contains both those questions and his answers Century of Insight Derry Macdiarmid, 2018-03-08 Century of Insight is the story of the discovery of the unconscious mind based on the author's teaching of psychotherapy throughout his career. Beginning with the ideas of Freud and Jung it is a journey that describes through case histories, explanation and humour how successive ideas have created a body of knowledge that the author calls the Psychodynamic Enlightenment of the 20th century. Whilst essentially it is a story of the 20th century it includes a backdrop from tribal societies and also ideas from 19th century Europe including existentialism. In Part I the ideas of Freud, Jung and Adler are explained, their points of difference and then how they disagreed so violently that they had to break with each other. Their individual theories and their personal conflict are understood from the story of their personalities and background.
