Botke, Henk Th. van Veen, 2021-12-15 The history of the Florentine patriciate did not end with the establishment of the Medici Duchy and Grand Duchy of Tuscany Proud and self confident these patricians were not subservient courtiers on the contrary they continued to exert a considerable influence on Florentine culture and politics for centuries The patrician class in sixteenth century Florence were the descendants of wealthy sophisticated and politically savvy families who while acquiring noble titles estates and villas retained their long standing urban identity The mark they left on the city s cultural and artistic life was embraced by the Medici who used their political and diplomatic knowhow elaborate artistic commissions and European networks to enhance their power and prestige A Cultural Symbiosis highlights

the contributions to Florentine art and culture of eight patricians focusing on the Valori Pucci Ridolfi Vecchietti del Nero Salviati Guicciardini and Niccolini families **Curiosity and Wonder from the Renaissance to the Enlightenment**

R.J.W. Evans, 2017-03-02 Curiosity and wonder are topics of increasing interest and importance to Renaissance and Enlightenment historians Conspicuous in a host of disciplines from history of science and technology to history of art literature and society both have assumed a prominent place in studies of the Early Modern period This volume brings together an international group of scholars to investigate the various manifestations of and relationships between curiosity and wonder from the 16th to the 18th centuries Focused case studies on texts objects and individuals explore the multifaceted natures of these themes highlighting the intense fascination and continuing scrutiny to which each has been subjected over three centuries From instances of curiosity in New World exploration to the natural wonders of 18th century Italy Curiosity and Wonder from the Renaissance to the Enlightenment locates its subjects in a broad geographical and disciplinary terrain Taken together the essays presented here construct a detailed picture of two complex themes demonstrating the extent to which both have been transformed and reconstituted often with dramatic results **Florence**

Christopher Hibbert, 2004-03-25 This book is as captivating as the city itself Hibbert's gift is weaving political social and art history into an elegantly readable and marvellously lively whole The author's book on Florence will also be at once a history and a guide book and will be enhanced by splendid photographs and illustrations and line drawings which will describe all the buildings and treasures of the city **Pearls for the Crown** Mónica Domínguez Torres, 2024-04-23 In the age of

European expansion pearls became potent symbols of imperial supremacy Pearls for the Crown demonstrates how European art legitimated racialized hierarchies and inequitable notions about humanity and nature that still hold sway today When Christopher Columbus encountered pristine pearl beds in southern Caribbean waters in 1498 he procured the first source of New World wealth for the Spanish Crown but he also established an alternative path to an industry that had remained outside European control for centuries Centering her study on a selection of key artworks tied to the pearl industry Mónica Domínguez Torres examines the interplay of materiality labor race and power that drove artistic production in the early modern period Spanish colonizers exploited the expertise and forced labor of Native American and African workers to establish pearling centers along the coasts of South and Central America disrupting the environmental and demographic dynamics of their overseas territories Drawing from postcolonial theory material culture studies and ecocriticism Domínguez Torres demonstrates how through use of the pearl European courtly art articulated ideas about imperial expansion European superiority and control over nature all of which played key roles in the political circles surrounding the Spanish Crown This highly anticipated interdisciplinary study will be welcomed by scholars of art history the history of colonial Latin America and ecocriticism in the context of the Spanish colonies Written in Water Rochelle Gurstein, 2024-05-28 A deeply personal yet

broadly relevant exploration of the ephemeral life of the classic in art from the eighteenth century to our own day Is there

such a thing as a timeless classic More than a decade ago Rochelle Gurstein set out to explore and establish a solid foundation for the classic in the history of taste To her surprise that history instead revealed repeated episodes of soaring and falling reputations rediscoveries of long forgotten artists and radical shifts in the canon all of which went so completely against common knowledge that it was hard to believe it was true Where does the idea of the timeless classic come from And how has it become so fiercely contested By recovering disputes about works of art from the eighteenth century to the close of the twentieth Gurstein takes us into unfamiliar aesthetic and moral terrain providing a richly imagined historical alternative to accounts offered by both cultural theorists advancing attacks on the politics of taste and those who continue to cling to the ideal of universal values embodied in the classic As Gurstein brings to life the competing responses of generations of artists art lovers and critics to specific works of art she makes us see the same object vividly and directly through their eyes and feel in all its enlarging intensity what they felt *Gift-Giving and Materiality in Europe, 1300-1600* Lars Kjaer, Gustavs

Strenga, 2022-09-08 Gift giving played an important role in political social and religious life in medieval and early modern Europe This volume explores an under examined and often overlooked aspect of this phenomenon the material nature of the gift Drawing on examples from both medieval and early modern Europe the authors from the UK and across Europe explore the craftsmanship involved in the production of gifts and the use of exotic objects and animals from elephant bones to polar bears and living holy objects to communicate power class and allegiance Gifts were publicly given displayed and worn and so the book explores the ways in which as tangible objects gifts could help to construct religious and social worlds But the beauty and material richness of the gift could also provoke anxieties Classical and Christian authorities agreed that in gift giving it was supposed to be the thought that counted and consequently wealth and grandeur raised worries about greed and corruption was a valuable ring payment for sexual services or a token of love and a promise of marriage Over three centuries Gift Giving and Materiality in Europe 1300 1600 Gifts as Objects reflects on the possibilities practicalities and concerns raised by the material character of gifts *DK Eyewitness Florence and Tuscany* DK Eyewitness, 2021-05-25 Whether you

Gáldy, Adriana Turpin, 2013-09-11 If collecting the rare and valuable is an entirely normal trait of human behaviour amassing objects from far away places has also long played a role in the history of collecting East and West or North and

South for that matter are of course entirely relative to one's particular geographical position. Therefore it is interesting that collecting exotic objects is an endeavour that unites humanity over millennia and round the globe. The ancient Assyrians did so as assiduously as eighteenth century collectors in Paris or London. Chinese emperors collected Western art and artefacts at a time when Western collectors started to gather ceramics, lacquered furniture or South East Asian prints. Key factors were of course increasingly frequent contact and an ever growing knowledge about the other and about the other's artistic production. Of particular interest to the mission of this working group is the fact that the building of collections was only part of the endeavour but that in many cases the objects imported at huge cost and logistic effort were meant to be displayed in surroundings reminiscent of their original habitat even though their exact original context may have been open to debate and their final exhibition surroundings may have been unrecognisable to anyone from their former home. Western collectors built Chinese cabinets for their exotic treasures often complemented by depictions of Oriental tea parties. Less familiar is perhaps the fact that from the seventeenth century onwards Chinese emperors displayed their European collectibles in palaces built for them for this purpose in Western architectural style. The essays in the present volume therefore attempt to connect the collections of exotic objects with the forms of display adopted by collectors and institutions and thus chart the levels of increasingly informed and intimate encounters between East and West scholars and collectors, art lovers and institutions from the early first millennium BC to the early twentieth century and from South East Asia to North Western Europe.
