Translated Christianities Nahuatl And Maya Religious Texts Latin American Originals:

Translated Christianities Mark Z. Christensen, 2014-05-15 Beginning in the sixteenth century ecclesiastics and others created religious texts written in the native languages of the Nahuatl and Yucatec Maya. These texts played an important role in the evangelization of central Mexico and Yucatan. *Translated Christianities* is the first book to provide readers with English translations of a variety of Nahuatl and Maya religious texts. It pulls Nahuatl and Maya sermons, catechisms, and confessional manuals out of relative obscurity and presents them to the reader in a way that illustrates similarities, differences, and trends in religious text production throughout the colonial period. The texts included in this work are diverse. Their authors range from Spanish ecclesiastics to native assistants, from Catholics to Methodists, and from sixteenth-century Nahuas to nineteenth-century Maya. Although translated from its native language into English, each text illustrates the impact of European and native cultures on its content. Medieval tales popular in Europe are transformed to accommodate a New World native audience; biblical figures assume native identities; and texts admonishing Christian behavior are tailored to meet the demands of a colonial native population. Moreover, the book provides the first translation and analysis of a Methodist catechism written in Yucatec Maya to convert the Maya of Belize and Yucatan. Ultimately, readers are offered an uncommon opportunity to read for themselves the translated Christianities that Nahuatl and Maya texts contained.

Decolonial Christianities Raimundo Barreto, Roberto Sirvent, 2019-11-11 What does it mean to theorize Christianity in light of the decolonial turn? This volume invites distinguished Latinx and Latin American scholars to a conversation that engages the rich theoretical contributions of the decolonial turn while relocating Indigenous Afro-Latin American Latinx and other often marginalized practices and hermeneutical perspectives to the center stage of religious discourse in the Americas. Keeping in mind that all religions Christianity included are cultured and avoiding the abstract references to Christianity common to the modern Eurocentric hegemonic project, the contributors favor embodied religious practices that emerge in concrete contexts and communities. Featuring essays from scholars such as Sylvia Marcos, Enrique Dussel, and Luis Rivera Pagán, this volume represents a major step to bring Christian theology into the conversation with decolonial theory.

Healing Like Our Ancestors Edward Anthony Polanco, 2024 This book explores how sixteenth and seventeenth-century Spanish settlers attempted to uproot Indigenous Nahuatl healing practices in the process of creating and protecting the settler colony of New Spain. By using primary sources written in Spanish and Nahuatl, this book shows how Nahuatl people understood their healers and the ways in which they survived but were altered by Spanish attacks.

[To the Shores of Chile](#) Mark Meuwese, 2019-07-15 *To the Shores of Chile* presents the remarkable story of an expedition that took place in Latin America during the height of the Dutch Empire. Skillfully translated by Mark Meuwese, this captivating work sheds light on Dutch imperialism and the complicated relationships between Native peoples and European colonizers. In 1643, the Dutch West India Company launched an expedition to the coast of southern Chile. With plans to set up a permanent outpost that they hoped would generate

enormous revenues in gold and weaken the position of their Spanish rivals a naval squadron of five vessels and six hundred and fifty soldiers sailors and craftsmen set sail under the direction of Hendrick Brouwer In the end lack of cooperation from the native Mapuche stymied the expedition However an account of the enterprise based on the journals and logbooks was published in Amsterdam in 1646 to capitalize on the public fascination with dangerous adventures of Europeans in exotic places and to serve as a political pamphlet in support of the renewal of the West India Company's charter To the Shores of Chile makes this account available for the first time in English and sheds light on both Dutch expansionism and the military and diplomatic power of indigenous people in South America It will be particularly valuable to ethnohistorians scholars of failed colonies and those interested in maritime and Dutch colonial history The Native Conquistador Amber Brian, Bradley Benton, Pablo García Loaeza, 2015-06-18 For many years scholars of the conquest worked to shift focus away from the Spanish perspective and bring attention to the often ignored voices and viewpoints of the Indians But recent work that highlights the Indian conquistadors has forced scholars to reexamine the simple categories of conqueror and subject and to acknowledge the seemingly contradictory roles assumed by native peoples who chose to fight alongside the Spaniards against other native groups The Native Conquistador a translation of the Thirteenth Relation written by don Fernando de Alva Ixtlilxochitl in the early seventeenth century narrates the conquest of Mexico from Hernando Cortés's arrival in 1519 through his expedition into Central America in 1524 The protagonist of the story however is not the Spanish conquistador but Alva Ixtlilxochitl's great great grandfather the native prince Ixtlilxochitl of Tetzcoco This account reveals the complex political dynamics that motivated Ixtlilxochitl's decisive alliance with Cortés Moreover the dynamic plotline propelled by the feats of Prince Ixtlilxochitl has made this a compelling story for centuries and one that will captivate students and scholars today **To Heaven or to Hell** David Thomas Orique, O.P., 2018-03-22 This volume is the first complete English translation and annotated study of Bartolomé de Las Casas's important and provocative 1552 treatise commonly known as the Confesionario or Avisos y reglas A text that generated controversy like Las Casas's more famous Brevísima relación the Confesionario outlined a strikingly novel and arguably harsh use of confession for those administering the sacrament to conquistadores encomenderos slaveholders settlers and others who had harmed the indigenous people thus using magisterial authority and jurisdictional power to promote restitution David Orique addresses how from 1516 to 1547 Las Casas subscribed to and wrote about the theory and practice of the doctrine of restitution He then presents the specific historical context of the development of the initial manuscript of the Confesionario in 1547 as Doce reglas Twelve Rules which later became the augmented Confesionario manuscript Orique's commentary on the 1552 Confesionario treatise highlights how Las Casas's Argumento and its approval by theologians legitimates his work Orique outlines the various guidelines proposed to confessors to identify investigate and seek restitution from offending Spaniards based on their possessions and circumstances He also explores Las Casas's use of the Thomistic tripartite scheme of divine natural and human law With

