Writing Rome Writing Rome:

Writing Rome Catharine Edwards, 1996-10-10 The city of Rome is built not only of bricks and marble but also of the words of its writers For the ancient inhabitant or visitor the buildings of Rome the public spaces of the city were crowded with meanings and associations These meanings were generated partly through activities associated with particular places but Rome also took on meanings from literature written about the city stories of its foundation praise of its splendid buildings laments composed by those obliged to leave it Ancient writers made use of the city to explore the complexities of Roman history power and identity This book aims to chart selected aspects of Rome's resonance in literature and the literary resonance of Rome A wide range of texts are explored from later periods as well as from antiquity since as the author hopes to show Gibbon Goethe and others can be revealing guides to the literary topography of ancient Rome *Writing Rome* Catharine Edwards, 1996 *Letter Writing in Greco-Roman Antiquity* Stanley K. Stowers, 1986-01-01 Making use of letters both formal and personal that have been preserved through the ages Stanley Stowers analyzes the cultural setting within which Christianity arose The Library of Early Christianity is a series of eight outstanding books exploring the Jewish and Greco Roman contexts in which the New Testament developed ***Writing Politics in Imperial Rome*** W.J. Dominik, J. Garthwaite, P.A. Roche, 2009-05-15 Roman literature is inherently political in the varied contexts of its production and the abiding concerns of its subject matter This collection examines the strategies and techniques of political writing at Rome in a broad range of literature spanning almost two centuries differing political systems climates and contexts It applies a definition of politics that is more in keeping with modern critical approaches than has often been the case in studies of the political literature of classical antiquity By applying a wide variety of critically informed viewpoints this volume offers the reader not only a long view of the abiding techniques strategies and concerns of political expression at Rome but also many new perspectives on individual authors of the early empire and their republican precursors ***Writing Literary History in the Greek and Roman World*** Giacomo Fedeli, Henry Spelman, 2024-06-27 The first study of ancient Greek and Roman literary history as a phenomenon on its own terms ***Writing, Enslavement, and Power in the Roman Mediterranean, 100 BCE-300 CE*** Assistant Professor of New Testament Jesuit School of Theology Jeremiah Coogan, Jeremiah Coogan, Candida R. Moss, Edward Cadbury Professor of Theology Candida R Moss, Joseph A. Howley, 2025-10 This volume assembles twenty two scholars from the fields of classics and early Christian studies to interrogate the intersections between writing and enslavement around the Roman Mediterranean Drawing upon methods developed in scholarship on book history and Atlantic slavery the authors demonstrate the myriad ways in which the material and intellectual contributions of enslaved literary workers were vital to the composition editing copying circulation reading and preservation of Roman texts This thematically organized volume exposes the ways that power dynamics denigrate and erase enslaved contributors as well as how language barriers gender difference and disability created dependence on enslaved workers The central role of

enslaved workers in practical work like bookkeeping education and divination is explored in addition to the unseen labor of enslaved collators note keepers editors and curators Enslaved workers were a constitutive part of the Roman knowledge economy their roles in allowing others to read and write in producing ancient literature and in staffing the bureaucratic structures of the Roman empire were profound Roman literature technology and knowledge depended on the labor and expertise of enslaved literate workers and these chapters argue that they influenced just about every aspect of Roman life

Representations of Writing Materials on Roman Funerary Monuments Tibor Grüll,2023-10-27 Ancient funerary reliefs are full of representations of writing materials and instruments the interpretation of which can help us better understand the phenomenon of ancient literacy The eight studies in this volume enrich our knowledge of Roman writing with many new aspects and detailed observations

Writing, Performance, and Authority in Augustan Rome Michele Lowrie,2009-10-15 An exploration of the relationship between poetry song and authority in Augustan Rome Michele Lowrie argues that the medium of writing as opposed to song could offer an escape from current social and political demands by shifting the focus toward the readership of posterity

Handbook to Life in Ancient Rome Lesley Adkins,Roy A. Adkins,1998 This handy reference provides full access to the 1 200 years of Roman rule from the 8th century B C to the 5th century A D including information on art literature law and engineering 150 illustrations

Science Writing in Greco-Roman Antiquity Liba Taub,2017-04-13 This book explores how science and mathematics were communicated in antiquity in a wide variety of texts including poetry letters and biographies

Omnium Annalium Monumenta: Historical Writing and Historical Evidence in Republican Rome Kaj Sandberg,Christopher Smith,2017-12-05 This edited volume brings a variety of approaches to the problem of how the Romans conceived of their history what were the mechanisms for their preservation of the past and how did the Romans come to write about their past Building on important recent work in historiography and the recent memory turn the authors consider the practicalities of transmission literary and generic influences and the role of the city of Rome in preserving and transmitting memories of the past The result is a major contribution to our understanding of the role history played in Roman life and the kinds of evidence which could be deployed in constructing Roman history

Empire of Letters Stephanie Ann Frampton,2019-01-03 Shedding new light on the history of the book in antiquity *Empire of Letters* tells the story of writing at Rome at the pivotal moment of transition from Republic to Empire c 55 BCE 15 CE By uniting close readings of the period s major authors with detailed analysis of material texts it argues that the physical embodiments of writing were essential to the worldviews and self fashioning of authors whose works took shape in them Whether in wooden tablets papyrus bookrolls monumental writing in stone and bronze or through the alphabet itself Roman authors both idealized and competed with writing s textual forms The academic study of the history of the book has arisen largely out of the textual abundance of the age of print focusing on the Renaissance and after But fewer than fifty fragments of classical Roman bookrolls survive and even fewer lines of poetry Understanding the history of the ancient Roman book requires us to

think differently about this evidence placing it into the context of other kinds of textual forms that survive in greater numbers from the fragments of Greek papyri preserved in the garbage heaps of Egypt to the Latin graffiti still visible on the walls of the cities destroyed by Vesuvius By attending carefully to this kind of material in conjunction with the rich literary testimony of the period Empire of Letters exposes the importance of textuality itself to Roman authors and puts the written word back at the center of Roman literature

