Treasures Of The Earth Need Greed And A Sustainable Future

Michael S. Aßländer, Sarah Hudson

Treasures Of The Earth Need Greed And A Sustainable Future:

Treasures of the Earth Saleem H. Ali, 2009-01-01 Would the world be a better place if human societies were somehow able to curb their desires for material goods Saleem Ali's pioneering book links human wants and needs by providing a natural history of consumption and materialism with scientific detail and humanistic nuance It argues that simply disavowing consumption of materials is not likely to help in planning for a resource scarce future given global inequality development imperatives and our goals for a democratic global society Rather than suppress the creativity and desire to discover that is often embedded in the exploration and production of material goods which he calls the treasure impulse Ali proposes a new environmental paradigm one that accepts our need to consume treasure for cultural and developmental reasons but warns of our concomitant need to conserve In evaluating the impact of treasure consumption on resource rich countries he argues that there is a way to consume responsibly and alleviate global poverty [Geoscience for the Public Good and Global Development](#)

Gregory R. Wessel, Jeffrey K. Greenberg, 2016-05-18 Offers overview of applications of geosciences to sustainable development and geophilanthropic efforts worldwide and offers advice to guide creation of development projects Primacy of geologic input to all development activities is highlighted along with problems that are encountered and environmental issues that must be addressed **Mining and Sustainable Development** Sumit. K. Lodhia, 2018-01-12 Mining is a transformative activity which has numerous economic social and environmental impacts These impacts can be both positive and adverse enhancing as well as disrupting economies ecosystems and communities The extractive industries have been criticised heavily for their adverse impacts and involvement in significant social and environmental scandals More recently these industries have sought to respond to negative perceptions and have embraced the core principles of sustainability This sector could be regarded as a leader in sustainability initiatives evident from the various developments and frameworks in mining and sustainability that have emerged over time This book reviews current topical issues in mining and sustainable development It addresses the changing role of minerals in society the social acceptance of mining due diligence in the mining industry critical and contemporary debates such as mining and indigenous peoples and transit worker accommodation corporate sustainability matters such as sustainability reporting and taxation and sustainability solutions through an emphasis on renewable energy and shared used infrastructure Written by experts from Australia Europe and North America but including examples from both developed and developing countries the chapters provide a contemporary understanding of sustainability opportunities and challenges in the mining industry The book will be of interest to practitioners government and civil society as well as scholars and students with interests in mining and sustainable development *Mining, Materials, and the Sustainable Development Goals (SDGs)* Cristian Parra, Brandon Lewis, Saleem H. Ali, 2020-10-13 Mining Materials and the Sustainable Development Goals SDGs 2030 and Beyond provides a systematic assessment of how the mining and materials sector contributes to the 17 sustainable development goals SDGs set forth by

the United Nations in 2015 While the target date of 2030 is considered a benchmark for reaching these goals the book looks beyond this date and considers a longer term vision

FEATURES Written by a consortium of authors from developing and developed countries Offers coverage of environmental economic and social dimensions of the SDGs Follows the 17 SDGs and includes a short chapter on each followed by a case example Includes longer conceptual chapters that consider cross cutting issues as well Aimed at those working in minerals mining and materials this work offers readers a practical vision of how these sectors can have a positive impact on meeting these vital global targets

Between the Plough and the Pick Kuntala Lahiri-Dutt, 2018-03-01 y global social agrarian and political changes whilst underlining the roles that local social political historical contexts play in shaping mineral extractive processes and practices It shows that the people who are engaged in these mining practices are often the poorest and most exploited labourers erstwhile peasants caught in the vortex of global change who perform the most insecure and dangerous tasks Although these people are located at the margins of mainstream economic life they collectively produce enormous amounts of diverse material commodities and find a livelihood and often a pathway out of oppressive poverty The contributions to this book bring these people to the forefront of debates on resource politics The contributors are international scholars and practitioners who explore the complexities in the histories in labour and production practices the forces driving such mining the creative agency and capacities of these miners as well as the human and environmental costs of ASM They show how these informal artisanal and small scale miners are inextricably engaged with or bound to global commodity values are intimately involved in the production of new extractive territories and rural economies and how their labour reshapes agrarian communities and landscapes of resource access and control This book drives home the

