The Science of Writing C. Michael Levy, Sarah Ransdell, 2013-11-05 Conceived as the successor to Gregg and Steinberg's Cognitive Processes in Writing this book takes a multidisciplinary approach to writing research The authors describe their current thinking and data in such a way that readers in psychology English education and linguistics will find it readable and stimulating It should serve as a resource book of theory tools and techniques and applications that should stimulate and guide the field for the next decade The chapters showcase approaches taken by active researchers in eight countries Some of these researchers have published widely in their native language but little of their work has appeared in English language publications

The Testing Trap George Hillocks, 2002-04-12 Do statewide assessments really do what they are supposed to do Through interviews with over three hundred teachers and administrators Hillocks examines whether state writing tests in Illinois Kentucky Oregon New York and Texas actually improve students ability to express their thinking in writing Ultimately Hillocks argues that the majority of existing tests actually have a harmful effect on the way students are taught to write In addition to providing analyses of assessments that do not encourage good writing The Testing Trap contrasts them to those that do Concluding with practical procedures for examining and evaluating writing assessments this book is a provocative and essential read for administrators teachers policymakers parents and all who care about the education of our children
