This Savage and Beautiful Night | Flashback: The Final Trilogy of Stories | Part One Wayne Kyle Spitzer, 2022-12-21 The final Flashback begins It s all led to this All the characters and situations of the Flashback Dinosaur Apocalypse come together in a final trilogy of tales that will close out and define the saga Join Ank and Williams the crew of Gargantua the kids from Thunder Road and so many others as they heed the call to adventure one last time and face the very architects of the Flashback Welcome to the world of the Flashback a world in which man s cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you re lucky and if you re not in the wrong place at the wrong time which is everywhere all the time But what you ll never do is remain the same for this is a world whose very purpose is to challenge you a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes From This Savage and Beautiful Night Francis said Bella Ray indicating the mic should be given to him Go Ah He took the cordless mic and placed it near his lips Test test Okay He cleared his throat This is in response to Sheila Because what you don t understand Miss is that that was no mere wind it was a conduit and in that conduit I could hear them He looked at the sky at the Flashback Borealis now diminished by the sun and the drifting lights which were of a color no one had ever seen Which I have heard before as you know He indicated the crowd As everyone knows Because the truth is I have been closer to their dark materials than anyone anyone here in Barley that s for sure And I am telling you there was something in their voices this time that wasn t there before something I think that they ve never experienced And that s fear At which the amphitheater fell ghostly silent at least for a moment Well fear of what exactly called a man with a stump for a hand his name was Roger at last They re sure as hell not afraid of us Francis just shook his head I don t know Fear of whatever s at the center of that labyrinth which is why they re gathering on it Maybe even the fear that it will somehow affect their precious Flashback Wait a minute wait a minute blurted someone some punk kid I believe his name was Lonny So you re saying there s two conflicting forces sort of like a football game one of which is responsible for the Flashback while the other is even now beckoning to us He laughed and slapped his hat against his hip Well hell man sign me up with the Beckoner Let s do this Laughter laughter and riotous applause which devolved into chaos as Bella Ray threw up her arms and someone tossed torn paper like confetti and something parted the crowd like a float like a tank Something that turned out to be an armored dinosaur an ankylosaurus with a man walking beside it a duo I knew to be the great Ank and Williams themselves veterans of the Dinosaur War and the

Bearers of the Hammer The Legends of the North That s just precisely what he s saying shouted Williams assuredly authoritatively And he s exactly right to do so because that s the situation He looked at Francis who brought him the cordless microphone And it s high time we accepted it and started drawing up our plans Because friends fellow survivors veterans of the Big One and all those who have come here because they heard Radio Free Montana it s all come down to this **The War-Torn Hills of Earth | Flashback: The Final Trilogy of Stories | Part Three** Wayne Kyle Spitzer,2023-02-11 The final Flashback begins It s all led to this All the characters and situations of the Flashback Dinosaur Apocalypse come together in a final trilogy of tales that will close out and define the saga Join Ank and Williams the crew of Gargantua the kids from Thunder Road and so many others as they heed the call to adventure one last time and face the very architects of the Flashback From The War torn Hills of Earth The gold fog rolled and so did the water foaming and frothing revealing first the photonics mast and communications antennas then The Sarpedon s black sea slicked sail and forward fins then its great dark parabolic bow which breached the surface at an angle like the plesiosaurs and ichthyosaurs and mosasaurs swimming alongside until still steaming forward the ship was fully surfaced and its aft fins visible at which three people two men and a small woman with a bob haircut appeared in the sail Jesus gasped Puckett the engineering chief as he looked at the beasts which filled the water for as far as the eye could see which nonetheless wasn t very far due to the fog If I hadn t seen it myself I wouldn t have believed it The sonar doesn t lie Captain O Neil was more circumspect But why goddammit That s what I want to know I ve certainly never seen them migrate en masse like this like Hammerhead sharks What s the reason Both of them had to shout over the crash and commotion of the waves Pang signed excitedly at them as the wind chopped her hair What s she saying Puckett who d been working with her paraphrased She s saying What if they were called too only in a different way He watched as she continued to sign Or considering the dream used sound and imagery instead of words the exact same way O Neil looked at the marine animals as they leapt and dove and swam powerfully alongside Aye but for a different reason he thought Ho cried Chief Puckett suddenly The Santa Monica Pier O Neil peered into the fog and saw the tiny silhouette of a Ferris wheel emerging from the gloom then unhooked his mic Half ahead revolutions 500 and mind the beasties He looked at Pang Yes I m going to send a team ashore And no you re not And that s when it happened that s when the pterodactyl flapped down like an oyster white threshing machine and snatched her up by the shoulders began rising That s when O Neil drew his sidearm even as Puckett grabbed her by the ankle but couldn t get a shot in through the pounding wings and Pang s own flailing until there was the briefest of openings and he did fire Until he got lucky and the bird fell and so did Pang still being gripped by her ankle so that she was flipped upside down and slammed against the sail which her head hit like a rock So that she was knocked unconscious even as Puckett and O Neil held tightly and ultimately dragged her back into the conning tower After which drearily for they were unable to wake her or get any sort of reaction at all there was nothing to do but take her to the infirmary and monitor her Nothing to do frankly but pray **Pop Culture in Europe**

The Science of Magic Trilogy Brian Neptune, 2014-05-30 This is a fast paced DND book About the mages of the world A mage is anyone who uses magic Wizards witches alchemist sorcerers and sorceress are all examples of a mage The science of magic is based on the philosophy that all technology and science is magic until it is understood Quantum physics is an attempt to understand a deeper magic Rubbing two sticks together to start a fire was magic in the beginning But to use magic you don't have to understand all the underlying physics You simply have to believe and know the process Someday maybe science will understand astral projection telepathy telekinesis and other mental magical feats If so it will probably be quantum physics that makes the breakthrough You don't have to look far in the modern world to see magic Look at your cell phone your computer your high definition television or even a simple light bulb All these things are in a sense the science of magic Where magic has become commonplace You see and use it everyday There was a time only wizards had such power available to them At times throughout history you would have been put to death for displaying such power For if government could not control the power they were threatened by the power Thus Mageville was created by society to isolate and control the uncontrollable magic Until a time when the government could harness the power for its use Thus through a joint effort by wizards and government we have harnessed lasers flight radio waves and all the other modern conveniences we take for granted But most of the governments of the world have a city like Mageville And the war of magic and technology rages on world wide The common mortal mankind oblivious to the war But a great cycle of civilization is underway Unstoppable in its momentum The world will learn the price of magic The world is about to have a DND experience
