Transformative Motherhood Transformative Motherhood:

Transformative Motherhood Linda Layne, 1999-08 Our consumer culture sets exacting standards and norms for what constitutes an ideal child. The tough realities of life often create children and child bearing and rearing circumstances that are outside the ideal. How do women whose experiences don't match the norm cope and adapt? How do they make sense of it to themselves and to the world? In a rich series of ethnographic case studies *Transformative Motherhood* intimately conveys the experiences of women in the United States who in each case have reproductive encounters that do not match up to these cultural standards. From women who choose to become surrogate foster or adoptive mothers to others who give birth to children with disabilities or who have had a pregnancy loss, all creatively meet the challenges posed by their particular mothering experiences. It is often the language of giving and getting so prominent in a consumer culture that these women use to make sense of their situation. In the process *Transformative Motherhood* redefines conventional understandings of motherhood, the mother-child relationship, and the role of biology and the law in determining what constitutes a family. The contributors include Rayna Rapp, Helena Ragone, Judith A. Modell, Danielle Wozniak, Gail Landsman, and Linda L. Layne. This text opens up multiple possibilities for reading contemporary women as responsive speaking subjects involved in reconstructing and transferring meanings without consolidating or totalizing their outcomes. *Resources for Feminist Research* Winter/Spring 2001 Vol 28 No 3 4

Expecting Wonder Brittany L. Bergman, 2020-08-04 When you're expecting a baby, all the focus seems to be on the external trappings of pregnancy: baby showers, doctor appointments, setting up the nursery, learning about baby's development. But amid all that preparation, your own emotional and spiritual journey is also taking place. You're not just growing a baby; you're becoming a mother. In *Expecting Wonder*, Brittany L. Bergman dives into this identity transformation with wit and grace, offering a heart-level guidebook for women in the season of pregnancy. Bergman shares stories of wrestling with fear, learning to trust God's goodness, and making space physically and emotionally for both her baby and her changing identity. By sharing her own honest journey of fear, change, and hope, Bergman offers the reader a picture of the miracle that God is working, not just in the reader's body but also in her soul.

Mom Rebecca Jo Plant,2010-03-15 In the early twentieth century Americans often waxed lyrical about Mother Love signaling a conception of motherhood as an all encompassing identity rooted in self sacrifice and infused with social and political meaning By the 1940s the idealization of motherhood had waned and the nation s mothers found themselves blamed for a host of societal and psychological ills In Mom Rebecca Jo Plant traces this important shift by exploring the evolution of maternalist politics changing perceptions of the mother child bond and the rise of new approaches to childbirth pain and suffering Plant argues that the assault on sentimental motherhood came from numerous quarters Male critics who railed against female moral authority psychological experts who hoped to expand their influence and women who strove to be more than wives and mothers all for their own distinct reasons sought to discredit the longstanding maternal ideal By showing how motherhood ultimately came to be redefined as a more private and partial component of female identity Plant illuminates a major reorientation in American civic social and familial life that still reverberates today

Autistic Motherhood Rosângela Maria Maldonado, This book was born from the silence of many women Silence not due to a lack of feelings but due to a lack of listening For a long time motherhood was described based on generalist models far removed from the real experiences of neurodivergent women especially those on the autistic spectrum Thus their voices were muffled by discourses that did not represent them and by expectations that often did not match their sensory emotional and social reality *Autistic Motherhood* is therefore a book dedicated to autistic women who want to be mothers who are already mothers or who are reflecting on this possibility It is also an invitation to listen to family members professionals and educators who wish to understand the specific layers of this experience More than a manual it is a space for acceptance validation and guidance Each chapter was carefully written to offer practical knowledge deep reflections and above all a sense of belonging Here we talk about planning for motherhood with our feet on the ground about the impact of the diagnosis on the desire to be a mother about childbirth the postpartum period raising children the emotional bond and the constant struggle to balance giving with preserving one's identity We address without romanticizing the pains that emerge when sensory fatigue mixes with maternal guilt when social judgment tries to dictate paths or when loneliness imposes itself even in the midst of the most genuine love This book was developed because there are questions that many autistic mothers ask themselves in silence There are experiences that are not reflected in society And there are wounds that only begin to heal when you discover that other women have also felt the same and found possible paths As you read these pages you will find not only stories and guidance but also a sensitive map that points to the possible balance between being a mother and continuing to be yourself And that can make all the difference

Recreating Motherhood Barbara Katz Rothman, 2000 Selling genetically gifted human eggs on the free market for a hefty price In vitro fertilization Fetal rights Prenatal diagnosis Surrogacy All are instances of biomedical and social advancements with which we have become familiar in recent years Yet these issues are often regarded as distinct or only loosely related under the rubric of reproduction Barbara Katz Rothman demonstrates how they form a complex whole that demands of us in response a woman-centered class-sensitive way of understanding motherhood We need a social policy for dealing with mothers and motherhood that is consistent with feminist politics and feminist theory Her book shows how we as a society must first recognize that the real needs of mother father and children have been swept aside in an attempt to reduce the complex process of human reproduction to a clinical event that can be controlled by medical

technology Rothman suggests ways to accomplish social and legal change that would allow technological advances to affirm motherhood and the mother child relationship without cost to women's identity This new edition of *Recreating Motherhood* contains exciting updates Rothman shows how this material is key in understanding the family not just motherhood And a new chapter *Reflections on a Decade* explores how new reproductive technologies combine with new marketing and new genetics to pose troubling social questions

Spiritual and Social Transformation in African American Spiritual Churches Margarita Simon Guillory, 2017-12-22 At the core of African American religion's response to social inequalities has been a symbiotic relationship between socio-political activism and spiritual restoration. Drawing on archival material and ethnographic fieldwork with African American Spiritual Churches in the USA, this book examines how their spiritual and social work can shed light on the interplay between corporate activism and individual spirituality. This book traces the development of this politico-spiritual approach to injustice from the beginning of the twentieth century through the opening decade of the twenty-first century, using the work of African American Spiritual Churches as a lens through which to observe its progression. Addressing subjects such as spiritual healing, support of the homeless, gender equality, and the aftermath of hurricane Katrina, it demonstrates that these communities are clearly motivated by the dual concerns of the soul and the community. This study diversifies our understanding of the African American religious landscape, highlighting an approach to social injustice that conjoins both political and spiritual transformations. As such, it will be of significant interest to scholars of religious studies, African American studies, and politics.

Birthing a Mother Elly Teman, 2010-03-04 *Birthing a Mother* is the first ethnography to probe the intimate experience of gestational surrogate motherhood. In this beautifully written and insightful book, Elly Teman shows how surrogates and intended mothers carefully negotiate their cooperative endeavor. Drawing on anthropological fieldwork among Jewish Israeli women interspersed with cross-cultural perspectives of surrogacy in the global context, Teman traces the processes by which surrogates relinquish any maternal claim to the baby even as intended mothers accomplish a complicated transition to motherhood. Teman's groundbreaking analysis reveals that as surrogates psychologically and emotionally disengage from the fetus they carry, they develop a profound and lasting bond with the intended mother.