understanding that collectively this social and economic milieu redefines our conceptualisation of resource politics mineral dependent livelihoods extractive geographies of resources and commodities and their multiple meanings *Extracting Innovations* Martin J. Clifford, Robert K. Perrons, Saleem H. Ali, Tim A. Grice, 2018-06-13 This book considers the most contemporary innovations propelling the extractive industries forward while also creating new environmental and social challenges The socio ecological fabric of innovation in the extractive industries is considered through an integrative approach that brings together engineers natural scientists and social scientists academics and practitioners giving an empirically grounded and realistic evaluation of the innovations in this sector It synthesizes a series of questions including **Deeper City** Joe Ravetz, 2020-05-19 Deeper City is the first major application of new thinking on deeper complexity applied to grand challenges such as runaway urbanization climate change and rising inequality The author provides a new framework for the collective intelligence the capacity for learning and synergy in many layered cities technologies economies ecologies and political systems The key is in synergistic mapping and design which can move beyond smart winner takes all competition towards wiser human systems of cooperation where winners are all Forty distinct pathways from smart to wise are mapped in Deeper City and presented for strategic action ranging from local neighbourhoods to global finance As an atlas of the future and resource library of pathway mappings this book expands on the author's previous work City Region 2020 From a decade of development and testing Deeper City combines visual thinking with a narrative style and practical guidance This book will be indispensable for those seeking a sustainable future students politicians planners systems designers activists engineers and researchers A new postscript looks at how these methods can work with respect to the 2020 pandemic and asks How can we turn crisis towards transformation **Africa's Mineral Fortune** Saleem H. Ali, Kathryn Sturman, Nina Collins, 2018-08-20 For too long Africa's mineral fortune has been lamented as a resource curse that has led to conflict rather than development for much of the continent Yet times are changing and the opportunities to bring technical expertise on modern mining alongside appropriate governance mechanisms for social development are becoming more accessible in Africa This book synthesizes perspectives from multiple disciplines to address Africa's development goals in relation to its mineral resources The authors cover ways of addressing a range of policy challenges environmental concerns and public health impacts and also consider the role of globalization within the extractive industries Academic research is coupled with key field vignettes from practitioners exemplifying case studies throughout The book summarizes the challenges of natural resource governance suggesting ways in which mining can be more effectively managed in Africa By providing an analytical framework it highlights the essential intersection between natural and social sciences central to efficient and effective harnessing of the potential for minerals and mining to be a contributor to positive development in Africa It will be of interest to policy makers industry professionals and researchers in the extractive industries as well as to the broader development community **Critical Minerals, the Climate Crisis and the Tech Imperium** Sophia Kalantzakos, 2023-02-28 This book

examines the latest manifestations of resource competition The energy transition and the digitalization of the global economy are both accelerating even as geopolitics driven by Sino American hyper competition become increasingly contentious The volume brings together an interdisciplinary group of scholars policy makers institutional stakeholders and industry experts to analyze not only the transition itself but also the implications that the need for uninterrupted access to unprecedented levels of raw materials generates By framing the challenges ahead for global society governance industry international power politics and the environment the book asks hard questions about the choices that need to be made to reach net zero by mid century Moreover it sheds light on different facets of the growing risks to what have been global interdependent supply chains in a way that is nuanced balanced and practical thus pushing back on some of the most sensational headlines that breed confusion and may lead policymakers to make more narrow and less effective decisions The volume is an outcome of Rich Rocks the Climate Crisis and the Tech imperium a Summer Institute at Caltech and the Huntington that took place in July 2021

The Social Ecology of Border Landscapes Anna Grichting, Michele Zebich-Knos, 2017-05-02 The collection of essays in *The Social Ecology of Border Landscapes* defines borders and borderlands to include territorial interfaces marginal spaces physical sociological and psychological and human consciousness From theoretical and conceptual presentations on social ecology and its agencies and representations to case studies and concrete projects and initiatives the contributing authors uncover a thread of contemporary thought and action on this important emerging field The essays aim to define the territories of social ecology to investigate how social agencies can activate ecological processes and systems and to understand how the interactions of people and ecosystems can create new sustainable landscapes across tangible and intangible territorial rifts

