Generationally Speaking Alastair Greener, 2025-11-03 For the first time in history eight generations are alive at the same time and four of them are working side by side in today's workplace Whether in our everyday lives or at work we're all interacting across multiple generations and yet bridging the age gap has never been more challenging Generational labels often based on lazy surface level stereotypes can reinforce division and miscommunication Baby Boomers are out of touch Millennials are entitled and Gen Zs are so chronically online they can't talk face to face But these assumptions don't always reflect reality If we look beyond the stereotypes and headlines and start with understanding instead of judgement we can get past this disconnect communicate more effectively and appreciate the strengths each generation brings to our workplaces communities and everyday lives In this fascinating and much needed book Alastair Greener helps the reader get to know each of the generations providing relevant cultural touchpoints astute observations and a sense of what makes them tick He then uses these insights coupled with his own original research to make sense of how the generations communicate and suggests how best to navigate having multiple generations in the workforce and in our wider society Living in a multigenerational world should be seen as an asset not an obstacle as it means that different perspectives can be brought to the table Everybody has something to offer as well as something to learn so let's break down the generational silos and start building bridges
