Uniquely Human The Basis Of Human Rights

Nicholas Wolterstorff

Uniquely Human The Basis Of Human Rights:

Uniquely Human: the Basis of Human Rights Gabriel Moran, 2013-08-21 The basis of human rights remains in need of exploration The effectiveness of the language of human rights is threatened by its widespread but uncritical use This book is neither a sermon to believers nor an attack by a skeptic It is a critical look at the basis of those few rights that are genuinely universal for example a right not to be tortured or a right to basic subsistence A human right is a claim that every human being can make on the whole human race The rights that are specifically human arise from a human respect for all living beings There is still a widespread assumption that human rights is just another name for the confused idea of natural rights from the eighteenth century rights that were promulgated by and for adult white males The authors of the UNs Universal Declaration of Human Rights in 1948 assumed that they were reformulating an old idea Instead they were beginning a new idea Human rights can be realized only through conversations across differences within gender age culture and religion This book traces those continuing conversations that fill out the diversity within the unity of the human race The convergence of many particular traditions creates a human tradition that can sustain human rights as a standard of moral conduct for all nations Human Rights and Disability John-Stewart Gordon, Johann-Christian Pöder, Holger

Burckhart, 2017-07-14 The formerly established medically based idea of disability with its charity based approach to treatment and services is being replaced by a human rights based approach in which people with impairments are no longer considered medical problems totally dependent on the beneficence of non impaired people in society but have fundamental rights to support inclusion and participation This interdisciplinary book examines the diverse concerns that people with impairments face in the context of human rights provides insights into new developments on important issues relating human rights to disability and features new approaches and solutions to vital problems in the current debate The Oxford

Handbook of International Human Rights Law Dinah Shelton, 2013-10-24 The Oxford Handbook of International Human Rights Law provides a comprehensive and original overview of one of the fundamental topics within international law It contains substantial new essays by more than forty leading experts in the field giving students scholars and practitioners a complete overview of the issues that inform research as well as a map of the debates that animate the field Each chapter features a critical and up to date analysis of the current state of debate and discussion assessing recent work and advancing the understanding of all aspects of this developing area of international law The Handbook consists of 39 chapters divided into seven parts Parts I and II explore the foundational theories and the historical antecedents of human rights law from a diverse set of disciplines including the philosophical religious biological and psychological origins of moral development and altruism and sociological findings about cooperation and conflict Part III focuses on the law making process and categories of rights Parts IV and V examine the normative and institutional evolution of human rights and discuss this impact on various doctrines of general international law The final two parts are more speculative examining whether there is an advantage to

considering major social problems from a human rights perspective and if so how that might be done Part VI analyses current problems that are being addressed by governments both domestically and through international organizations and issues that have been placed on the human rights agenda of the United Nations such as state responsibility for human rights violations and economic sanctions to enforce human rights Part VII then evaluates the impact of international human rights law over the past six decades from a variety of perspectives The Handbook is an invaluable resource for scholars students and practitioners of international human rights law It provides the reader with new perspectives on international human rights law that are both multidisciplinary and geographically and culturally diverse

Creating Human Nature Benjamin Gregg, 2022-10-20 Introduces the new field of political bioethics focusing on the peculiarly political questions posed by human genetic engineering Fichte's Foundations of Natural Right Gabriel Gottlieb, 2016-09-15 This Guide examines Fichte's main political concepts including morality the summons social contract freedom the body and human rights

George Kateb John Seery, 2014-10-24 George Kateb's writings have been innovative in exploring the fundamental quandary of how modern democracy sovereignty vested in the many might nevertheless protect respect promote even celebrate the singular albeit ordinary individual His essays often leading to unexpected results have focused on many inter related topics rights representation constitutionalism war evil extinction punishment privacy patriotism and more This book focuses in particular on his thought in three key areas Dignity These essays exhibit the breadth and complexity of Kateb's notion of dignity and outline some implications for political theory Rather than a solely moral approach to the theory of human rights he elaborates a human dignity rationale for the very worth of the human species Morality Here Kateb challenges the position that moral considerations are often too demanding to have a place in the rough and tumble of modern politics and political analysis Rejecting common justifications for the propriety of punishment he insists that state based punishment is a perplexing moral problem that cannot be allayed by repairing to theories of state legitimacy Individuality These essays gather some of Kateb's rejoinders and correctives to common conceptions and customary critiques of the theory of democratic individuality He explains that Locke's hesitations and religious backtracking are instructive perhaps as precursors for the ways in which vestigial beliefs can still cloud moral reasoning Morality and Moral Controversies

Steven Scalet, John Arthur, 2019-06-18 Morality and Moral Controversies 10th Edition challenges students to critically assess today's leading moral social and political issues As a comprehensive anthology it provides students with the tools they need to understand the philosophical ideas that are currently shaping our world The 10th edition includes classic and contemporary readings in moral theory the most current topics in applied ethics and updated debates in social and political philosophy As in the previous nine editions the materials were selected for balance timeliness and accessibility after reviewing a vast range of possible articles from leading scholarly journals mainstream periodicals online posts and book chapters Hallmarks include carefully edited and philosophically relevant U S Supreme Court decisions compelling readings

and contrasting points of view that reflect a broad ethical and political spectrum Upon completing this book readers will be able to Understand philosophical ideas that are shaping the world today Apply various philosophical ideas to politics religion ethics economics personal relationships medicine the environment and climate change warfare and other areas Appreciate how to construct apply and evaluate basic philosophical arguments Key updates to the 10th edition include All material published in the actual book in contrast to placing sections online behind a paywall as was the case in earlier editions with a different publisher New readings on autonomous warfare self driving cars the right to health care technology and privacy the value of democracy racial equality immigration **Understanding Liberal Democracy** Nicholas Wolterstorff,2012-09-27

Understanding Liberal Democracy presents notable work by Nicholas Wolterstorff at the intersection between political philosophy and religion Alongside his influential earlier essays it includes nine new essays in which Wolterstorff develops original lines of argument and stakes out novel positions regarding the nature of liberal democracy human rights and political authority Taken together these positions are an attractive alternative to the so called public reason liberalism defended by thinkers such as John Rawls The volume will be of interest to philosophers political theorists and theologians engaging a wide audience of those interested in how best to understand the nature of liberal democracy and its relation to religion **Justice and Ethics in the Contemporary World** Abbas Aghdassi,2018-01-01 This is an edited volume of some

of the selected papers presented in the International Conference on Justice and Ethics ICJECA 2017 which was held in Ferdowsi University of Mashhad ICJECA aimed to bring together researchers lecturers and scholars to exchange and share new ideas on all aspects of the interrelation between justice ethics Several discussions covered the theoretical and practical challenges and some solutions were suggested *Religious Foundations for Global Ethics* Robert McLaren,2016-12-05

Religious Foundations for Global Ethics is an overview of morality in a nation of immigrants starting with the basic question of what morality is and culminating in an examination of morality as a source of potential conflict and how those conflicts can be resolved peacefully The author strives to discuss ethical concerns from a variety of religious philosophical and psychological perspectives so that students are able to consider issues outside of their own cultural point of view