Routledge Handbook of Environmental Conflict and Peacebuilding Ashok Swain, Joakim Öjendal, 2018-04-17 The past two decades have witnessed the emergence of a large body of research examining the linkage between environmental scarcity violent conflict and cooperation However this environmental security polemic is still trying to deliver a well defined approach to achieving peace Studies are being undertaken to find the precise pathways by which cooperative actions are expected not only to pre-empt or moderate resource conflicts but also to help diffuse cooperative behaviour to other disputed issues The recognition that environmental resources can contribute to violent conflict accentuates their potential significance as pathways for cooperation and the consolidation of peace in post conflict societies Conceived as a single and reliable reference source which will be a vital resource for students researchers and policy makers alike the Routledge Handbook of Environmental Conflict and Peacebuilding presents a wide range of chapters written by key thinkers in the field organised into four key parts Part I Review of the concept and theories Part II Review of thematic approaches resources scarcity intervention adaptation and peacebuilding Part III Case studies Middle East Iraq Jordan Liberia Nepal Colombia Philippines Part IV Analytical challenges and future oriented perspectives Enabling the reader to find a concise expert review on topics that are most likely to arise in the course of conducting research or policy making this volume presents a truly global overview of the key issues and debates in environmental conflict and peacebuilding

Africa's Natural Resources and Underdevelopment Kwamina Panford, 2017-02-02 This book explores how African countries can convert their natural resources particularly oil and gas into sustainable development assets Using Ghana one of the continent's newest oil producing countries as a lens it examines the resource curse faced by other producers such as Nigeria Angola and Equatorial Guinea and demonstrates how mismanagement in those countries can provide valuable lessons for new oil producers in Africa and elsewhere Relying on a broad range of fieldwork and policymaking experience Panford suggests practical

measures for resource rich developing countries to transform natural resources into valuable assets that can help create jobs boost human resources and improve living and working conditions in Ghana in particular He suggests fiscal legal and environmental antidotes to resource mismanagement which he identifies as the major obstacle to socioeconomic development in countries that have historically relied on natural resources

Religion and Science: The Basics Philip Clayton, 2013-03-01 Religion and science are arguably the two most powerful social forces in the world today But where religion and science were once held to be compatible most people now perceive them to be in conflict This unique book provides the best available introduction to the burning debates in this controversial field Examining the defining questions and controversies renowned expert Philip Clayton presents the arguments from both sides asking readers to decide for themselves where they stand science or religion or science and religion Intelligent Design vs New Atheism the role of scientific and religious ethics designer drugs AI and stem cell research the future of science vs the future of religion Viewpoints from a range of world religions and different scientific perspectives are explored making this book essential reading for all those wishing to come to their own understanding of some of the most important debates of our day

The Politics of Inclusive Development Samuel Hickey, Kunal Sen, Badru Bukenya, 2015 It is now widely accepted that politics plays a significant role in shaping the possibilities for inclusive development However the specific ways in which this happens across different types and forms of development and in different contexts remains poorly understood This collection provides a state of the art review regarding what is currently known about the politics of inclusive development Leading academics offer systematic reviews of how politics shapes development across multiple dimensions including through growth natural resource governance poverty reduction service delivery social protection justice systems the empowerment of marginalised groups and the role of both traditional and non traditional donors The volume not only provides a comprehensive update but also a ground breaking range of new directions for thinking and acting around these issues The book s originality thus derives not only from the wide scope of its case study material but also from the new conceptual approaches it offers for thinking about the politics of inclusive development and the innovative and practical suggestions for donors policy makers and practitioners that flow from this

Anthropology in the Mining Industry Glynn Cochrane, 2017-01-14 This book outlines how Rio Tinto one of the world s largest miners redesigned and rebuilt relationships with communities after the rejection of the company during Bougainville s Civil War Glynn Cochrane recalls how he and colleagues utilized their training as social anthropologists to help the company to earn an industry leadership reputation and competitive business advantage by establishing the case for long term on the ground smoke in the eyes interaction with people in local communities around the world despite the appeal of maximal efficiency techniques and quicker easier answers Instead of using ready made formulaic toolkits Rio Tinto relied on community practitioners to try to accommodate local preferences and cultural differences This volume provides a step by step account of how mining companies can use social anthropological and ethnographic insights to

design ways of working with local communities especially in times of upheaval