Material Aspects of Letter Writing in the Graeco-Roman World Antonia

Sarri,2017-11-20 Letter writing was widespread in the Graeco Roman world as indicated by the large number of surviving letters and their extensive coverage of all social categories Despite a large amount of work that has been done on the topic of ancient epistolography material and formatting conventions have remained underexplored mainly due to the difficulty of accessing images of letters in the past Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions we are now in a position to study such aspects This book examines the development of letter writing conventions from the archaic to Roman times and is based on a wide corpus of letters that survive on their original material substrates The bulk of the material is from Egypt but the study takes account of comparative evidence from other regions of the Graeco Roman world Through analysis of developments in the use of letters variations in formatting conventions layout and authentication patterns according to the sociocultural background and communicational needs of writers this book sheds light on changing trends in epistolary practice in Graeco Roman society over a period of roughly eight hundred years This book will appeal to scholars of Epistolography Papyrology Palaeography Classics Cultural History of the Graeco Roman World

Ancient Literacies William A Johnson,Holt N Parker,2009-02-05

Classicists have been slow to take advantage of the important advances in the way that literacy is viewed in other disciplines including in particular cognitive psychology socio linguistics and socio anthropology On the other hand historians of literacy continue to rely on outdated work by classicists mostly from the 1960 s and 1970 s and have little access to the current reexamination of the ancient evidence This timely volume attempts to formulate new interesting ways of talking about the entire concept of literacy in the ancient world literacy not in the sense of whether 10% or 30% of people in the ancient world could read or write but in the sense of text oriented events embedded in a particular socio cultural context The volume is intended as a forum in which selected leading scholars rethink from the ground up how students of classical antiquity might best approach the question of literacy in the past and how that investigation might materially intersect with changes in the way that literacy is now viewed in other disciplines The result will give readers new ways of thinking about specific elements of literacy in antiquity such as the nature of personal libraries or what it means to be a bookseller in antiquity new constructionist questions such as what constitutes reading communities and how they fashion themselves new takes on the public sphere such as how literacy intersects with commercialism or with the use of public spaces or with the construction of civic identity new essentialist questions such as what book and reading signify in antiquity why literate cultures develop or why literate cultures matter

The book derives from a conference a Semple Symposium held in Cincinnati in April 2006 and includes new work from the most outstanding scholars of literacy in antiquity e.g. Simon Goldhill, Joseph Farrell, Peter White and Rosalind Thomas. **The Oxford Handbook of Roman Epigraphy** Christen Bruun, J. C. Edmondson, 2015. The study of inscriptions is critical for anyone seeking to understand the Roman world whether they regard themselves as literary scholars, historians, archaeologists, anthropologists or religious scholars. The Oxford Handbook of Roman Epigraphy is the fullest collection of scholarship on the study and history of Latin epigraphy produced to date. *A Companion to Roman Italy* Alison E. Cooley, 2016-01-05. *A Companion to Roman Italy* investigates the impact of Rome in all its forms: political, cultural, social and economic upon Italy's various regions as well as the extent to which unification occurred as Rome became the capital of Italy. The collection presents new archaeological data relating to the sites of Roman Italy. Contributions discuss new theories of how to understand cultural change in the Italian peninsula. Combines detailed case studies of particular sites with wider ranging thematic chapters. Leading contributors not only make accessible the most recent work on Roman Italy but also offer fresh insight on long standing debates. *Ruling Roman Britain* David Braund, 2013-04-15. In this book David Braund offers a significantly different perspective upon the history of Roman Britain. He concentrates upon the literary evidence which has been studied to a lesser extent than archaeology in recent years. Close attention to the Greek and Roman sources enables the construction of a new approach to Roman Britain: its history and its archaeology. For the first time monarchy is identified as a key issue in the history of Roman Britain. ***Rome the Cosmopolis*** Catharine Edwards, Greg Woolf, 2006-11-02. Rome stands today for an empire and for a city. The essays gathered in this volume explore some of the many ways in which the two were interwoven. Rome was fed, beautified and enriched by empire just as it was swollen, polluted, infected and occupied by it. Empire was paraded in the streets of Rome and exhibited in the city's buildings. Empire also made the city ineradicably foreign, polyglot, an alien capital and a focus for un-Roman activities. The city was where the Roman cosmos was most concentrated and so was most contested. Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains via Christian art and Latin poetry, the contributors to this volume weave a series of pathways through the world city exploring the different kinds of centrality Rome had in the empire. The result is a startlingly original picture of both empire and city. *Experiencing Rome* Janet Huskinson, 2013-10-28. Unique in their broad based coverage, the twelve essays in this book provide a fresh look at some central aspects of Roman culture and society. **Introducing Romans** Richard N. Longenecker, 2011-03-25. Paul's Letter to the Romans has proven to be a particular challenge for commentators with its many highly significant interpretive issues often leading to tortuous convolutions and even dead ends in their understanding of the letter. Here Richard N. Longenecker takes a comprehensive look at the complex backdrop of Paul's letter and carefully unpacks a number of critical issues including authorship, integrity, occasion, date, addressees and purpose. Important recent interpretive approaches: Greco-Roman oral rhetorical and epistolary conventions, Jewish and Jewish

Christian thematic and rhetorical features The establishing of the letter s Greek text The letter s main focus structure and argument
