Architecture, Travellers and Writers Anne Hultzsch, 2017-07-05 Does the way in which buildings are looked at and made sense of change over the course of time How can we find out about this By looking at a selection of travel writings spanning four centuries Anne Hultzsch suggests that it is language the description of architecture which offers answers to such questions The words authors use to transcribe what they see for the reader to re imagine offer glimpses at modes of perception specific to one moment place and person Hultzsch constructs an intriguing patchwork of local and often fragmentary narratives discussing texts as diverse as the 17th century diary of John Evelyn Daniel Defoe's Robinson Crusoe 1719 and an 1855 art guide by Swiss art historian Jacob Burckhardt Further authors considered include 17th century collector John Bargrave 18th century novelist Tobias Smollett poet Johann Wolfgang von Goethe critic John Ruskin as well as the 20th century architectural historian Nikolaus Pevsner Anne Hultzsch teaches at the Bartlett School of Architecture University College London

Healey,2003-01-01 The Modernist Traveler considers figures whose writing about travel rebelled against a literary tradition of exoticism adventure stories and novelistic travelogues Instead these writers initiated a modernist strain in travel writing and a shift in the literary establishment and the culture at large Kimberley J Healey focuses on those French writers and thinkers who traveled in order to experience a displacement of both the inner self and the physical body while writing against the prevalent tradition of travel literature The modern self modern time colonial spaces and the physical body are Healey s concerns as she reads works by Victor Segalen Paul Morand Blaise Cendrars Henri Michaux Saint John Perse Guillaume Apollinaire Paul Nizan Albert Londres Andre Malraux Val ry Larbaud and Isabelle Eberhardt This book shows how in the field of French literature these texts about travel best capture the modernist experience of being alone in a world of new technologies cultural diversity and anxiety about the self **Objects of Liberty** Pamela Buck,2024-03-15 Objects of Liberty explores the prevalence of souvenirs in British women s writing during the French Revolution and Napoleonic era It argues that women writers employed the material and memorial object of the souvenir to circulate revolutionary ideas and engage in the masculine realm of political debate While souvenir collecting was a standard practice of privileged men on the eighteenth century Grand Tour women began to partake in this endeavor as political events in France heightened interest in travel to the Continent Looking at travel accounts by Helen Maria Williams Mary Wollstonecraft Catherine and Martha Wilmot Charlotte Eaton and Mary Shelley this study reveals how they used souvenirs to affect political thought in Britain and contribute to conversations about individual and national identity At a time when gendered beliefs precluded women from full citizenship they used souvenirs to redefine themselves as legitimate political actors Objects of Liberty is a story about the ways that women established political power and agency through material culture *British Women Travellers in the Long Nineteenth Century* Marilyn D. Button,Jessica A. Sheetz-Nguyen,2025-03-05 During the long nineteenth century British women reframed the masculine paradigm of the Grand Tour They created a feminist travel gaze intentionally or unintentionally that differed from that of male peers Unlike their brothers who went for personal edification women with means left their English homes for the great Italian cities of Florence Naples and Rome to escape personal disappointments and the social limitations imposed by parents spouses and society The anonymity of travel to a distant land and new freedoms fostered political and creative achievements including entrepreneurial journalism literary masterpieces and social advocacy

for their gender which redefined the contours of the Anglo Italian cultural landscape The historical evidence presented here testifies to the life changing capacity of travel and firmly demonstrates how British women s history and literature enriches and broadens narratives about Britain and the World

Ordering Customs Kathryn Taylor,2023-05-12 Ordering Customs explores how Renaissance Venetians sought to make sense of human difference in a period characterized by increasing global contact and a rapid acceleration of the circulation of information Venice was at the center of both these developments The book traces the emergence of a distinctive tradition of ethnographic writing that served as the basis for defining religious and cultural difference in new ways Taylor draws on a trove of unpublished sources diplomatic correspondence court records diaries and inventories to show that the study of customs rituals and ways of life not only became central in how Venetians sought to apprehend other peoples but also had a very real impact at the level of policy shaping how the Venetian state governed minority populations in the city and its empire In contrast with the familiar image of ethnography as the product of overseas imperial and missionary encounters the book points to a more complicated set of origins
