Transactional Intellectual Property From Startups To Public Companies:

Transactional Intellectual Property Richard S. Gruner, Shubha Ghosh, Jay P. Kesan, 2012 A successor to Intellectual property in business organizations cases and materials *Transactional Intellectual Property* Richard S. Gruner, Shubha Ghosh, Jay P. Kesan, 2015-07

Exhausting Intellectual Property Rights Shubha Ghosh, Irene Calboli, 2018-11-08 Even as globalization seems to be in retreat in political circles the march of commercialization and markets continues Government policies whether tariffs exits or walls cannot impede the competitive drive to meet consumer demand for products and services whether within national boundaries or across them In the sphere of intellectual property rights the doctrine of exhaustion serves to limit the rights of intellectual property owners after a specific exercise of some or all of the rights This volume provides an assessment of the successes and failures of the exhaustion doctrine as it has been applied through recent judicial decisions in the United States and the European Union Irene Calboli and Shubha Ghosh explore how evolving interpretations of the exhaustion doctrine affects the large trade in gray market products and other international trade issues A comparative approach to exhaustion Exhausting Intellectual Property Rights offers a unique discussion of the often overlooked issue of overlapping rights

We sincerely invite you to participate in MIED 2025 FTBM 2025 and look forward to seeing you in Chongqing. **Knowledge Transformation and Innovation in Global Society** Hoa Van Thi Tran, Hiromi Shioji, Huong Lan Thi Le, Takabumi Hayashi, 2024-02-27. This is the first book to fully explain the changing management and business models in the current era of important new developments in knowledge and information occurring all over the world. The research and its outcomes presented here focus especially on diverse cases from emerging countries in East Asia where local companies face similar technological change. The pandemic has seriously changed people's lives and affected the development of society as a whole while digital technologies have become even more greatly in demand. Those are very difficult to fit into traditional management models created decades ago; however, for the successful implementation of such a transition, new paradigms, models, and technologies for the transformation of control systems are needed. To meet that need, a new paradigm to bring about innovation under the new knowledge transformation system is required. This book presents the experiences of beginning such a knowledge transformation in East Asian countries. Despite the fact that the countries are in the same geographical region, their experiences are quite diverse, determined by cultural, historical, religious, and psychological factors. These differences appear not only in such important areas as R & D processes but also in production, finance, HR management, and marketing. Readers will find innovative solutions for the transformation of management in the new knowledge transformation system that is the focus of this book.
