Leadership Practices Dr. Widza Bryant, Cedric Bryant, 2023-02-09 Leadership the ability to bring people together to accomplish shared goals be it in an organization or a church was instituted by God from the beginning In the context of the church God commissioned church leadership to go and make disciples of all nations to win souls for His kingdom throughout the world instead of standing behind a pulpit in a conventional four walls edifice that we come to know as church or donning themselves with ostentatious titles like bishop apostles prophet or prophetess to cite a few The derailment of God s perspective for church leadership has left billions of people worldwide unreached and disenfranchised from God s words thereby invoking rampant suffering not only from the ravages of wars hunger abject poverty or disease but also the transforming power of the Gospel In the Leadership Practices A Global and Biblical Perspective Drs Cedric and Widza Bryant underscore GodaEUR tm s directives His original intent of authentic biblical leadership designed to reach all people throughout the worldaEURall of which are encapsulated in Genesis 1 26 to Adam and Eve to Noah in Genesis 9 1 and in Mathew 28 19aEUR20 Jesus s mandates to the twelve disciples Go and make disciples of all nations Leadership Practices A Global and Biblical Perspective illuminates our understanding of the biblical inerrancy of leadership by probing on scholars relentless pursuit to further their knowledge of leadership definition and to expose different interpretations that provide a clear picture of what leadership is and how to apply it to reach excellence Could the inexorable pursuits to define leadership and align its practices be the cause of manaEUR tm s biased predispositions from GodaEUR tm s intended purpose A trend that commenced before humanity even existedaEUR The book accentuates the notion that leadership practices according to God s design was to be global and accessibleaEURa Christ centered mandate with tangible and pervasive biblical root that compels leaders to be open to change and to submit to GodaEUR tm s original practices The manuscript provides the reader with a biblically based model of leadership using numerous scriptural case studies that illustrate the differences between

what it means to operate as a leader of this world and what it means to be a Christian leader in this world By following a Christ centered model leaders learn how success begins with change and she emphasizes how leaders must first be willing to submit to change themselves before they can guide the process in others The manuscript is filled with extensive research blending scholarly works with scriptural illustrations which collectively produce an insightful repository for leaders to draw upon as they aspire to become a global Christian leader The book has wide applications for church leaders at the local national and global levels aEURDr Richardson Regent University

Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in

spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner

Crossroads Robert J. A. Doornenbal, 2012 *Shepherds of the Steppes* Mark D. Wood, 2023-06-01

The evangelical Mongolian church has experienced significant growth since the country opened to the world in 1990. Despite the growth and emergence of the evangelical church in Mongolia, relatively little has been written on the church from the perspective of the leaders themselves. This ethnographic study seeks to express the experience of male evangelical Mongolian church leaders in their own words. The book focuses specifically on the leaders' experiences of conversion, discipleship, navigation of Mongolian culture and traditions, and theological education. Readers will hear from evangelical church leaders why they became Christians and what their experience with discipleship was like for them. The issue of contextualization for evangelical Christians is also a central focus. In particular, the translation of the term for God in Mongolian and the perspective of the church leaders are explored. This book will be of interest to those exploring Christianity in Asia and post-socialist contexts, as well as seeking to better understand contemporary Mongolian culture.

Case Studies in Spiritual Coaching DeeAnna Merz Nagel, Madison Leigh Akridge, 2023-11-06. The proposed text addresses a major problem in teaching and informing practitioners and trainees about the application of spirituality within the field of coaching. Its purpose is to inform the coaching profession about how spirituality is being utilized by various coaches across the life, wellness, and executive coach domains. The goals are to provide definitions, applications, ethical considerations, and speculation on the future of the profession on a wide range of applications. The content of the book will be a succinct series of case studies while providing cutting-edge tools and interventions for the coaching profession. Both editors are certified coaches as well as licensed mental health practitioners in the counseling and social work fields. The goal of this book is to offer guidance for the coach whose client brings direct or indirect spiritual content into the coaching session. Each chapter highlights established coach skills such as active listening, powerful questioning, and goal setting. The text brings together both seasoned spiritual coaches who have influenced this new and growing area, coaching profession, and new spiritual coaches who bring their own diverse knowledge. The contributors describe their work in a diverse array of case studies with their wide range of backgrounds and approaches so that others can learn. *Case Studies in Spiritual Coaching* can be used as a primary text for courses that teach spiritual or intuitive coaching and/or courses that teach any coaching domain such as life coaching, wellness coaching, or executive coaching. This book may also be used as an adjunct text for courses that include an introduction to spirituality within the coaching profession.