insightful analysis and commentary accompanied by an eminently readable translation To Heaven or to Hell will be especially useful to students and scholars of Latin American colonial history early modern religion and Catholic studies **Violent**

The History of the New World is an abridged unique English translation of sixteenth century Italian merchant Girolamo Benzoni's popular account of his adventures in the Americas and the Spanish colonies First published in Venice in 1565 Benzoni's book was an immediate best seller and available in at least five languages before the end of the century It spanned the years 1541-56 providing detailed descriptions of native flora and fauna exciting narration of harrowing exploits and a surprisingly critical perspective on the expanding Spanish Empire's methods of conquest and governance in which Benzoni highlighted the struggles of indigenous peoples This edition follows the three book structure of the original account but focuses on Benzoni's own experiences omitting episodes to which he was not a witness and excising repetition and hyperbolic hearsay The first English language version published since 1847 this volume includes an informative introduction and annotations that situate Benzoni and his fascinating writings in the larger context of Spanish colonial conquest Perfect for classroom use this is a lively vivid firsthand account of the adventure and wonder of the New World The Improbable Conquest Pablo García Loaeza, Victoria L. Garrett, 2015-01-14 The Improbable Conquest offers translations of a series of little known letters from the chaotic Spanish conquest of the Río de la Plata region uncovering a rich and understudied historical resource These letters were written by a wide variety of individuals including clergy military officers and the region's first governor Pedro de Mendoza There is also an exceptional contribution from Isabel de Guevara one of the few women involved

in the conquest to have recorded her experiences Writing about the conditions of settlements and expeditions these individuals vividly expose the less glamorous side of the conquest narrating in detail various misfortunes infighting corruption and complaints Their letters further reveal the colony's fraught relationship with the native peoples it sought to colonize giving insight into the complexities of the conquest and the colonization process Pablo Garc a Loaeza and Victoria Garrett provide an introduction to the history of the region and the conquest's key players as well as a timeline and a glossary explaining difficult and archaic Spanish terms

Theaters of Conversion Samuel Y. Edgerton,2001 Mexico s churches and conventos display a unique blend of European and native styles Missionary Mendicant friars arrived in New Spain shortly after Cortes s conquest of the Aztec empire in 1521 and immediately related their own European architectural and visual arts styles to the tastes and expectations of native Indians Right from the beginning the friars conceived of conventos as a special architectural theater in which to carry out their proselytizing Over four hundred conventos were established in Mexico between 1526 and 1600 and more still in New Mexico in the century following all built and decorated by native Indian artisans who became masters of European techniques and styles even as they added their own influence The author argues that these magnificent sixteenth and seventeenth century structures are as much part of the artistic patrimony of American Indians as their pre Conquest temples pyramids and kivas Mexican Indians in fact adapted European motifs to their own pictorial traditions and thus made a unique contribution to the worldwide spread of the Italian Renaissance The author brings a wealth of knowledge of medieval and Renaissance European history philosophy theology art and architecture to bear on colonial Mexico at the same time as he focuses on indigenous contributions to the colonial enterprise This ground breaking study enriches our understanding of the colonial process and the reciprocal relationship between European friars and native artisans **The Florentine Codex**
