User Manual Sanyo Ecr 235

Kamil Zeidler, Joanna Kamień

User Manual Sanyo Ecr 235:

Aesthetics of Law Kamil Zeidler, Joanna Kamień, 2024-06-05 The aesthetics of law deals with the relationship between law and beauty by searching for aesthetic values in the law itself an internal perspective by finding material related to law in art and culture an external perspective and lastly by demonstrating the impact of legal norms on what can be broadly understood as beauty law as a tool of aestheticization Regarding all these phenomena the aesthetics of law ultimately allows us to see the law more clearly and more profoundly What is more the law does not function nor has it ever functioned separately from its means of expression which are incontrovertibly subject to aesthetic interpretation If we think about law in this way perceiving not only the message but also the manner in which it is conveyed the whole set of means and tools used the perfection and beauty of the form then we will see art in it After all the widely known and still applicable ancient maxim *ius est ars boni et aequi* equates law and art This alone should be an argument for aesthetic reflection on the law a field of endeavour that should never have been abandoned The book's twenty three chapters written by scholars from various countries and three continents are thematically diverse In them we present the manifestations of the aesthetics of law from an external perspective If we accept a definition of the concept of law that is as broad as possible not only as a synonym of a certain formalized normative system but also including the process of its creation legislation its application and interpretation jurisprudence and even teaching on and research into it doctrine we can identify a wealth of aesthetic references in the law A broadly understood aesthetics of law approached solely from an external perspective covers such disciplines as law and literature the aesthetics of legal rhetoric the trial as performance the aesthetics of courthouse architecture law in the fine arts law in film law and music pictorial law symbols of the law and legal symbols symbols of the state and power legal archaeology etc The field of research is therefore wide In addition to topics traditionally and obviously associated with the aesthetics of law such as law and literature law in the fine arts and court rhetoric there are chapters on e.g. legal ethics and trademarks All authors share the belief that beauty in law is important even when it is hidden in a caricature Further they argue for restoring the aesthetics of law to its proper place in philosophical and legal discourse as doing so would yield a host of benefits for the addressees of law
