder Cake must reach the oven before the storm arrives But the list of ingredients is long and not easy to find and the storm is coming closer all the time Reaching once again into her rich childhood experience Patricia Polacco tells the memorable story of how her grandma her Babushka helped her overcome her fear of thunder when she was a little girl Ms Polacco's vivid memories of her grandmother's endearing answer to a child's fear accompanied by her bright folk art illustrations turn a frightening thunderstorm into an adventure and ultimately a celebration Whether the first clap of thunder finds you buried under the bedcovers or happily anticipating the coming storm Thunder Cake is a story that will bring new meaning and possibility to the excitement of a thunderstorm *Speaking, Reading, and Writing in Children With Language Learning Disabilities* Katharine G. Butler, Elaine R. Silliman, 2001-12-01 The ability to use language in more literate ways has always been a central outcome of education Today however being literate requires more than functional literacy the recognition of printed words as meaningful It requires the knowledge of how to use language as a tool for analyzing synthesizing and integrating what is heard or read in order to arrive at new interpretations Specialists in education cognitive psychology learning disabilities communication sciences and disorders and other fields have studied the language learning problems of school age children from their own perspectives All have tended to emphasize either the oral language component or phonemic awareness The major influence of phonemic awareness on learning to read and spell is well researched but it is not the only relevant focus for efforts in intervention and instruction An issue is that applications are usually the products of a single discipline or profession and few integrate an understanding of phonemic awareness with an understanding of the ways in which oral language comprehension and expression support reading writing and spelling Thus what we have learned about language remains disconnected from what we have learned about literacy interrelationships between language and literacy are not appreciated and educational services for students with language and learning disabilities are fragmented as a result This unique book a multidisciplinary collaboration bridges research practice and the development of new technologies It offers the first comprehensive and integrated overview of the multiple factors involved in language learning from late preschool through post high school that must be considered if problems are to be effectively addressed Practitioners researchers and students professionally concerned with these problems will find the book an invaluable resource *That's a Great Answer!*, [The Joy of Children's Literature](#) Denise Johnson, 2023-12-18 This book provides in depth coverage of children's literature with integrated reading methods in a concise accessible format Johnson emphasizes that reading writing discussing and finding pleasure in children's books are essential tools in being able to recognize and recommend literature and being able to share the joy of children's literature with children themselves This
