Learn the basics of the publishing industry *In the Best Interest of Students* Kelly Gallagher, 2023-10-10

In his new book *In the Best Interest of Students* Staying True to What Works in the ELA Classroom teacher and author Kelly Gallagher notes that there are real strengths in the Common Core standards and there are

significant weaknesses as well. He takes the long view reminding us that standards come and go but good teaching remains grounded in proven practices that sharpen students' literacy skills. Instead of blindly adhering to the latest standards movement, Gallagher suggests increasing the amount of reading and writing students are doing while giving students more choice around those activities. Balancing rigorous high quality literature and non-fiction works with student-selected titles. Encouraging readers to deepen their comprehension by moving beyond the four corners of the text. Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres. Using modeling to enrich students' writing skills in the prewriting, drafting, and revision stages. Resisting the de-emphasis of narrative and imaginative reading and writing. Amid the frenzy of trying to teach to a new set of standards, Kelly Gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question: What is in the best interest of our students?

Qualitative Inquiry for Social Justice Tim Huffman, 2023-11-10. This textbook introduces students, researchers, and activists to the practice of qualitative inquiry that contributes to fairness, freedom, and flourishing in community life. Specific skills include planning, fieldwork, interviewing, thematic analysis, modeling, writing, and presenting. This innovative book provides tools for readers to conduct qualitative research that generates knowledge that can aid policy change, political mobilization, social movements, and organizing to meet universal human needs and rights. The second part covers practical guidance from writing proposals to data collection and includes a chapter dedicated to creating a culturally responsive relationship with research participants.
