The World of Myth David Adams Leeming, 1992-02-27 Hercules Zeus Thor Gilgamesh these are the figures that leap to mind when we think of myth But to David Leeming myths are more than stories of deities and fantastic beings from non

Christian cultures Myth is at once the most particular and the most universal feature of civilization representing common concerns that each society voices in its own idiom Whether an Egyptian story of creation or the big bang theory of modern physics myth is metaphor mirroring our deepest sense of ourselves in relation to existence itself Now in *The World of Myth* Leeming provides a sweeping anthology of myths ranging from ancient Egypt and Greece to the Polynesian islands and modern science We read stories of great floods from the ancient Babylonians Hebrews Chinese and Mayans tales of apocalypse from India the Norse Christianity and modern science myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia Leeming has culled myths from Aztec Greek African Australian Aboriginal Japanese Moslem Hittite Celtic Chinese and Persian cultures offering one of the most wide ranging collections of what he calls the collective dreams of humanity More important he has organized these myths according to a number of themes comparing and contrasting how various societies have addressed similar concerns or have told similar stories In the section on dying gods for example both Odin and Jesus sacrifice themselves to renew the world each dying on a tree Such traditions he proposes may have their roots in societies of the distant past which would ritually sacrifice their kings to renew the tribe In *The World of Myth* David Leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor metaphor for the story of the relationship between the known and the unknown both around us and within us Fantastic tragic bizarre sometimes funny the myths he presents speak of the most fundamental human experience a part of what Joseph Campbell called the wonderful song of the soul's high adventure *Buddha's Möbius Strip* Ja-Sung

Oh,2021-01-30 1 Now mankind is fighting against the Corona virus Everyday a lot of people are dying dead and suffering by the Corona virus circulating the world Heavier suffering and burden are given to the economical weak This is a very serious problem to be solved soon However it is only a small tip of big problem we are facing today The more serious and hard to solve problem like Gordian knot is the environmental problems of earth revealing the symptoms such as the marine pollution destruction of forest desertification climatic change and so on accelerated by the financial capitalism and tribal egoism As philosopher Nietzsche said mankind becomes the disease of earth At this rate Homo sapiens will disappear before the great flower of Earth Democracy begins to bloom This terrible result is the product of ego centric small reason dichotomous reason namely instrumental reason Such selfish exclusive reason constructs the vertical system of knowledge vertical relationship of possession and vertical ruling relationship at any cost We can not avoid greed opposition deception distrust conflict violence and war It is because the self is the genius of the lie and deception so confabulates endlessly to justify and rationalize himself or herself in order to maximize his or her benefits and pleasures We can not avoid the conflict between two monadic selves conflict between two logoi conflict between two benefits and conflict between two justifications So we can make a long list of cases of tragic violences and wars caused by the political leaders who was just a greedy liar swindler intellectual dwarf and sly hypocrite However the direction and way for the collective intelligence are clear and distinct It is inevitable to solve

the pains of mankind and all living bodies of earth 2 The collective intelligence of mankind has explored and tried to discover the ultimate truth and to actualize the democracy incessantly Science and philosophy are the tracks of hard fighting of brave men in order to make the good world where the universal truth is alive in the justice and democracy The collective intelligence of mankind has achieved the incessant progress through the Copernican changes in scientific truth Science has escalated the status of human beings continuously in the universe All human beings are equal extremely precious and solemn Being allowed to parody Wittgenstein now it is time to keep silent about the affairs which are not coincident with the truth of science in order to keep the infinite value and dignity of human beings It is because the substantialization of false concepts allows all kinds of liars and swindlers to win the games pleasantly while justice keeps silent and human happy life and peace of earth are destroyed in the white screamings Contemporary great philosopher Deleuze overturns such false concepts decisively and opens new metaphysics and ethics based on the contemporary sciences Deleuze s philosophy of multiplicity and event is very close to Buddha s philosophy of Dharma and Middle Way which is also very scientific and practical Middle Way is the ultimate truth and it is the single unique solution to solve the problem of earth ultimately It is time we need to pay attention seriously on Deleuze and Buddha if we wish to live in justice democracy freedom peace and happiness 3 This book compares the same points and different points with selected several keywords in the epistemology ontology and practical theory between Deleuze and Buddhism Both will go forward together for the democracy peace and happiness of earth Michel Foucault predicted that the 20th century will be considered as that of Deleuze which will never be a joke or an exaggeration We can enter into the Buddhism and come out of Deleuze and vice versa **Grand Expectations** James T. Patterson,1996 A portrait of America from 1945 through Watergate that weaves the major political cultural and economic events of the period

Consciousness in Myth John W. Tigue, 1994 The Transformation of Consciousness in Myth reflects the spectacle of our age with its changing ideas and values This work is an exploration of past myths and their relationship with our present personal and social mythologies as related through psychology As many of our present myths are becoming obsolete the author elaborates upon what will replace them Human beings spiritual journeys and their purpose in the cosmos are discussed The theories of Carl Jung and Joseph Campbell are used to explain and clarify the transformation of consciousness that occurs in myth and to those persons who enter into the psychological journey of myth making A primary source for furthering personal and global transformation is the role of the feminine Professor Tigue seeks to clarify and deepen our understanding of Jung's collective unconscious and archetypes His holistic approach of integrating mysticism spirituality myth and psychology is of particular value for the ardent seeker
